Graham Greene 's masterful novel of love and betrayal in World War II London is "undeniably a major work of art" (The New Yorker). Maurice Bendrix, a writer in Clapham during the Blitz, develops an acquaintance with Sarah Miles, the bored, beautiful wife of a dull civil servant named Henry.

Maurice claims it 's to divine a character for his novel-in-progress. That 's the first deception. What he really wants is Sarah, and what Sarah needs is a man with passion. So begins a series of reckless trysts doomed by Maurice 's increasing romantic demands and Sarah 's tortured sense of guilt. Then, after Maurice miraculously survives a bombing, Sarah ends the affair—quickly, absolutely, and without explanation. It 's only when Maurice crosses paths with Sarah 's husband that he discovers the fallout of their duplicity—and it 's more unexpected than Maurice, Henry, or Sarah herself could have imagined. Adapted for film in both 1956 and 1999, Greene 's novel of all that inspires love—and all that poisons it—is "singularly moving and beautiful" (Evelyn Waugh).

A mother can 't protect her daughter from everything ... " She killed someone", Leigh thought. She might think this from now on, every time she saw her daughter. She would hide it, but it would be there in her mind. It would be in everyone 's mind. When Leigh was growing up she had always known she would be a mother, and not just any mother, but a good one. She would be the kind of mother a daughter could come to for advice or understanding. She'd had it all planned out ... Then one summer 's day, when

driving home from school, eighteen year-old Kara Churchill tragically knocks down a classmate and kills her. The accident shatters the already fragile relationship that she and her mother Leigh share — testing it to the very limit. As the Churchills try and come to terms with the devastation of what has happened under the judgmental eye of the small-town Hazelton community, Kara begins to face up to the terrifying reality that she has killed someone. But will Leigh be able to protect her fiercely independent daughter, or will the damage prove to be too far-reaching? The Rest of Her Life is the story of a family plunged into a crisis that will irrevocably change their lives forever. It 's about the true nature of mother-daughter relationships, and about how far you would go to protect everything you hold dear.

Why Do You Love Me? HarperCollins

Everyone has an opinion, anecdote, or horror story about women and work. Now the acclaimed author of What the Most Successful People Do Before Breakfast shows how real working women with families are actually making the most of their time. “ Having it all ” has become the subject of countless books, articles, debates, and social media commentary, with passions running high in all directions. Many now believe this to be gospel truth: Any woman who wants to advance in a challenging career has to make huge sacrifices. She 's unlikely to have a happy marriage, quality time with her kids (assuming she can have kids at all), a social life, hobbies, or even a decent night 's sleep. But what if balancing work and family is actually not as hard as it 's made out to be? What if all those tragic anecdotes ignore the women who quietly but consistently do just fine with the juggle? Instead of relying on scattered stories, time management expert Laura Vanderkam set out to add hard data to the debate. She collected hour-by-hour time logs from 1,001 days in the lives of women who make at least \$100,000 a year. And she found some surprising patterns in how these women spend the 168 hours that every one of us has each week. Overall, these women worked less and slept more than they assumed they did before they started tracking their time. They went jogging or to the gym, played with their children, scheduled date nights with their significant others, and had lunches with friends. They made time for the things that gave them pleasure and meaning, fitting the pieces together like tiles in a mosaic—without adhering to overly rigid schedules that would eliminate flexibility and spontaneity. Vanderkam shares specific strategies that her subjects use to make time for the things that really matter to them. For instance, they . . . * Work split shifts (such as seven hours at work, four off, then another two at night from home). This

allows them to see their kids without falling behind professionally. * Get creative about what counts as quality family time. Breakfasts together and morning story time count as much as daily family dinners, and they 're often easier to manage. * Take it easy on the housework. You can free up a lot of time by embracing the philosophy of “ good enough ” and getting help from other members of your household (or a cleaning service). * Guard their leisure time. Full weekend getaways may be rare, but many satisfying hobbies can be done in small bursts of time. An hour of crafting feels better than an hour of reality TV. With examples from hundreds of real women, Vanderkam proves that you don 't have to give up on the things you really want. I Know How She Does It will inspire you to build a life that works, one hour at a time.

The Happiness Project meets So Sad Today in this "hilariously witty, unflinchingly honest" book from Words of Women founder Lauren Martin, as she contemplates the nature of negative emotions -- and the insights that helped her to take control of her life (Bobbi Brown). Five years ago, Lauren Martin was sure something was wrong with her. She had a good job in New York, an apartment in Brooklyn, a boyfriend, yet every day she wrestled with feelings of inferiority, anxiety and irritability. It wasn't until a chance encounter with a (charming, successful) stranger who revealed that she also felt these things, that Lauren set out to better understand the hold that these moods had on her, how she could change them, and began to blog about the wisdom she uncovered. It quickly exploded into an international online community of women who felt like she did: lost, depressed, moody, and desirous of change. Inspired by her audience to press even deeper, *The Book of Moods* shares Lauren's journey to infuse her life with a sense of peace and stability. With observations that will resonate and inspire, she dives into the universal triggers every woman faces -- whether it's a comment from your mother, the relentless grind at your job, days when you wish the mirror had a Valencia filter, or all of the above. Blending cutting-edge science, timeless philosophy, witty anecdotes and effective forms of self-care, Martin has written a powerful, intimate, and incredibly relatable chronicle of transformation, proving that you really can turn your worst moods into your best life.
