McGraw-Hill Education  
How do you tailor education to the learning needs of adults? Do they learn differently from

children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles' pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed, experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use

today.  
Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of *The Adult Learner* has been revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity and inclusion in adult learning, and andragogy and the online adult learner. An updated

supporting website. This website for the 9th edition of The Adult Learner will provide basic instructor aids. For each chapter, there will be a PowerPoint presentation, learning exercises, and added study questions. Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student in education, an adult learning practitioner,

training manager, or involved in human resource development, this is the definitive book in adult learning you should not be without. *Glencoe Math, Course 1, Student Edition* Holt McDougal Middle school health textbook for schools where health is taught at more than one grade level, featuring self-contained, 4- to 6-page lessons. **Comprehensive Health Skills** John Wiley & Sons Glencoe's Life Science offers more than facts

and figures. The program places your students at the center of scientific exploration, with all the wonder and excitement of discovery. The student-friendly text and a variety of Reading Strategies help students build their understanding and critical-thinking skills. Only from Glencoe!
