In a future where the Population Police enforce the law limiting a family to only two children, Luke, an illegal third child, has lived all his twelve years in isolation and fear on his family's farm in this start to the *Shadow Children* series from Margaret Peterson Haddix. Luke has never been to school. He's never had a birthday party, or gone to a friend's house for an overnight. In fact, Luke has never had a friend. Luke is one of the shadow children, a third child forbidden by the Population Police. He's lived his entire life in hiding, and now, with a new housing development replacing the woods next to his family's farm, he is no longer even allowed to go outside. Then, one day Luke sees a girl's face in the window of a house where he knows two other children already live. Finally, he's met a shadow child like himself. Jen is willing to risk everything to come out of the shadows—does Luke dare to become involved in her dangerous plan? Can he afford not to? **RESCUED TO TELL: Diary of a Street Kid** Discovery Publishing House

This book deals with street children who live in the developing world, and homeless youth who are from the developed world. They are referred to as children in street situations (CSS) to show that the problem is both in the children and in the situation they face. The book examines several aspects of the children and their street situations, including the families of origin and the homes they leave, the children's social life, and mental health. Other aspects are the problems of published demographics, the construction of public opinion about these children and the, often violent, reactions from authorities. The book then discusses current research on children in street situations, as well as programs and policies. The book ends with recommendations about programs, policies and research.

In cities across North America, teenage runaways are struggling to stay alive. Some don't make it to adulthood. Some do, but their lives rarely rise above the despair that brought them to the streets in the first place. A few manage to beat the street, to get their lives back on track. In this disturbing account Marlene Webber draws on extensive interviews with these kids to explore the realities of street life, its attraction, and its consequences. Street kids like to project an image of themselves as free-wheeling rebels who relish life on the wild side. All brashness and bombast, they strut around inner cities panhandling, posturing, and prostituting themselves. Labelled society's bad boys and girls, they often live up to their image. But as sixteen-year-old Eugene tells us, the street forces bravado on homeless adolescents, 'but underneath, a lot of kids are plenty scared.' Eugene is only one of many street kids who talked to Webber in major cities across Canada. She lets her subjects tell their own stories; their voices are sometimes brave, sometimes bitter, often heartbreaking. Webber cuts a comprehensible path through the tangle of forces, including family breakdown and social-service failure, that accelerate the tragedy of Canada's runaways. She suggests measures that might help more of them beat the streets.

At Home in the Street Springer Nature

This book provides new insights on the lives of children in street situations by providing analyses from a qualitative perspective on the sociology of childhood. It proposes some insightful perspectives on the current discussion about the rights of children in street situations. It includes a unique selection of texts, which were initially published in French, written by the authors of this volume, on the lives of children in street situations in Latin America and China, that are now available to an English readership. It challenges obstacles, linked to macrosocial issues such as inequalities, images of the child, the separation of public/private spheres, urban dynamics and structural adjustments, as well as to microsocioal dimensions such as identity, motivation, and activities that are constitutive of street situations.

The book discusses the situations experienced by children, highlighting children's reflexivity and strategies as social factors, and shedding new light on the debate "agency within structure".

The *Street Kids* is the most important novel by Italy's preeminent late-20th Century author and intellectual, Pier Paolo Pasolini. It tells the story of Ricetto, a poor urchin who lives on the outskirts of Rome. Readers meet him at his first communion in 1944 during the German occupation of Italy. In the years that follow, drifting ever further from family and friends, Ricetto moves from petty theft to more elaborate cons and finally to prostitution. He is arrested and jailed after trying to steal some iron in order to buy his fiancée an engagement ring.

For readers of *Behind the Beautiful Forevers* and *Nothing to Envy*, this is a breathtaking real-life story of four street children in contemporary Zambia whose lives are drawn together and forever altered by the mysterious murder of a fellow street child. Based on years of investigative reporting and unprecedented fieldwork, *Walking the Bowl* immerses readers in the daily lives of four unforgettable characters: Lusabilo, a determined waste picker; Kapula, a burned-out brothel worker; Moonga, a former rock crusher turned beggar; and Timo, an ambitious gang leader. These children navigate the violent and poverty-stricken underworld of Lusaka, one of Africa's fastest growing cities. When the dead body of a ten-year-old boy is discovered under a heap of garbage in Lusaka's largest landfill, a murder investigation quickly heats up due to the influence of the victim's mother and her far-reaching political connections. The children's lives become more closely intertwined as each child engages in a desperate bid for survival against forces they could never have imagined. Gripping and fast-paced, the book exposes the perilous aspects of street life through the eyes of the children who survive, endure and dream there, and what emerges is an ultimately hopeful story about human kindness and how one small good deed, passed on to others, can make a difference in the face of seemingly insurmountable odds.

#1 New York Times Bestseller A USA Today Bestseller Winner of the Newbery Medal A Caldecott Honor Book A Coretta Scott King Illustrator Honor Book This award-winning modern classic—a must-have for every child's home library—is an inclusive ode to kindness, empathy, gratitude, and finding joy in unexpected places, and celebrates the special bond between a curious young boy and his loving grandmother. Every Sunday after church, CJ and his grandma ride the bus across town. But today, CJ wonders why they don't own a car like his friend Colby. Why doesn't he have an iPod like the boys on the bus? How come they always have to get off in the dirty part of town? Each question is met with an encouraging answer from grandma, who helps him see the beauty—and fun—in their routine and the world around them. This energetic ride through a bustling city highlights the wonderful perspective only grandparent and grandchild can share, and comes to life through Matt de la Peña's vibrant text and Christian Robinson's radiant illustrations.

This book contributes to a better understanding of street children and youth within Sub-Saharan Africa. It investigates the psychological conditions of these children and determines how to reintegrate them into mainstream socio-economic activities. The book proposes cures and preventive measures. It also highlights the inextricable link which exists between street children and youth problem, and economic underdevelopment within Sub-Saharan Africa. With a careful examination of the main reasons of poverty and weak institutions within the region, the book offers suggestions on how to prevent street children and youth problem by alleviating poverty through a vibrant industrial sector and economic development. This book also provides recommendations on how to cure the problem by creating social enterprises which can offer opportunities to the youth and their parents. It achieves this by first comparing children and youth on the street (those who have homes to return to at night), with children and youth of the street (those who both work and live on the street). It then looks at a project designed to boost the resilience of street children. By looking at the differences between children on the street and children of the street, the book highlights the importance of having a home, and of the great value of cooperation between churches, non-government organizations and the state, in working to make the lives of these young people better. This book is a useful resource for students, academics and researchers in the fields of psychology, social work, sociology, and international development. **Street Children in Kenya** Bob Jones University Press Count the trucks getting stuck in a traffic jam in this rhythmic read-aloud sure to draw in kids who love everything on wheels.
