Distinguished pediatrician Dr Robert Bucknam, M.D. and co-author Gary Ezzo are two of the world's leading experts on baby sleep and feeding patterns. Millions of new mothers across the globe are coming toward this new brand at an increasing pace as they find and share the life changing success they are achieving with their newborns. This updated Anniversary edition celebrates 25 years with Bucknam and Ezzo's groundbreaking approach which has found favor with over six million parents in all 50 states and has been translated into 20 languages around the world. For 25 years, On Becoming Babywise has been the de facto newborn parenting manual for naturally synchronizing your baby's feeding time, waketime and nighttime sleep cycles, so the whole family can sleep through the night. In his 28th year as a licensed

Pediatrician, Dr. Robert Bucknam, M.D. along with co-author Gary Ezzo, demonstrate how order and stability are mutual allies of every newborn's metabolism and how parents can take advantage of these biological propensities. In particular, they note how an infant's body responds to the influences of parental routine or the lack thereof. Early chapters start with explorations of everyday aspects of infant management such as the three basic elements of daytime activities for newborns: feeding time, waketime, and naptime. Practical discussions then focus on broad and niche topics including feeding philosophies, baby sleep problems, baby scheduling challenges, nap routines, sleep training multiples, baby sleeping props, Colic and Reflux and many other dimensions which impact breast feeding schedules, bottle

feeding tips, and baby sleeping training. Five resource Appendixes provide additional reference material: 1) Taking care of baby and mom 2) A timeline of what to expect and when 3) Baby Sleep Training Problems and Solutions 4) Monitoring Your Baby's Growth 5) Healthy Baby Growth Charts On Becoming Babywise is more than an infant-management concept. It is a mindset for successful parenthood. It can help any parent develop a plan that meets both the needs of a new baby and of the entire family. These principles have worked for millions of parents and, when applied with common sense to your unique situation, can work wonderfully for you too! Recommended by doctors across the country.

‘Spoiling doesn’t come into it – it is impossible to shower your baby with too much love! The first three months of parenthood offer a unique opportunity for parents to lay a loving and solid foundation that will last a lifetime. All parents want reassurance that they are on the right path, and to know they are doing the best for their baby. There are easy and difficult ways, though. From calming the most unsettled baby, to teaching babies to self-settle and resettle, Dorothy Waide provides realistic advice on how to solve common breastfeeding issues, to managing time, relationships and emotional demands in the weeks following birth. Dorothy believes that babies the world over need unconditional love, consistency and boundaries to help them make sense of their new world and their place in it.

The period between twelve and eighteen months places a child on a one-way bridge. Infancy is a thing of the past and toddlerhood is straight ahead. A baby still? Not really, but

neither is he a toddler and that is the key to understanding this phase of growth. Take a couple of photos because the child leaving infancy will not resemble the child entering toddlerhood six months down the road. This is a time of metamorphosis when his potential for learning seems limitless, his budding curiosity unquenchable and his energy level never seems to diminish.
