This work—the first of its
kind in more than sixty
years—covers polo in
Argentina, from its
beginnings in the 1870s to
the summer of 2013. The
history of the early pioneers
is constructed with data not
previously published,
gathered from contemporary

sources. International
competitions are covered and
include the Olympic Games,
the Cup of the Americas and
the World Championships.
Particular attention is given
to the major clubs, the
Argentina and Hurlingham
Open Championships, and
the National Handicap
Tournament. Several of the
elite players merit individual
or family mini-biographies.
Myths in Argentine polo are
also debunked, based upon
careful analysis of
contemporary sources.
Travels abroad by Argentine

teams are fully described as are the foreign teams that competed in Argentina. The work is enhanced by the author's personal observation of significant events and friendship with many of the participants.

This stylish handbook from the RCC Pilotage Foundation covers the spectacular cruising grounds around Cape Horn, including Chile, the Beagle Channel, the Falkland Islands and the Antarctic Peninsula. Including some of the most dangerous waters in the world, from the

treacherous Cape Horn to the icebound anchorages of Antarctica, it offers not only inspiration and encouragement but enough detail to plan the voyage of a lifetime.

Broadcaster and author Paul Heiney has incorporated a strategic range of navigational information from his voyage to the area alongside that gathered by other experienced sailors. Key passages, harbours and anchorages are described in an informative and enlightening way alongside useful sketch plans. Full-colour photographs and lively texts give a strong sense of the drama and magnificence of an area that is increasingly of

interest to cruising yachts. This book is not only a vital practical resource for these waters but also a source of inspiration for those considering a future visit.

From Michelin-starred winners to farmers who learned everything from the internet, you will learn how 22 chefs from around the world have built and grown their businesses from scratch. In these enlightening and practical recipes for success, they will

openly talk about unexpected challenges and painful setbacks that they had to overcome to get to the top. What is more, at the end of each chapter you will find an exclusive recipe shared by the featured chef. So, along with the encouragement to follow your dreams, you will be able to literally experience what success tastes like. "The greatest chefs, just as the greatest artists, have built their success stories on passion, humility, and

hard work. Most of them had a greater dream of becoming the best they could be and leaving their mark on this world."

'So I began thinking again of those two white blanks on the map, of penguins and humming birds, of the pampas and of gauchos, in short, of Patagonia, a place where, one was told, the natives' heads steam when they eat marmalade.' So responded H. W. 'Bill' Tilman to his own realisation that the Himalaya were too high for a mountaineer now well into his fifties. He would trade extremes of

altitude for the romance of the sea with, at his journey's end, mountains and glaciers at a smaller scale; and the less explored they were, the better he would like it. Within a couple of years he had progressed from sailing a 14-foot dinghy to his own 45-foot pilot cutter *Mischief*, readied for her deep-sea voyaging, and recruited a crew for his most ambitious of private expeditions. Well past her prime, *Mischief* carried Tilman, along with an ex-dairy farmer, two army officers and a retired civil

servant, safely the length of the North and South Atlantic oceans, and through the notoriously difficult Magellan Strait, against strong prevailing winds, to their icy landfall in the far south of Chile. The shore party spent six weeks crossing the Patagonian ice cap, in both directions, returning to find that their vessel had suffered a broken propeller. Edging north under sail only, Mischief put into Valparaíso for repairs, and finally made it home to Lympington via the Panama

Canal, for a total of 20,000 nautical miles sailed, in addition to a major exploration 'first' all here related with the skipper's characteristic modesty and bone-dry humour, and many photographs.

O jornalista e escritor Rodolfo Walsh foi militante revolucionário das organizações político-militares que reivindicavam o peronismo combatente vinculado às bases sindicais e às lutas políticas e sociais dos setores populares argentinos ? FAP (Fuerzas Armadas Peronistas) e Montoneros ?, quando foi assassinado em 1977. Organizou o semanário da CGT de los Argentinos, central sindical que rechaçava o sindicalismo pelego, e publicou várias obras, como o livro-

reportagem Operação Massacre (1957), que inaugurou o jornalismo literário, *Quien Mató a Rosendo?* (1969), denunciando as patotas assassinas a serviço da burocracia sindical argentina, e *Caso Satanowski* (1973). Deste livro de André Queiroz emerge o grande escritor, brilhante jornalista e combativo revolucionário, sua militância contra o terrorismo de Estado e o fascismo, que ainda nos ameaça. ***Uma vida dedicada ao combate ao

fascismo e todas as formas de terrorismo de Estado, assim poderíamos definir a trajetória do combatente político Rodolfo Walsh, intelectual que levou as últimas consequências o seu compromisso revolucionário, e que deixou uma obra fundamental para entendermos a história do fascismo de Estado na América Latina. Em toda sua carreira, seja como jornalista, escritor, dramaturgo e militante político, Rodolfo Walsh mostrou ser homem do seu tempo, que não fugiu

das lutas quando elas se apresentaram, e muito menos se acovardou como alguns de seus pares, como Jorge Luis Borges e Ernesto Sábato, que não apenas avalizaram como compactuaram com a sanguinária e criminosa ditadura que se instalou na Argentina entre 1976 a 1983. Isso jamais ocorreria com Walsh, um homem que conviveu com perdas insuperáveis, como a do amigo e poeta Paco Urondo, e, principalmente, da sua filha, Maria Victoria, ambas em confrontos contra o

exército. Apesar de toda dor da ausência e da perseguição que o levou a clandestinidade, Walsh nunca deixou de denunciar os crimes contra as camadas trabalhadoras, contra os que resistem e os que lutam. É por isso que as páginas de Rodolfo Walsh, a palavra definitiva, escritura e militância, do escritor, filósofo e cineasta André Queiroz, são fundamentais para compreendermos a vida e a obra desse importante personagem da história latino-americana, assim como as	causas do histórico processo de repressão em nosso continente, e suas ações na contemporaneidade. Bento Vilela. André Queiroz é Professor Titular do Instituto de Arte e Comunicação Social da Universidade Federal Fluminense. Escritor, ensaísta e documentarista. Dirigiu, em parceria com Arthur Moura, <i>El Pueblo Que Falta</i> (sobre a violência de Estado na América Latina e as formas históricas da insurgência) e <i>Araguaia, Presente!</i> (sobre a Guerrilha do Araguaia e a autocrítica	interna ao processo revolucionário em Brasil). Stories of transnational terror and justice illuminate the past and present of South

America's struggles for human rights. Through the voices of survivors, human rights activists, judicial actors, and experts, *The Condor Trials* unravels the secrets of transnational repression masterminded by South American dictators between 1969 and 1981. Under Operation Condor, the regimes of Argentina, Bolivia, Brazil, Chile, Paraguay, and Uruguay closely monitored hundreds of exiles and kidnapped, tortured,

murdered, or forcibly returned them to their countries of origin. This cross-border network designed to silence opposition in exile transformed South America into a borderless zone of terror and impunity. Francesca Lessa shows how, gradually, transnational networks of activists materialized and effectively transcended national borders to achieve justice for the victims of these horrors. Based on extensive fieldwork, archival research, trial ethnography, and over 100 interviews, *The Condor Trials* explores South America's past

and present and sheds light on ongoing struggles for justice as its societies come to terms with the unparalleled atrocities of their not-so-distant pasts.

Argentina's Partisan Past is a challenging new study about the production, spread, and use of national history and identity for political purposes in twentieth-century Argentina. Based on extensive study of primary and published sources, it analyzes how nationalist views about what it meant to be Argentine were built into the country's long protracted crisis of liberal

democracy from the 1930s to the 1980s. Eschewing the notion of any straightforward relationship between cultural customs and political practices, the study seeks instead to provide a more nuanced framework for understanding the interplay between politics and narratives about national history. The book is a valuable resource to both students of Argentine history and those interested in the ways in which nationalism has shaped our contemporary world.

Sprawling and strange, magical and melancholy, continually veering between triumph and disaster, Buenos Aires is an alluring city. Written entirely by residents, *Time Out Buenos Aires* casts an independent and critical eye on the places, people and culture that have

made this metropolis great and the contemporary trends that are conspiring to make it greater still. Looking beyond the 'Paris of South America' clichés, we make sense of the confusing jumble of influences that is Buenos Aires' trademark: its century-old cafés and world-famous steak houses; its word-of-mouth bars and backstreet bistros; its late night tango salons and cutting edge all-night clubs; its prestigious cultural landmarks and improvised warehouse galleries; the comforts of tradition rubbing up against the shock of the new. Honest,

detailed and informative, *Time Out Buenos Aires* is the perfect companion for the modern traveler.

Natural Hazards and Human-Exacerbated Disasters in Latin America McFarland

The main objective of the book is to offer a vision of the dynamics of the main disasters in South America, describing their mechanisms and consequences on South American societies. The chapters are written by selected specialists of each country. Human-induced disasters are also included, such as desertification in Patagonia and soil erosion in Brazil. The receding of South-American glaciers as a response to recent climatic trends and sea-

level scenarios are discussed. The approach is broad in analyzing causes and consequences and includes social and economic costs, discussing environmental and planning problems, but always describing the geomorphologic/geologic involved processes with a good scientific substantiation. This is important to differentiate the book from others of a more 'social' impact that discuss risks and disasters with emphases mainly on economy and simple impacts. The journal 306090 continues to garner acclaim throughout the architecture and design world as an essential forum for issues of architectural practice and theory. Its role as a voice for young architects, designers, and academics is reinforced by its knack for approaching broad topics from unique perspectives and synthesizing multiple points

of view. 306090 09: Regarding Public Space explores the conception, production, and operation of contemporary public space in the city from the vantage of its design, development, construction, and use. Rather than dwell on what public space is, 306090's guest editors identify it as the material manifestation of intersecting forces (economics, program, sustainable land-use) whose formation involves a complex set of manipulations in both physical space and

managerial aptitude. The articles in this volume, by contributors from cities across the globe, test the ways in which we articulate the built environment to make public space, interrogating it through examples from practice and theoretical developments alike.

This volume seeks to analyse the emerging wave of data journalism in the Global South. It does so by examining trends, developments and opportunities for data journalism in the aforementioned

contexts. Whilst studies in this specific form of journalism are increasing in numbers and significance, there remains a dearth of literature on data journalism in less developed regions of the world. By demonstrating an interest in data journalism across countries including Chile, Argentina, the Philippines, South Africa and Iran, among others, this volume contributes to multifaceted transnational debates on journalism, and is a crucial reference text for anyone interested in data journalism in the ‘developing’ world. Drawing on a range of voices from different fields and nations, sharing empirical and theoretical

experiences, the volume aims to initiate a global dialogue among journalism practitioners, researchers and students.

Rodolfo Walsh, a palavra definitiva BRILL

That much feared and eluded journey had finally come true. Beyond what was agreed before boarding the plane, what had ultimately happened was what Aquiles and Alejandro knew would inevitably end up happening. Almost cornered by the impulse, by the impetus, and by the impudence of Alejandro, Aquiles had lived a new experience that pushed him to cross a new limit. Strangely enough, and despite how mobilizing this journey had been

for him, Aquiles did not fall prey
to the disturbing internal conflicts
that had come to haunt him.
Indeed, what had happened had
freed him from a heavy backpack;
only Aquiles had not yet been able
to think about it too much. Nor
did he know that this journey
would trigger an abrupt and
definitive turn in his professional
life, which would affect the entire
armed structure. Already with the
lighter burden, waiting for the
birth of his first child, and feeling
more open to letting things simply

develop and strengthen his
emotional bonds without having
the slightest suspicion about what
was about to happen to him.
