The Restaurant Reviewer, a love story Originally published on the 10th anniversary of the 9/11 attacks, *The Restaurant Reviewer*, a novel, tells a story of lovers, loss, grieving, and healing, and is dedicated to the People of New York City. Set in lower Manhattan in the wake of 9/11, *The Restaurant Reviewer* focuses on an old family-owned restaurant, Booths, whose devoted chef and proprietor, Matthias Constantine, has collapsed from a stroke. The novel addresses the question facing his family and friends of whether, and how, his restaurant can survive. The answers explore connections to place, memory, and the passage of time. The story is narrated by Shaylie Drinan, a restaurant reviewer for a major newspaper, who finds herself drawn inexorably into the conflict at Booths through her lover, Damian Constantine, Matthias's son. The resolution she brings to the story affirms the goodness of food, the meaning of love. Matthias Constantine has spent his life preparing and refining the fare at his restaurant, a steakhouse on the Bowery that was founded by his immigrant grandfather and is now a clubhouse for City Hall politicians. His only help in the kitchen, and his avid protege, is Armand Fenner, who was abandoned to the streets as a child and rescued by Matthias. Years before Matthias collapsed his wife died in a car crash in front of the restaurant. His son, Damian, witnessed the scene of his mother's death and took off for the West Coast as soon as he could to get away from the memory. He returned a dozen years later to try to leverage the restaurant's real estate into lucrative investments for himself. In this plan he enlisted Tally Lee, a powerful politician who first came to Booths as a teenager to work as a waitress, befriended a City Council candidate and bore his daughter, and subsequently rose in Manhattan politics to become a Party boss. The effects of the stroke leave Matthias Constantine weakened but create the conditions for his restaurant's renewal. The

catalyst for its future is the manager Damian hires to assist his father, a disillusioned doctor who wants to switch careers and hopes to take over Booths one day. The doctor, trying to enhance the restaurant's image and increase its business, unwittingly turns it into the venue that fosters romance between Matthias's protege, Fenner, and Tally Lee's beloved daughter, Benita, a talented singer. By creating beautiful dishes to please Benita, Fenner brings the restaurant to new heights-and threatens those who would destroy and forget it. The Restaurant Reviewer weaves the fears, conflicts, hopes and ambitions of its characters into an exploration of what endures in the wake of loss."

Whether humans crossed the seas between the Old World and the New in the times before Columbus is a tantalizing question that has long excited scholarly interest and tempted imaginations the world over. From the myths of Atlantis and Mu to the more credible, perhaps, but hardly less romantic tales of Viking ships and Buddhist missionaries, people have speculated upon

what is, after all, not simply a question of contact, but of the nature and growth of civilization itself. To the specialist, it is an important question indeed. If people in the Western Hemisphere and in the Eastern Hemisphere developed their cultures more or less independently from the end of the last Ice Age until the voyages of Columbus, the remarkable similarities between New World and Old World cultures reveal something important about the evolution of culture. If, on the other hand, there were widespread or sustained contacts between the hemispheres in pre-Columbian times, these contacts represent events of vast significance to the prehistory and history of humanity. Originally delivered at a symposium held in May 1968, during the national meeting of the Society for American Archaeology, the papers presented here, by scholars eminent in the field, offer differing points of view and considerable evidence on the pros and cons of pre-Columbian contact between the Old World and the New. Various kinds of data—archaeological, botanical, geographical, and historical—are brought to bear on the problem, with provocative and original results. Introductory and concluding remarks by the editors pull together and evaluate the evidence and suggest ground rules for future studies of this sort. Man across the Sea provides no final answers as to whether people from Asia, Africa, or Europe visited the American Indian before Columbus. It does, however, present new evidence, suggested lines of approach, and a fresh attempt to delineate the problems involved and to establish acceptable canons of evidence for the future.
