Identity New York Review of Books

Collects all three volumes of the Eisner Award-nominated graphic novels series, which skewers a self-important male literary poser. Living in a beat-up motel and consorting with the downtrodden as well as the mid-level literati, Fante Bukowski must overcome great obstacles a love interest turned rival, ghostwriting a teen celebrity's memoirs, no actual talent to gain the respect and adoration from critics and, more importantly, his father. Van Sciver has created a scathing, hilarious, and empathetic character study of a self-styled author determined that he's just

one more poem (or drink) away from success. The book includes a foreword by novelist Ryan Boudinot (Blueprints of the Afterlife), a facsimile reproduction of Bukowski's literary debut, 6 Poems (thought lost to time in the wake of a motel fire that destroyed the entire original print run), a "Works Cited" section, and a selection of "visual tributes" by over two dozen cartoonists including Nina Bunjevac, Simon Hanselmann, Jesse Jacobs, Ed Piskor, Leslie Stein, and others.

Fictional Worlds and the Moral Imagination New Press, The
WINNER OF THE 1973 NATIONAL BOOK AWARD By the Author of Stoner In Augustus, his third great novel, John Williams took on an entirely new challenge, a historical narrative set in classical Rome, exploring the life of the founder of the Roman Empire. To tell the story, Williams turned to the epistolary novel, a genre that was new to him, transforming and transcending it just as he did the western in Butcher's Crossing and the campus novel in Stoner. Augustus is the final triumph of a writer who has come to be recognized around the world as an American master.

Governing the Commons W. W. Norton & Company
The long-awaited cookbook by one of the San Francisco Bay Area's star chefs, David Kinch, who has revolutionized restaurant culture with his take on the farm-to-table ethic and focus on the terroir of the

Northern California coast. Since opening Manresa in Los Gatos in 2002, award-winning Chef David Kinch has done more to create a sense of place through his food—specifically where the Santa Cruz Mountains meet the sea—than any other chef on the West Coast. Manresa’s thought-provoking dishes and unconventional pairings draw on techniques both traditional and modern that combine with the heart of the Manresa experience: fruits and vegetables. Through a pioneering collaboration between farm and restaurant, nearby Love Apple Farms supplies nearly all of the restaurant’s exquisite produce year round. Kinch’s interpretation of these ingredients, drawing on his 30 years in restaurants as well as his far-flung

and well-fed travels, are at the heart of the Manresa experience. In Manresa, Chef Kinch details his thoughts on building a dish: the creativity, experimentation and emotion that go into developing each plate and daily menu—and how a tasting menu ultimately tells a deeper story. A literary snapshot of the restaurant, from Chef Kinch’s inspirations to his techniques, Manresa is an ode to the mountains, fields, and sea; it shares the philosophies and passions of a brilliant chef whose restaurant draws its inspiration globally, while always keeping a profound connection to the people, producers, and bounty of the land that surrounds it. *The Limits of Partnership* New York Review of Books Discover how the secrets of Personality Type can enliven your love life!

Learn the real reason why your strong quiet type has trouble expressing his feelings. Or why your social butterfly is always flirting...or why the neatnik in your life just can't leave that dirty sock where it is . . . or why the hopeless romantic really is blinded by the stars in his eyes. Whether you're evaluating a new relationship or looking to strengthen the one you have, this savvy guide will provide fresh insight into the mysteries of love. Barbara Barron-Tieger and Paul Tieger explain that it's not gender but personality type -- your natural tendency to be outgoing or quiet, methodical or whimsical -- that rules the way men and women relate. Drawing on twenty years of experience as well as groundbreaking new research, they explain everything you need to know about Personality Type, and offer an individualized approach to improving your love life. Once you've discovered which personality type describes you and your partner (or potential partner) best, you'll recognize your own behavior patterns, understand more about your partner's strengths and quirks, and learn. Manresa John Wiley & Sons, Incorporated The book contains 24 research articles related to the emerging research field of Communities

and Technologies (C&T). The papers treat subjects such as online communities, communities of practice, Community support systems, Digital Cities, regional communities and the internet, knowledge sharing and communities, civil communities, communities and education and social capital. As a result of a very quality-oriented review process, the work reflects the best of current research and practice in the field of C&T.

Blood Meridian New York Review of Books

First published in 1948, *Nothing but the Night* marked the auspicious beginning of John Williams' career as a novelist--a career that would go on to include the classics *Stoner* and the National Book Award winning *Augustus*. In the person of Arthur Maxley, Williams investigates the terror and the waywardness of a man who has suffered an early traumatic experience. As a child, Maxley witnessed a scene of such violence and of such a nature that the evocation of Greek tragedy is inescapable. Now, years later, we move through a single significant day in the grown Arthur Maxley's life, the day when he is to meet his father, who has been absent for many years. With rare economy and clarity, the story moves at an ever-increasing pace to its unforgettable end.

The Complete Works of Fante Bukowski OR Books

'Talent. You've either got it or you haven't.' Not true, actually. In *The Talent Code*, award-

winning journalist Daniel Coyle draws on cutting-edge research to reveal that, far from being some abstract mystical power fixed at birth, ability really can be created and nurtured. In the process, he considers talent at work in venues as diverse as a music school in Dallas and a tennis academy near Moscow to demonstrate how the wiring of our brains can be transformed by the way we approach particular tasks. He explains what is really going on when apparently unremarkable people suddenly make a major leap forward. He reveals why some teaching methods are so much more effective than others. Above all, he shows how all of us can achieve our full potential if we set about training our brains in the right way.

A masterpiece of Biblical scope, and the magnum opus of one of America's most enduring authors, in a deluxe Centennial edition In

his journal, Nobel Prize winner John Steinbeck called *East of Eden* "the first book," and indeed it has the primordial power and simplicity of myth. Set in the rich farmland of California's Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. The masterpiece of Steinbeck's later years, *East of Eden* is a work in which Steinbeck created his most mesmerizing characters and explored his most enduring themes: the mystery of identity, the inexplicability of love, and the murderous consequences of love's absence. Adapted for the 1955 film directed by Elia Kazan introducing James Dean, and read by thousands as the book that brought Oprah's Book Club back, *East of Eden* has remained vitally present in American culture for over half a century. This Centennial edition, specially designed to commemorate one hundred years of Steinbeck, features french flaps and deckle-edged pages. For more than sixty-five years, Penguin has been the leading publisher of

classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. This biography by the New York Times best-selling author of *Mockingbird: A Portrait of Harper Lee* traces the life of National Book Award-winning novelist John Williams, author of the cult classic novel *Stoner*.

The Great Mistake New York Review of Books
A hardboiled novel about life in the American underground, from the pool halls of Portland to the cells of San Quentin. Simply one of the finest books ever written about being down on your luck. Don Carpenter's *Hard Rain Falling* is a tough-as-nails account of being down and out, but never down for good—a Dostoyevskian tale of crime, punishment, and

the pursuit of an ever-elusive redemption. The novel follows the adventures of Jack Levitt, an orphaned teenager living off his wits in the fleabag hotels and seedy pool halls of Portland, Oregon. Jack befriends Billy Lancing, a young black runaway and pool hustler extraordinaire. A heist gone wrong gets Jack sent to reform school, from which he emerges embittered by abuse and solitary confinement. In the meantime Billy has joined the middle class—married, fathered a son, acquired a business and a mistress. But neither Jack nor Billy can escape their troubled pasts, and they will meet again in San Quentin before their strange double drama comes to a violent and revelatory end.

Ambition, sex scandals, financial corruption and terrorism all rear their ugly heads. And Harris saves one whopper of a surprise for the final pages."
 —USA Today The Pope is dead.

Behind the locked doors of the Sistine Chapel, one hundred and twenty Cardinals from all over the globe will cast their votes in the world's most secretive election. They are holy men. But they have ambition. And they have rivals. Over the next seventy-two hours one of them will become the most powerful spiritual figure on earth.

Placemaking Springer

Nature
 In this groundbreaking new book, landscape architect Lynda H. Schneekloth and architect and planner Robert G. Shibley challenge the most fundamental assumptions about the ways human beings transform the places in which they live. A call to action for a more inclusive, democratic approach to the design of human spaces, the authors use stories from their own practice to cast a new light on the relationship between communities, design professionals, and the shaping of their physical "places." The stories they tell reveal techniques for generating a collaborative spirit that will help designers, planners, and community development professionals understand the human values that lie at the heart of their professions. The death of Main Street, the blight of the inner city, the sterility of so much contemporary

development--these are effects of a major disconnection between the human community and the built environment. At no time in the history of our society has there been a more urgent need to take a hard look at how we create physical environments. In response to this unmet need and moral confusion, *Placemaking: The Art and Practice of Building Communities* calls for a more dynamic, more inclusive design process and demonstrates new placemaking practices that have emerged from different communities and environments.  Discover an American masterpiece. This unassuming story about the life of a quiet English professor has earned the admiration of readers all over the globe. William Stoner is born at the end of the nineteenth century into a dirt-poor Missouri farming family. Sent to the state university to study agronomy, he instead falls in love with English literature and embraces a scholar's life, so different from the hardscrabble existence he has known. And yet as the years pass, Stoner

encounters a succession of disappointments: marriage into a “proper” family estranges him from his parents; his career is stymied; his wife and daughter turn coldly away from him; a transforming experience of new love ends under threat of scandal. Driven ever deeper within himself, Stoner rediscovers the stoic silence of his forebears and confronts an essential solitude. John Williams’ luminous and deeply moving novel is a work of quiet perfection. William Stoner emerges from it not only as an archetypal American, but as an unlikely existential hero, standing, like a figure in a painting by Edward Hopper, in stark relief against an unforgiving world.

Social Research Methods
Penguin

This edited collection investigates the kinds of moral reflection we can undertake within the imaginative worlds of literature. In philosophical contexts of ethical inquiry we can too easily forget that literary experience can play an important role in the cultivation of our ethical sensibilities. Because our ethical lives are conducted in the real world, fictional representations of this world can appear removed from ethical contemplation. However, as this stimulating volume shows, the dichotomy between fact and fiction cannot be so easily categorised. Moral

perception, moral sensitivity, and ethical understanding more broadly, may all be developed in a unique way through our imaginative life in fiction. Moral quandaries are often presented in literature in ways more linguistically precise and descriptively complete than the ones we encounter in life, whilst simultaneously offering space for contemplation. The twelve original chapters in this volume examine literary texts – including theatre and film – in this light, and taken together they show how serious reflection within fictional worlds can lead to a depth of humane insight. The topics explored include: the subtle ways that knowledge can function as a virtue; issues concerning our relations to and understanding of each other; the complex intertwining of virtues and vices in the modern world; and the importance of bringing to light and reconsidering ethical presuppositions. With an appreciation of the importance of richly contextualized particularity and the power of descriptive acuity, the volume maps out the territory that philosophical reflection and literary engagement share.

From the award-winning designer of the iconic Penguin Hardcover Classics comes a beautifully illustrated fable about loss, friendship, and courage. *The Fox and the Star* is the story of a friendship between a lonely Fox and the Star who

guides him through the frightfully dark forest. Illuminated by Star’s rays, Fox forages for food, runs with the rabbits, and dances in the rain—until Star suddenly goes out and life changes, leaving Fox huddling for warmth in the unfamiliar dark. To find his missing Star, Fox must embark on a wondrous journey beyond the world he knows—a journey lit by courage, newfound friends, and just maybe, a star-filled new sky. Inspired by the Arts and Crafts movement and the art of William Blake, *The Fox and the Star* is a heartwarming, hopeful tale which comes alive through Bickford-Smith’s beloved illustrations, guiding readers both young and grown to “look up beyond your ears.”

How Tobacco Smoke Causes Disease
New York Review of Books

A smart, funny classic about a young and beautiful American woman who moves to Paris determined to live life to the fullest. *The Dud Avocado* follows the romantic and comedic adventures of a young American who heads overseas to conquer Paris in the late 1950s. Edith Wharton and Henry James wrote about the American girl abroad, but it was Elaine Dundy’s Sally Jay

Gorce who told us what she was really thinking. Charming, sexy, and hilarious, *The Dud Avocado* gained instant cult status when it was first published and it remains a timeless portrait of a woman hell-bent on living. "I had to tell someone how much I enjoyed *The Dud Avocado*. It made me laugh, scream, and guffaw (which, incidentally, is a great name for a law firm)."

– Groucho Marx "[*The Dud Avocado*] is one of the best novels about growing up fast..."

This open access textbook represents a vital contribution to global health education, offering insights into health promotion as part of patient care for bachelor's and master's students in health care (nurses, occupational therapists, physiotherapists, radiotherapists, social care workers etc.) as well as health care professionals, and providing an overview of the field of health science and health promotion for PhD students and researchers.

Written by leading experts from seven countries in Europe, America, Africa and Asia, it first discusses the theory of health promotion and vital concepts. It then presents updated evidence-based health promotion approaches in different populations (people with chronic diseases, cancer,

heart failure, dementia, mental disorders, long-term ICU patients, elderly individuals, families with newborn babies, palliative care patients) and examines different health promotion approaches integrated into primary care services. This edited scientific anthology provides much-needed knowledge, translating research into guidelines for practice. Today's medical approaches are highly developed; however, patients are human beings with a wholeness of body-mind-spirit. As such, providing high-quality and effective health care requires a holistic physical-psychological-social-spiritual model of health care is required. A great number of patients, both in hospitals and in primary health care, suffer from the lack of a holistic oriented health approach: Their condition is treated, but they feel scared, helpless and lonely. Health promotion focuses on improving people's health in spite of illnesses. Accordingly, health care that supports/promotes patients' health by identifying their health resources will result in better patient outcomes: shorter hospital stays, less re-hospitalization, being better able to cope at home and improved well-being, which in turn lead to lower health-care costs. This scientific anthology is the first of its kind, in that it connects health promotion with

the salutogenic theory of health throughout the chapters. The authors here expand the understanding of health promotion beyond health protection and disease prevention. The book focuses on describing and explaining salutogenesis as an umbrella concept, not only as the key concept of sense of coherence.
