"The catalogue ... is truly excellent and makes an important contribution to the study of Greek Art." --Bryn Mawr Classical Review "An overwhelming volume. The subject matter ... is described in great detail in nine chapters. Essential." --Choice This catalogue documents

a major exhibition at the Getty Villa that was the first ever to focus on ancient Athenian terracotta vases made by techniques other than the well-known black- and red-figure styles. The exhibition comprised vases executed in bilingual, coral-red gloss, outline, Kerch-style, white ground, and Six's technique, as well as examples with added clay and gilding, and plastic vases and additions. The *Colors of Clay* opens with an introductory essay that integrates the diverse themes of the exhibition and sets them within the context of vase making in general; a second essay discusses conservation issues related to several of the techniques. A detailed discussion of the techniques featured in the exhibition precedes each section of the catalogue. More than a hundred vases from museums in the United States and Europe are described in depth.

Speaking with Nature HarperCollins

As a teenager 'Tich' Palliser became 'hooked on this flying game' and aspired to take to the skies. The Royal Air Force Volunteer Reserve provided the opportunity and a few months before the Second World War broke out the Yorkshire-born novice was called-up to learn and develop his skills as a combat fighter pilot. In August 1940 the young sergeant aviator, at the controls of a Hawker Hurricane, entered the ferocious aerial melees of the Battle of Britain, fighting for his life, and his colleague's lives, as he became one of Churchill's 'Few' in the defense of his homeland. Tich met with some combat success but also witnessed the attrition of war at a personal level, losing many squadron friends. Indeed in December 1940 Tich fell victim to enemy fighters. Tich was commissioned in April 1941 and arrived in Malta a month later to play his part in the defense of the

beleaguered island. Steadily his score of combat kills rose. He passed the 'ace' status and early in 1942 was awarded the Distinguished Flying Cross. Soon after he took up instructing duties, and for the remainder of the war, despite the continual threat of sabotage, Tich passed on his hard-won experience to novice pilots in South Africa. This is Tich's story in his own words, illustrated with numerous previously unpublished photographs, as the reader accompanies him through the physical tensions and emotional trials of being a Second World War fighter pilot. Tich provides an intimate account of squadron life, including the acquaintances made and coping with the loss of friends. *They Gave Me a Hurricane* is an extraordinary, gripping, and enthralling account, as told by one of the RAF's 'ace' fighter pilots – a fitting tribute to an outstanding airman and well respected veteran. *One Woman's Escape from the Husband who Stalked Her, a True Story* "O'Reilly

With increased life expectancy, the aged population has grown markedly throughout the world, but there is a shortage of experienced nurses with expertise in the holistic care of the elderly. This

book is written to inspire and empower such nurses. Care of the aged has a long and noble history within the nursing profession. Respect for the dignity of the elderly and a commitment to their well-being have inspired generations of nurses. But it is only in more recent times that aged-care nursing has really 'come of age' with the provision of sound evidence-based nursing practice. The traditional ethical approach to aged-care nursing has thus become combined with sound scientific knowledge in a modern holistic model of care. *Aged Care Nursing: A Guide to Practice* is written by clinicians for clinicians. Each chapter describes contemporary nursing practice in a specific area of aged care. The inclusion of evidence-based and outcome-based practices throughout the book ensures that all readers, be they novices or experts, will have a reliable and beneficial reference to guide their practice. The chapter authors are from several countries, and the content of each chapter is presented generically to ensure international

applicability. Each author is a recognised expert in his or her subject area, and all present their topics with a focus that is practical, rather than academic.

The Bridal Bargain Simon and Schuster
In order to revive the nearly unprofitable real estate market it is important that more and more homes are staged. This is a simple concept that ensures that a particular house that is for sales find appeal with more and more buyers. Apart from getting a large number of buyers so that the seller can strike a good bargain, it is also equally important for the seller that his house gets sold of quickly. It is important to increase the demand so that the market can get more lucrative. This is the primary reason why real estate agents are fast hiring, or themselves turning into 'staging

professionals'. These professionals help in building homes that find maximum appeal to the seller in terms of their tastes and preferences. And it is a fact that stages homes bring as much as 15 percent more revenue than those that are not. People are constantly looking for a house with more space. Many look at it as an investment that how much they will gain when they in turn sell it. Keeping all this in mind a professional stages houses. Therefore, those people who want to sell their houses enlist the services of such staging professionals who, on being hired, help the owners to prepare their houses for sale. They are specialized to do such a job. And indeed, the sellers see the difference in the demand for their property and the price that is coming

in, before and after the staging professional has done his job. Sellers generally use services of the agents who report to the seller that their house is not getting a good offer. They cannot, however, pinpoint the problem. They cannot understand the nature of renovation the house needs. Staging professionals, being specialized at these things, have a good idea of what the buyers are looking for and are effectively able to help the seller.
