One of the most
momentous stories of
the last century is
China ' s rise from a self

satisfied, anti-modern,
decaying society into a
global power that
promises to one day
rival the United States.
Chiang Kai-shek, an
autocratic, larger-than-
life figure, dominates
this story. A modernist
as well as a neo-
Confucianist, Chiang
was a man of war who
led the most ancient and

world through a quarter
century of bloody
revolutions, civil
conflict, and wars of
resistance against
Japanese aggression. In
1949, when he was
defeated by Mao
Zedong—his archrival for
leadership of China—he
fled to Taiwan, where
he ruled for another
twenty-five years.
Playing a key role in the

cold war with China, Chiang suppressed opposition with his “white terror,” controlled inflation and corruption, carried out land reform, and raised personal income, health, and educational levels on the island. Consciously or not, he set the stage for Taiwan’s evolution of a Chinese model of democratic modernization. Drawing heavily on Chinese sources including

Chiang’s diaries, *The Generalissimo* provides the most lively, sweeping, and objective biography yet of a man whose length of uninterrupted, active engagement at the highest levels in the march of history is excelled by few, if any, in modern history. Jay Taylor shows a man who was exceedingly ruthless and temperamental but who was also courageous and conscientious in

matters of state. Revealing fascinating aspects of Chiang’s life, Taylor provides penetrating insight into the dynamics of the past that lie behind the struggle for modernity of mainland China and its relationship with Taiwan. In 1863, the thirteen-year-old boy who would come to be called Comanche Jack was sent to the well to fetch

water. Instead, he joined a wagon train bound for Santa Fe. Thus began the exploits of Simpson E. "Jack" Stilwell (1850-1903), a man generally known for slipping through Indian lines to get help for some fifty frontiersmen besieged by the Cheyenne at Beecher Island in 1868. Daring as his part in the rescue might have been, it was only one noteworthy episode of many in Comanche Jack Stilwell's life—a life whose rollicking story is finally told here in

full. In his later years, Stilwell crafted his own legend as a celebrated raconteur. Authors Clint E. Chambers (whose grandfather was Stilwell's nephew) and Paul H. Carlson scour the available primary and secondary sources to find the unvarnished truth and remarkable facts behind the legend. In a crisp, fast-paced style, the narrative follows Stilwell from his precocious start as a teenage runaway turned teamster on the Santa

Fe Trail to his later turns as lawyer, judge, U.S. marshal, hangman, and associate of Buffalo Bill Cody. Along the way, he learned Spanish, Comanche, and sign language, scouted for the U.S. Army, and became a friend of George A. Custer and an avowed, if failed, avenger of his kid brother Frank, an outlaw killed by Wyatt Earp. Unfolding against the backdrop of the Civil War, cattle drives, the Indian Wars, the Oklahoma land

rush, and the rough justice of the Wild West, Comanche Jack Stilwell takes a true American character out of the shadows of history and returns to the story of the West one of its defining figures. Tuchman won her second Pulitzer Prize for this nonfiction masterpiece—an authoritative work of history that recounts the birth of modern

China through the eyes of one extraordinary American. General Joseph W. Stilwell was a man who loved China deeply and knew its people as few Americans ever have. Barbara W. Peopled by warlords, ambassadors, and missionaries, this classic biography of the cantankerous but level-headed "Vinegar Joe" sparkles with Tuchman's genius

Sand against the Wind: Stilwell and the American experience in China, 1911-15 Da Capo Press

Historian Barbara Tuchman follows the career of Vinegar Joe Stilwell whose involvement in China spanned the years of revolution, civil war and invasion by the Japanese. It is both a biography of Stilwell and a historical work on Sino-American relations. October, in The Wall Street Journal The fourteenth century reflects two contradictory images: on the one hand, a glittering age of crusades, cathedrals, and chivalry; on the other, a world plunged into chaos and spiritual agony. In this revelatory work, Barbara W. Tuchman examines not only the great rhythms of history but the grain and texture of domestic life: what childhood was like; what marriage meant; how money, taxes, and war dominated the lives of serf, noble, and clergy alike. Granting her subjects their loyalties, treacheries, and guilty passions, Tuchman re-creates the lives of proud

cardinals, university scholars, grocers and clerks, saints and mystics, lawyers and mercenaries, and, dominating all, the knight—in all his valor and “furious follies,” a “terrible worm in an iron cocoon.” Praise for *A Distant Mirror* “Beautifully written, careful and thorough in its scholarship . . . What Ms. Tuchman does superbly is to tell how it was. . . . No one has ever done this better.”—The New York Review of Books “A beautiful, extraordinary book . . . fantastic and complex story finely told.”—The New York Times Book Review **The Generalissimo** Springer Nature This textbook provides a unified and concise exploration of undergraduate mathematics by approaching the subject through its history. Readers will discover the rich tapestry of ideas behind familiar topics from the undergraduate curriculum, such as calculus, algebra,

topology, and more. Featuring historical episodes ranging from the Ancient Greeks to Fermat and Descartes, this volume offers a glimpse into the broader context in which these ideas developed, revealing unexpected connections that make this ideal for a senior capstone course. The presentation of previous versions has been refined by omitting the less mainstream topics and inserting new connecting material,

allowing instructors to cover the book in a one-semester course. This condensed edition prioritizes succinctness and cohesiveness, and there is a greater emphasis on visual clarity, featuring full color images and high quality 3D models. As in previous editions, a wide array of mathematical topics are covered, from geometry to computation; however, biographical sketches have been omitted. Mathematics and Its

History: A Concise Edition is an essential resource for courses or reading programs on the history of mathematics. Knowledge of basic calculus, algebra, geometry, topology, and set theory is assumed. From reviews of previous editions: "Mathematics and Its History is a joy to read. The writing is clear, concise and inviting. The style is very different from a traditional text. I found myself picking it up to read at the expense of my usual late evening thriller

or detective novel.... The author has done a wonderful job of tying together the dominant themes of undergraduate mathematics." Richard J. Wilders, MAA, on the Third Edition "The book...is presented in a lively style without unnecessary detail. It is very stimulating and will be appreciated not only by students. Much attention is paid to problems and to the development of mathematics before the end of the nineteenth

century.... This book brings from early westward to the non-specialist interested in mathematics many interesting results. It can be recommended for seminars and will be enjoyed by the broad mathematical community." European Mathematical Society, on the Second Edition

WINNER OF THE PULITZER PRIZE A new and eye-opening interpretation of the meaning of the frontier,

expansion to Trump's border wall. Ever since this nation's inception, the idea of an open and ever-expanding frontier has been central to American identity. Symbolizing a future of endless promise, it was the foundation of the United States' belief in itself as an exceptional nation – democratic, individualistic, forward-looking. Today, though, America has a new symbol: the border wall. In The End of the Myth,

acclaimed historian Greg Grandin explores the meaning of the frontier throughout the full sweep of U.S. history – from the American Revolution to the War of 1898, the New Deal to the election of 2016. For centuries, he shows, America's constant expansion – fighting wars and opening markets – served as a "gate of escape," helping to deflect domestic political and economic conflicts outward. But this deflection meant that the

country's problems, from racism to inequality, were never confronted directly. And now, the combined catastrophe of the 2008 financial meltdown and our unwinnable wars in the Middle East have slammed this gate shut, bringing political passions that had long been directed elsewhere back home. It is this new reality, Grandin says, that explains the rise of reactionary populism and racist nationalism, the extreme anger and

polarization that catapulted Trump to the presidency. The border wall may or may not be built, but it will survive as a rallying point, an allegorical tombstone marking the end of American exceptionalism. *Stilwell and the American Experience in China* Vintage At once intimate and wide-ranging, and as enthralling, surprising, and vivid as the place itself, this is a uniquely eye-opening tour of one of the great metropolises of the world, and its largest Spanish-speaking city. Horizontal Vertigo: The title refers to the fear of ever-impending

earthquakes that led Mexicans to build their capital city outward rather than upward. With the perspicacity of a keenly observant flaneur, Juan Villoro wanders through Mexico City seemingly without a plan, describing people, places, and things while brilliantly drawing connections among them. In so doing he reveals, in all its multitudinous glory, the vicissitudes and triumphs of the city's cultural, political, and social history: from indigenous antiquity to the Aztec period, from the Spanish conquest to Mexico City today—one of the world's leading cultural and financial centers. In this deeply

iconoclastic book, Villoro organizes his text around a recurring series of topics: "Living in the City," "City Characters," "Shocks," "Crossings," and "Ceremonies." What he achieves, miraculously, is a stunning, intriguingly coherent meditation on Mexico City's genius loci, its spirit of place.

The Guns of August is the narrative history of the first month of World War I. It describes the strategies

of the generals, the preparation and morale of the armies of the nations at war, and the everyday problems of the field commanders.

Stilwell and the American Experience in China, 1911-1945 Harper Collins

In early 1942, as America rose in arms against Japan, Major General Joseph W. Stilwell, nicknamed "Vinegar Joe," was sent to China to shore up the U.S. ally, Chian Kai-shek. Among the men he took with him

was his aide, Lt. Colonel Frank Dorn. At Stilwell's request, Dorn kept a record of the daily events of this time and this record initially served as the basis for Stilwell's official report to Washington D.C. after the collapse of the Burma front. This account gives a portrait of Stilwell and his mission.

"A tremendous tale of hushed and unhushed uproars in the linked fields of war and diplomacy" (The New York Times), from the Pulitzer

Prize-winning author of *The Guns of August* In January 1917, the war in Europe was, at best, a tragic standoff. Britain knew that all was lost unless the United States joined the war, but President Wilson was unshakable in his neutrality. At just this moment, a crack team of British decoders in a quiet office known as Room 40 intercepted a document that would change history. The Zimmermann telegram was a top-secret message to the president of Mexico, inviting him to join Germany and Japan in an invasion of the United States. How Britain managed to inform the American government

without revealing that the German codes had been broken makes for an incredible story of espionage and intrigue as only Barbara W. Tuchman could tell it. *The Proud Tower*, *The Guns of August*, and *The Zimmermann Telegram* comprise Barbara W. Tuchman's classic histories of the First World War era. His American men worshipped him. The Chinese armies he trained and led would have gone through hell for him. But the politicians, both in Chung-King and Washington, hated his guts. And after two and a half years of bitter struggle in the China-Burma-India theater during the dog days of World War II, General Joseph W. Stilwell was abruptly relieved of his command and brought back

to the U.S. in an "atmosphere of crime." From the time he flew to the Far East to assume command of the handful of American forces in the C.B.I. theater until his recall in 1944, General Stilwell was engaged in one of the most complex, difficult, and confidential operations in American military history. The Stilwell Papers—brilliantly edited and arranged by Theodore H. White, who knew the General in the C.B.I. theater—record Stilwell's on-the-spot account of the people and

events of the moment with the salty directness of a man obligated to please no one but himself. But this book is not only an account of the various glories and frustrations of war; it is also the autobiography of one of America's greatest World War II commanders. General Stilwell was a strong, courageous man, deeply devoted to his country and charged with crucial responsibilities; and *The Stilwell Papers* is the deeply moving and striking self-portrait of that man and his struggle.

Tuchman turns to America with a fresh new view of the events that led from the first foreign salute to the American Nationhood in 1776 to the last campaign of the Revolution five years later--the moment that inaugurated the existence of a new nation, and announced the coming of a democratic age to the Old World. 8 pages of color, 8 pages of photos, 7 maps.

The Proud Tower, the Pulitzer Prize-winning The Guns of August, and The Zimmerman Telegram comprise Barbara W. Tuchman's classic histories of the First World War era. During the fateful quarter century leading up to World War I, the climax of a century of rapid, unprecedented change, a privileged few enjoyed Olympian luxury as the underclass was "heaving in its pain, its power, and its

hate." In The Proud Tower, Barbara W. Tuchman brings the era to vivid life: the decline of the Edwardian aristocracy; the Anarchists of Europe and America; Germany and its self-depicted hero, Richard Strauss; Diaghilev's Russian ballet and Stravinsky's music; the Dreyfus Affair; the Peace Conferences in The Hague; and the enthusiasm and tragedy of Socialism, epitomized by the assassination of Jean Jaurès on the night the Great War began and an

epoch came to a close. Praise for The Proud Tower "[Barbara W. Tuchman's] Pulitzer Prize-winning The Guns of August was an expert evocation of the first spasm of the 1914–1918 war. A military history of the U.S. army campaigns to open the Burma road to China during World War II. The successful campaign was carried out with a hastily thrown together force

lacking in significant material advantages or logistical support. While acknowledging that the success was unachievable without the contributions of the British and Chinese military forces, the author argues that the campaign demonstrates the professionalism and effectiveness of the American soldiers. Forgotten Ally Vintage Simple Justice is the definitive history of the landmark case *Brown v. Board of Education* and the epic struggle for racial

equality in this country. Combining intensive research with original interviews with surviving participants, Richard Kluger provides the fullest possible view of the human and legal drama in the years before 1954, the cumulative assaults on the white power structure that defended segregation, and the step-by-step establishment of a team of inspired black lawyers that could successfully challenge the law. Now, on the fiftieth anniversary

of the unanimous Supreme Court decision that ended legal segregation, Kluger has updated his work with a new final chapter covering events and issues that have arisen since the book was first published, including developments in civil rights and recent cases involving affirmative action, which rose directly out of *Brown v. Board of Education*.
