The Living Planet in Crisis Petrogav International Write up given by editorial coordinator -Mansi Chauhan A path of enlightenment, peace, and knowledge of ancient scriptures, which was lost in the process of evolution but found again. The teachings of our past in the fields of Ayurveda, Meditation, and Yoga are being reintroduced to the

folks of today. 'Answers from the Divine' provides us with answers to the question one asks ever since they know about the universe and its existence. It beautifully explains the doubts one has while taking reference from our ancient scriptures. 'Why were we created?', 'What is our fate?', 'How to be more connected to the universe?', and 'What are our roles in this universe?' - these questions are just a mere sneak of what the book holds. The author has made sure that their creation could be read by anyone and everyone. The simplicity and elegance of the content are admirable. It takes you through the pages of self-help and therapy to be a better version of yourself. The world has offered us a lot - good and bad; the choice is ours. We can either make peace with the bad or try to balance both till we give up. Affirmation and positivity walk hand in hand and the author gives it a reason and meaning which has the power to give us a small push towards the light of happiness. The author states that "The motive behind this book is not to influence people about religion or specific belief systems. The core idea is to convey divine wisdom written thousands of years ago to its destined seekers.", she wants to let the readers know that anyone and everyone is welcomed in her creative world without the need to be of a specific group of people. The book has elements that are known to your soul but unknown to your mind because you haven't been face to face with them. I would recommend this enlightenment and peace-filled world to you for reading. Maybe you can find some of your answers hidden in 'Answers from the Divine.'

We 're compelled to show faith in explanations that we really don 't believe in—the origins of our being, the nature and existence of God, are we alone in the universe?
