The central figure of this novel is a young man whose parents were executed for conspiring to steal atomic secrets for Russia. His name is Daniel Isaacson, and as the story opens, his parents have been dead for many years. He has had a long time to adjust to their deaths. He has not adjusted. Out of the shambles of his childhood, he has constructed a new life—marriage to an adoring girl who gives him a son of his own, and a career in scholarship. It is a life that enrages him. In the silence of

the library at Columbia University, where he is supposedly writing a Ph.D. dissertation, Daniel composes something quite different. It is a confession of his most intimate relationships—with his wife, his foster parents, and his kid sister Susan, whose own radicalism so reproaches him. It is a book of memories: riding a bus with his parents to the ill-fated Paul Robeson concert in Peekskill; watching the FBI take his father away; appearing with Susan at rallies protesting their parents' innocence; visiting his mother and father in the Death House. It is a book of investigation:

transcribing Daniel's interviews with people who knew his parents, or who knew about them; and logging his strange researches and discoveries in the library stacks. It is a book of judgments of everyone involved in the case—lawyers, police, informers, friends, and the Isaacson family itself. It is a book rich in characters, from elderly grand- mothers of immigrant culture, to covert radicals of the McCarthy era, to hippie marchers on the Pentagon. It is a book that spans the quarter-century of American life since World War II. It is a book about the nature

of Left politics in this country—its sacrificial rites, its peculiar cruelties, its humility, its bitterness. It is a book about some of the beautiful and terrible feelings of childhood. It is about the nature of guilt and innocence, and about the relations of people to nations. It is *The Book of Daniel*.

The Autobiography of Alice B. Toklas was written in 1933 by Gertrude Stein in the guise of an autobiography authored by Alice B. Toklas, who was her lover. It is a fascinating insight into the art scene in Paris as the couple were friends with Paul Cezanne, Henri

Matisse and Pablo Picasso. They begin the war years in England but return to France, volunteering for the American Fund for the French Wounded, driving around France, helping the wounded and homeless. After the war Gertrude has an argument with T. S. Eliot after he finds one of her writings inappropriate. They become friends with Sherwood Anderson and Ernest Hemingway. It was written to make money and was indeed a commercial success. However, it attracted criticism, especially from those who appeared in the book and didn't like the way they were depicted. *Ignatius Critical Editions* ASCD Krakauer's page-turning bestseller explores a famed

missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his

decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the

maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's

uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

"Frederik Hendrik and the Triumph of the Dutch Revolt describes a crucial period in European history. During the early-seventeenth century the Dutch, led by Frederik Hendrik, were engaged in a struggle for independence from the mighty Spanish Empire. But Spain was allied with its fellow Hapsburg power, the Holy Roman Empire, and

Europe was convulsed with the Thirty Years War. It was a turbulent time with complex diplomacy, shifting alliances, monumental battles and more European powers entering the war. Yet thanks to Frederik Henrik's adroit diplomacy and military skill, combined with the tenacity of the Dutch people, the Dutch Republic emerged from the conflicts and gained full independence, eventually becoming a significant European power. After tracing these developments, the book continues by examining and comparing later nationalist

insurgencies in the late twentieth and twenty-first centuries. It analyses and identifies the factors making for successful insurgencies. The key factors of finances and international relations are emphasised. This volume is informative and compelling reading for both practitioners and students studying history, international relations, terrorism and insurgency"--

This volume offers a compact introduction to one of the most daunting texts in the New

Testament. The Letter to the Hebrews has inspired many readers with its encomium to faith, troubled others with its hard sayings on the impossibility of a second repentance, and perplexed still others with its exegetical assumptions and operations drawn from a cultural matrix that is largely alien to modern sensibilities. Long thought to be Paul, the anonymous author of Hebrews exhibits points of continuity with the apostle and other New Testament writers in the letter's (or sermon's) vision of life in the light of the crucified Messiah, but one also finds distinctive perspectives in such areas as Christology, eschatology, and atonement. Gray and Peeler

survey the salient historical, social, and rhetorical factors to be considered in the interpretation of this document, as well as its theological, liturgical, and cultural legacy. They invite readers to enter the world of one of the boldest Christian thinkers of the first century.

adds to McCarthy's stature as

a living master. It's gripping,

frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are

wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

Focusing on the interplay between domestic-level changes and region-wide interaction, this book provides a comprehensive analytical and theoretical survey of Iranian foreign relations in the Middle East from Antiquity until the

Islamic Republic. It charts developments from the earliest regimes in Persia, including the Median kingdom and the Sassanid Empire, through rule by, amongst others, Abbasids, Mongols, Safavids and Qajars, up to the modern states of the Shah and the Islamic Republic. Throughout the author reflects on the enduring factors which have shaped Iran's relations with the rest of the region, factors such as geography, culture, the belief systems of policy makers, the structures of decision-making and government, and sub-regional systems. Overall, the book

provides a deep analysis of
Iranian foreign relations in the
Middle East over 4,700 years.
