In the shadow of the Vietnam War, a significant part of an entire generation refused their assigned roles in the American century. Some took their revolutionary politics to the streets, others decided simply to turn away, seeking to build another world together, outside the state and the market. West of Eden charts the remarkable flowering of communalism in the 1960s and '70s, fueled by a radical rejection of the Cold War corporate deal, utopian visions of a peaceful green planet, the new technologies of sound and light, and the

ancient arts of ecstatic release. The book focuses on the San Francisco Bay Area and its hinterlands, which have long been creative spaces for social experiment. Haight-Ashbury's gift economy—its free clinic, concerts, and street theatre—and Berkeley's liberated zones—Sproul Plaza, Telegraph Avenue, and People's Park—were embedded in a wider network of producer and consumer co-ops, food conspiracies, and collective schemes. Using memoir and flashbacks, oral history and archival sources, West of Eden explores the deep historical roots and the enduring, though often disavowed, legacies of the extraordinary pulse of radical energies that generated forms of collective life beyond the nuclear family and the world of private consumption, including the contradictions evident in such figures as the guru/predator or the hippie/entrepreneur. There are vivid portraits of life on the rural communes of Mendocino and Sonoma, and essays on the Black Panther communal households in Oakland, the latter-day Diggers of San Francisco, the Native American occupation of Alcatraz, the

pioneers of live/work space for artists, and the Bucky dome as the iconic architectural form of the sixties. Due to the prevailing amnesia—partly imposed by official narratives, partly self-imposed in the aftermath of defeat—West of Eden is not only a necessary act of reclamation, helping to record the unwritten stories of the motley generation of communards and antinomians now passing, but is also intended as an offering to the coming generation who will find here, in the rubble of the twentieth century, a past they can use—indeed one they will need—in the passage from the privations of commodity capitalism to an ample life in common.

Soon after his popular A Travel Guide to Heaven was published, bestselling author Anthony DeStefano recognized that children also have many questions about heaven. In celebration of the tenth anniversary of that book, Anthony wrote this fun-filled, action story about a little boy named Joey who gets to take a whirlwind tour of heaven with his guardian angel, Gabby. Artist Erwin Madrid's stunning illustrations bring the story to life, showing heaven to be a place where everyone is happy, the animals all get along, and God's glory is more amazing than anything Joey had ever seen in his whole life. This long-awaited children's edition will quickly become a favorite for the reader and the child alike. Imagine the comfort and peace children will experience when they hear about this incredible place God has prepared for them.

"In 1851, a war began in what would become Yosemite National Park, a war against the indigenous inhabitants that has yet to come to a real conclusion. A century later - 1951 - and about a hundred and fifty miles away, another war began when the U.S. government started setting off nuclear bombs at the Nevada Test Site. It was called a "nuclear testing program" but functioned as a war against the land and people of the Great Basin."--

A collection of feminist essays steeped in "Solnit's unapologetically observant and truth-speaking voice on toxic, violent masculinity" (The Los Angeles Review). In a timely and incisive follow-up to her national bestseller *Men Explain Things to Me*, Rebecca Solnit offers sharp commentary on women who refuse to be silenced, misogynistic violence, the fragile masculinity of the literary canon, the gender binary, the recent history of rape jokes, and much more. In characteristic style, "Solnit draw[s] anecdotes of female indignity or male aggression from history, social media,

literature, popular culture, and the news . . . The main essay in the book is about the various ways that women are silenced, and Solnit focuses upon the power of storytelling—the way that who gets to speak, and about what, shapes how a society understands itself and what it expects from its members. The *Mother of All Questions* poses the thesis that telling women's stories to the world will change the way that the world treats women, and it sets out to tell as many of those stories as possible" (The New Yorker). "There's a new feminist revolution—open to people of all genders—brewing right now and Rebecca Solnit is one of its most powerful, not to mention beguiling, voices."—Barbara Ehrenreich, New York Times—bestselling author of *Natural Causes* "Short, incisive essays that pack a powerful punch." —Publishers Weekly "A keen and timely commentary on gender and feminism. Solnit's voice is calm, clear, and unapologetic; each essay balances a warm wit with confident, thoughtful analysis, resulting in a collection that is as enjoyable and accessible as it is incisive." —Booklist

Twenties was a city of immigrants, mobsters, and flappers with one shared passion: the Chicago Cubs. It all began when the chewing-gum tycoon William Wrigley decided to build the world's greatest ball club in the nation's Second City. In this Jazz Age center, the maverick Wrigley exploited the revolutionary technology of broadcasting to attract eager throngs of women to his renovated ballpark. Mr. Wrigley's Ball Club transports us to this heady era of baseball history and introduces the team at its crazy heart—an amalgam of rakes, pranksters, schemers, and choirboys who take center stage in memorable successes, equally memorable disasters, and shadowy intrigue. Readers take front-row seats to meet Grover Cleveland Alexander, Rogers Hornsby, Joe McCarthy, Lewis "Hack" Wilson, Gabby Hartnett. The cast of characters also includes their colorful if less-extolled teammates and the Cubs' nemesis, Babe Ruth, who terminates the ambitions of Mr. Wrigley's ball club with one emphatic swing.

A Travel Guide to Heaven for Kids Routledge

A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • From the widely acclaimed, bestselling author of *American War*—a beautifully written, unrelentingly dramatic, and profoundly moving novel that looks at the global refugee crisis through the eyes of a child. "Told from the point of view of two children, on the ground and at sea, the story so astutely unpacks the us-versus-them dynamics of our divided world that it deserves to be an instant classic." —The New York Times Book Review

More bodies have washed up on the shores of a small island. Another overfilled, ill-equipped, dilapidated ship has sunk under the weight of its too many passengers: Syrians, Ethiopians, Egyptians, Lebanese, Palestinians, all of them desperate to escape untenable lives back in their homelands. But miraculously, someone has survived the passage: nine-year-old Amir, a Syrian boy who is soon rescued by Vanna. Vanna is a teenage girl, who, despite being native to the island,

experiences her own sense of homelessness in a place and among people she has come to disdain. And though Vanna and Amir are complete strangers, though they don't speak a common language, Vanna is determined to do whatever it takes to save the boy. In alternating chapters, we learn about Amir's life and how he came to be on the boat, and we follow him and the girl as they make their way toward safety. *What Strange Paradise* is the story of two children finding their way through a hostile world. But it is also a story of empathy and indifference, of hope and despair—and about the way each of those things can blind us to reality.

"May Day is about affirmation, the  
love of life, and the start of  
spring, so it has to be about the  
beginning of the end of the  
capitalist system of exploitation,  
oppression, war, and overall  
misery, toil, and moil." So writes  
celebrated historian Peter  
Linebaugh in an essential  
compendium of reflections on the  
reviled, glorious, and voltaic  
occasion of May 1st. It is a day  
that has made the rich and  
powerful cower in fear and caused  
Parliament to ban the Maypole—a  
magnificent and riotous day of  
rebirth, renewal, and refusal.  
These reflections on the Red and  
the Green—out of which arguably  
the only hope for the future  
lies—are populated by the likes of  
Native American anarcho-communist  
Lucy Parsons, the Dodge  
Revolutionary Union Movement, Karl  
Marx, José Martí, W.E.B. Du Bois,  
Rosa Luxemburg, SNCC, and  
countless others, both sentient  
and verdant. The book is a  
forceful reminder of the  
potentialities of the future, for  
the coming of a time when the  
powerful will fall, the commons  
restored, and a better world born  
anew.
