The India idea-an idea which may not always find its origin in a sophisticated lab or a state-of-the-art industrial R&D centre; an idea which may be as unique as the country's identity, ethos and culture; an idea which may be beyond time and space but whose time has definitely come-this evocative book gives a fascinating peep into such ideas and the robust innovation model across India's social and economic spectrum. With thought-provoking contributions by legendary scientists, technocrats and management experts and practitioners on the one hand and heart-warming stories about inclusive grass-roots as well as cutting-edge innovations on the other, this one-of-its-kind book presents the distinctive India of today in all its flavour and fervour.

Some Aspects of Ancient Indian Culture Popular Prakashan
Trotz seiner Beschränkung auf Recht, Staat und Verwaltung spiegelt der Band etwas von der Vielfalt der gegenwärtigen Forschung zur älteren indischen Geschichte wider. Dem hinduistischen Indien fehlt ja die indigene Historiographie. Das Gerüst aus Fakten und Ideen hat man aus disparaten Quellen zusammensetzen - und für lange Perioden, für ganze Regionen fehlen auch die. Man ist auf beiläufige Erwähnungen, auf Rituale, Sprachgeschichte, Dialektgeographie angewiesen. Deutlich später setzt der breite Strom der mit grossem Prestige ausgestatteten Rechts- oder Moralliteratur ein, der - wiederum beiläufig - ein in seinen Grundzügen kohärentes Bild vom Königtum, von Recht und Staat vermittelt. Dessen Realität ist jedoch immer wieder in Zweifel gezogen worden - nicht zuletzt durch die Texte selbst. Obwohl sie sich normierend geben, reden sie gelegentlich der Pluralität, den Lokaltraditionen das Wort. Die seit dem Mittelalter reichlicher fließenden inschriftlichen Quellen zeigen dann auch regional unterschiedliche Systeme - kaum verwunderlich angesichts der Ausdehnung und kulturellen Vielfalt des Subkontinents. Dazu kommen Partikularrechte einzelner religiöser Gruppen, und die Akkulturation durch den sich ausbreitenden Hinduismus in mannigfachen Mischformen. All das dokumentiert den mühseligen Prozeß der Auseinandersetzung zwischen "Lokalbrauch" und der Begrifflichkeit der Orthodoxie.

A towering figure in twentieth-century theatre in India, Habib Tanvir was an actor, director and playwright, working in Hindi and Urdu. He founded Naya Theatre in 1959, through which he created remarkable works, drawing on the history and traditions of the tribal folk of Chhattisgarh. This book brings together four of his most significant plays. Agra Bazar (1954), set amid the bustle of a colourful street market, is woven together by the wonderfully human voice of the poet Nazir, and examines important cultural and socioeconomic issues of the period. Charandas Chor (1975), Tanvir's most famous work, is about a folk hero who robs the rich and evades the law until he comes up against one wall he cannot scale--his own commitment to the truth. In Bahadur the Wine-Seller (1978), Tanvir reinvents a nearly forgotten Chhattisgarh folk tale about a mother-son relationship in which he finds a echoes of Oedipus, while in The Living Tale of Hirma (1985), he dramatizes a historical event in which a headstrong ruler of an Indian tribe clashes with a population who want to replace the tribal way of life with newfound ideals of democracy. Enriched by introductory texts and an intensive interview with Tanvir that covers the milestones of his illustrious career, the book will be the perfect introduction to Tanvir's work for English-language theatre fans and scholars--back cover.
