Overthinking isn't a personality trait. It's the sneakiest form of fear. It steals time, creativity, and goals. It's the most expensive, least productive thing companies invest in without even knowing it. And it's an epidemic. When New York Times bestselling author Jon Acuff changed his life by transforming his overthinking, he wondered if other people might benefit from what he discovered. He commissioned a research study to ask 10,000 people if they struggle with overthinking too, and 99.5 percent said, "Yes!" The good news is that in *Soundtracks*, Acuff offers a proven plan to change overthinking from a super problem into a superpower. When we don't

control our thoughts, our thoughts control us. If our days are full of broken soundtracks, thoughts are our worst enemy, holding us back from the things we really want. But the solution to overthinking isn't to stop thinking. The solution is running our brains with better soundtracks. Once we learn how to choose our soundtracks, thoughts become our best friend, propelling us toward our goals. If you want to tap into the surprising power of overthinking and give your dreams more time and creativity, learn how to DJ the soundtracks that define you. If you can worry, you can wonder. If you can doubt, you can dominate. If you can spin, you can soar.

When the family returned home, they were carrying several palm fronds. Little Jonnie asked them what they were for. "People held them

over Jesus' head as he walked by," his father told him. "Wouldn't you know it," little Jonnie fumed, "the one Sunday I don't go and he shows up."

God's Favorite Place on Earth Baker Books Wall Street Journal best-selling author Jon Acuff reveals the steps to getting unstuck and back onto the path of being awesome. Over the last 100 years, the road to success for most everyone has been divided into five stages that mirror the decades of working life: Your 20s are a period of Learning. This is the decade of

trying a thousand things, exploring a multitude of interests, and discovering what really motivates you. Your 30s are a period of Editing. This is the decade of sorting out interests, where you discover what you really care about and who you really are. Your 40s are a period of Mastering. This is the decade of narrowing focus, honing skill sets, and becoming an expert in your field. Your 50s are a period of Harvesting. This is the decade of reaping the benefits of good decisions and enjoying the highest income-earning period in a career. Your 60s are a period of Guiding. This is the decade of mentoring, training, and encouraging others on their own road to success. Every successful person has followed these steps regardless of their occupation. But three things have changed the path to success and erased the decades associated with them: Finish lines are dead –

Boomers are realizing that a lot of the things they were promised aren't going to materialize, and they have started second and third careers. Anyone can play – Technology has given access to an unprecedented number of people who are building online empires and changing their lives in ways that would have been impossible years ago. Hope is boss – The days of “success first, significance later,” have ended. A new generation doesn't want to change the world eventually; they want to change it now through the wells they kickstart in Africa and the TOMS they wear on their feet. The value system has been flipped upside down. The result is that you've got an entire generation pushing down to start over, another generation pushing up to start for the first time, and in the middle of this collision, the tools to actually change the world. Experience years

now trump chronological age. And while none of the five stages can be skipped, they can be shortened and accelerated. There are only two paths in life: average and awesome. The average path is easy because all you have to do is nothing. The awesome path is more challenging, because things like fear only bother you when you do work that matters. The good news is Start gives readers practical, honest, actionable insights to be more awesome, more often. It's time to punch fear in the face, escape average, and do work that matters. It's time to Start.

"This is an incredible story!"--Steve Harvey
Each of us is living a story--the story of our life. For Sam Collier, his story started with rejection, because when he and his twin sister were born, their biological mother gave them up for adoption. Through the many obstacles and challenges throughout Sam's life, God would prove to him that in

spite of the opposition, he was truly writing a story Sam could never have written in his own strength. In this deeply personal yet remarkably universal book, Sam Collier tells his inspiring story of abandonment, sacrifice, gratitude, and rescue, revealing how God is always doing something bigger and better than we might imagine. That he has a purpose and a plan for every single one of us. That he is always telling his greater story through our trials, our relationships, and our triumphs. If you're in the middle of a challenging time and long to know that God is working through it, Sam's story will teach you how to see the big picture, even when there are pieces missing.

The Legacy Journey FaithWords

Growing up the daughter of a pastor, Anne Jackson experienced firsthand the conflict, stress, and struggle church leaders often face. She vowed her life in ministry would be different. Yet, years later, as a church leader, she was hospitalized because stress began wreaking havoc on her body. After being released from the hospital, an associate pastor asked her, 'Does working at this church interfere with your communion with Christ?' The question was a amount in turning her life around. Thinking she wasn't alone, Anne developed a website that allowed church leaders to share their struggles. Within a few days, she was flooded with over a thousand responses from people pouring out their stories of burnout. Using anecdotal parallels between Mad Cow Disease and leadership trends in the church, she writes not only to help us realize what church leaders are facing, but also to provide

practical and positive treatment plans. Mad Church Disease is a lively, informative, and potentially life-saving resource for anyone in ministry---vocational or volunteer---who would like to understand, prevent, or treat the epidemic of burnout in church culture.

Close to 60 percent of young people who went to church as teens drop out after high school. Now the bestselling author of unChristian trains his researcher's eye on these young believers. Where Kinnaman's first book unChristian showed the world what outsiders aged 16-29 think of Christianity, You Lost Me shows why younger Christians aged 16-29 are leaving the church and rethinking their faith. Based on new research, You Lost Me shows pastors, church leaders, and parents how we

have failed to equip young people to live "in but not of" the world and how this has serious long-term consequences. More importantly, Kinnaman offers ideas on how to help young people develop and maintain a vibrant faith that they embrace over a lifetime.

Move beyond Coping and Surviving to a Rejuvenating Place of Soul Rest How many of us find ourselves exhausted, running on empty with no time for rest, no time for ourselves, no time for God? Bonnie Gray knows exactly what that's like. On the brink of fulfilling a lifelong dream, Bonnie's plans suddenly went off script. Her life shattered into a debilitating journey through anxiety, panic attacks, and insomnia. But as she struggled to make sense of it all, she made an important discovery: we all need spiritual whitespace. Spiritual whitespace makes room--room in one's heart for a deep

With soul-stirring vulnerability and heartbreaking honesty, Bonnie takes readers on a personal journey to feed their souls and uncover the deeper story of rest. Lyrical writing draws readers into Gray's intimate journey through overwhelming stress to find God in a broken story and celebrate the beauty of faith. Guided by biblical encouragement and thought-provoking prompts, Gray shows readers how to create space in the everyday for God, refreshment, and faith. She also offers practical steps and insights for making spiritual whitespace a reality, right in the midst of the stress-frayed stories in every season of life. Do you know what makes a story great? All the best stories have a few things in common. First, we need the voice of a narrator or a storyteller. Then, add interesting characters, throw them into a risky setting, and get ready for a good dose of conflict. Give those characters a purpose or goal, and that's then the real action begins. Story is our calling. It is also the next generation's best chance of identifying with the Church and changing the world. As we become storytellers, we learn to see the world in terms of stories being lived and told. We discover deeper insights into God, ourselves, and others. God's story is happening. We are right in the middle of a page-turner—and God is

in it with us. Start seeing your life as a part of God's story and make some great adventures happen right now!

Love Well Revell

A fascinating exploration of the profound loss of pleasure in our daily lives and the seven steps for restoring it. Pleasure. We know what it feels like and many of us spend our days trying to experience it. But can too much pleasure actually be bad for us? Yes, says Dr. Archibald Hart, clinical psychologist and expert in behavioral psychology. Backed by recent brain-imaging research, Dr. Hart shares that to some extent, our pursuit of extreme and overstimulating thrills hijacks our pleasure system and robs us of our ability to experience pleasure in simple things. We

are literally being thrilled to death. In this insightful book, Dr. Hart explores the stark rise in a phenomenon known as anhedonia, an inability to experience pleasure or happiness. Previously linked only to serious emotional disorders, anhedonia is now seen as a contributing factor in depression (specifically nonsadness depression) and in the growing number of people who complain of profound boredom. This emotional numbness and loss of joy are results of the overuse of our brain's pleasure circuits. In *Thrilled to Death*, Dr. Hart explains the processes of the brain's pleasure center, the damaging trends of overindulgence and overstimulation, the signs and problems of anhedonia, and the seven important steps we must take to

recover our wonderful joy in living.

[How to Be Your Own Selfish Pig](#) Ramsey Press #1 Wall Street Journal bestseller! Jon Acuff, New York Times best-selling author of *Do Over*, *Quitter*, and *Start*, offers strategies for anyone who's ever wondered, "Why can't I finish what I started?" According to studies, 92 percent of New Year's resolutions fail. You've practically got a better shot at getting into Juilliard to become a ballerina than you do at finishing your goals. For years, I thought my problem was that I didn't try hard enough. So I started getting up earlier. I drank enough energy drinks to kill a horse. I hired a life coach and ate more superfoods. Nothing worked, although I did develop a pretty nice eyelid tremor from all the caffeine. It was like my eye was waving at you, very, very quickly. Then, while leading a thirty-day online course to help people work on their goals, I learned something surprising: The most effective exercises were not those that pushed people to work harder. The ones that got

people to the finish line did just the opposite— they took the pressure off. Why? Because the sneakiest obstacle to meeting your goals is not laziness, but perfectionism. We're our own worst critics, and if it looks like we're not going to do something right, we prefer not to do it at all. That's why we're most likely to quit on day two, "the day after perfect"—when our results almost always underperform our aspirations. The strategies in this book are counterintuitive and might feel like cheating. But they're based on studies conducted by a university researcher with hundreds of participants. You might not guess that having more fun, eliminating your secret rules, and choosing something to bomb intentionally works. But the data says otherwise. People who have fun are 43 percent more successful! Imagine if your diet, guitar playing, or small business was 43 percent more successful just by following a few simple principles. If you're tired of being a chronic starter and want to become a consistent finisher, you have two options: You can

continue to beat yourself up and try harder, since this time that will work. Or you can give yourself the gift of done.

Framing Faith Stuff Christians Like Heal from yesterday's pain and find hope for tomorrow with this inspirational guide -- and learn how God's faithfulness is working for your good, even when times are tough. If we are truly blessed to be a blessing, then we can take the lessons we learn in hardships and turn them around to help others navigate through their seasons of struggle. Hope and healing are the two words God has given us. Hope for tomorrow and healing from yesterday. Shaun Nepstad believes God wants to use our stories to bring hope and healing to others. When it comes to life, we've all asked, "Is there more?" We want to believe there's more to life than what we're currently experiencing. But the

problem is, so much in life promises more but doesn't deliver. There's actually only One who can deliver the "more" we need, and that is Jesus. He delivers more than what we ask for or can even imagine. Consistently. Without fail. No matter what our situation looks like. Don't Quit in the Dip inspires us to keep fighting. To keep believing. And to keep helping us experience God's full blessing.

Part two of the literary sci-fi thriller follows a boy and a girl who are caught in a warring town where thoughts can be heard – and secrets are never safe. Reaching the end of their flight in *The Knife of Never Letting Go*, Todd and Viola did not find healing and

hope in Haven. They found instead their worst enemy, Mayor Prentiss, waiting to welcome them to New Prentisstown. There they are forced into separate lives: Todd to prison, and Viola to a house of healing where her wounds are treated. Soon Viola is swept into the ruthless activities of the Answer, while Todd faces impossible choices when forced to join the mayor's oppressive new regime. In alternating narratives the two struggle to reconcile their own dubious actions with their deepest beliefs. Torn by confusion and compromise, suspicion and betrayal, can their trust in each other possibly survive?

Don't Quit in the Dip Ramsey Solutions Incorporated
When He came to earth, Jesus Christ was

rejected in every quarter in which He stepped. The Creator was rejected by His own creation. “He came to His own and His own received Him not,” said John. For this reason, Jesus Christ had “no where to lay His head.” There was one exception, however. A little village just outside of Jerusalem named Bethany. Bethany was the only place on earth where Jesus was completely received. God’s Favorite Place on Earth is a retelling of Jesus’ many visits to Bethany and a relaying of the message it holds for us today. Frank Viola presents a beautifully crafted narrative from the viewpoint of Lazarus, one of the people who lived in Bethany with his two sisters. This incomparable story not only brings the Gospel narratives to life, but it addresses the struggle against doubt, discouragement, fear, guilt, rejection, and spiritual apathy that challenges countless Christians today. In profoundly moving prose, God’s Favorite Place on Earth will captivate your heart with its beauty, charm, and depth. In this book you will discover how to live as a “Bethany” in our world today, being set free to love and follow Jesus like never before.
