Natural Hazards and

Una severa estatua en una plaza, el piadoso vitral de una iglesia, la simpática efeméride en la portada de

una revista infantil representan objetos portadores de significado social, diseños para transmitir una determinada impronta donde el pasado se temporaliza en un presente é pico, perpetuo e inamovible. Desde lo alto del pedestal, el héroe nos asegura que las cosas sucedieron así y no de otra manera, aunque el proceso recordatorio puesto en escena tergiverse el hecho que representa. El

---

patrimonio conmemorativo tiene como misión didáctica naturalizar un relato convincente e imponer una determinada visión política para glorificar a las elites dominantes, que diseminan estereotipos adecuados a sus intereses, mientras ocultan los prontuarios correspondientes de ciertos personajes encumbrados en pedestales de mármol de Carrara. El arte conmemorativo puede tener mil calificaciones, la única que no le cabe es la de inocencia. El autor desenmascara, con su agudo análisis y en un estilo ameno, esta sutil operación simbólica que falsea la realidad mediante un discurso verosímil que nos condena a ser pensados con categorías mentales opresoras. En la periferia del mundo, la dependencia no

solo es económica. Si después de la lectura de este libro, la observación de una estatua nos provoca cierta inquietud, su objetivo está cumplido.

Adrift in Buenos Aires, Layne Mosler was hungry—for an excellent (and cheap) meal, for a great story, for a new direction. A chance recommendation from a taxi driver helped her find all these things, and sparked a quest that would take her to three cities, meeting people from all walks of life, and finding an array of unexpected flavors. A story about following your passion, the pleasures of not always

---

knowing your destination, and the beauty of chance encounters, *Driving Hungry* is a vivid, and inspiring, read from first to last.

individual routes. The 7th edition assesses the effects of global warming on cruising routes and provides over 6,000 waypoints to assist skippers in planning individual routes. It is the perfect one-stop reference for planning a cruise anywhere in the world.

'The most important book for long-distance voyagers to come along in decades.'

*Cruising World Cuentos en Corrientes y Parana* Peter Lang

This stylish handbook from the RCC Pilotage Foundation covers the spectacular cruising grounds around Cape Horn, including Chile, the Beagle Channel, the Falkland Islands and the Antarctic Peninsula. Including some of the most dangerous waters in the world, from the

---

treacherous Cape Horn to the icebound anchorages of Antarctica, it offers not only inspiration and encouragement but enough detail to plan the voyage of a lifetime. Broadcaster and author Paul Heiney has incorporated a strategic range of navigational information from his voyage to the area alongside that gathered by other experienced sailors. Key passages, harbours and anchorages are described in an informative and enlightening way alongside useful sketch plans. Full-colour photographs and lively texts give a strong sense of the drama and magnificence of an area that is increasingly of interest to cruising yachts. This book is

not only a vital practical resource for these waters but also a source of inspiration for those considering a future visit.

Sprawling and strange, magical and melancholy, continually veering between triumph and disaster, Buenos Aires is an alluring city. Written entirely by residents, Time Out Buenos Aires casts an independent and critical eye on the places, people and culture that have made this metropolis great and the contemporary trends

that are conspiring to make it greater still. Looking beyond the 'Paris of South America' clichés, we make sense of the confusing jumble of influences that is Buenos Aires' trademark: its century-old cafés and world-famous steak houses; its word-of-mouth bars and backstreet bistros; its late night tango salons and cutting edge all-night clubs; its prestigious cultural landmarks and improvised warehouse galleries; the comforts of tradition rubbing up against the shock of the new. Honest, detailed and informative, Time Out Buenos Aires is the perfect companion for

Argentina's Partisan Past is a challenging new study about the production, spread, and use of national history and identity for political purposes in twentieth-century Argentina. Based on extensive study of primary and published sources, it analyzes how nationalist views about what it meant to be Argentine were built into the country's long protracted crisis of liberal democracy from the 1930s to the 1980s. Eschewing the notion of any straightforward

---

relationship between cultural customs and political practices, the study seeks instead to provide a more nuanced framework for understanding the interplay between politics and narratives about national history. The book is a valuable resource to both students of Argentine history and those interested in the ways in which nationalism has shaped our contemporary world.

Ediciones Continente  
This volume seeks to analyse the emerging wave of data

journalism in the Global South. It does so by examining trends, developments and opportunities for data journalism in the aforementioned contexts. Whilst studies in this specific form of journalism are increasing in numbers and significance, there remains a dearth of literature on data journalism in less developed regions of the world. By demonstrating an interest in data journalism across countries including Chile, Argentina, the Philippines, South Africa and Iran, among others, this volume contributes to multifaceted transnational debates on journalism, and is a crucial reference text for anyone interested in data

---

journalism in the 'developing' world. Drawing on a range of voices from different fields and nations, sharing empirical and theoretical experiences, the volume aims to initiate a global dialogue among journalism practitioners, researchers and students.

goWare & Guerini Next Stories of transnational terror and justice illuminate the past and present of South America's struggles for human rights. Through the voices of survivors, human rights activists,

judicial actors, and experts, *The Condor Trials* unravels the secrets of transnational repression masterminded by South American dictators between 1969 and 1981. Under Operation Condor, the regimes of Argentina, Bolivia, Brazil, Chile, Paraguay, and Uruguay closely monitored hundreds of exiles and kidnapped, tortured, murdered, or forcibly returned them to their countries of origin. This cross-border network designed to silence opposition in exile

---

transformed South America into a borderless zone of terror and impunity. Francesca Lessa shows how, gradually, transnational networks of activists materialized and effectively transcended national borders to achieve justice for the victims of these horrors. Based on extensive fieldwork, archival research, trial ethnography, and over 100 interviews, *The Condor Trials* explores South America's past and present and sheds light on ongoing

struggles for justice as its societies come to terms with the unparalleled atrocities of their not-so-distant pasts.

continues to garner acclaim throughout the architecture and design world as an essential forum for issues of architectural practice and theory. Its role as a voice for young architects, designers, and academics is reinforced by its knack for approaching broad topics from unique perspectives and synthesizing multiple points of view. 306090 09: Regarding Public Space explores the conception, production, and operation of contemporary public space in the city from the vantage of its design, development, construction, and use. Rather than dwell on what public space is, 306090's guest editors identify it as the material manifestation

---

of intersecting forces (economics, program, sustainable land-use) whose formation involves a complex set of manipulations in both physical space and managerial aptitude. The articles in this volume, by contributors from cities across the globe, test the ways in which we articulate the built environment to make public space, interrogating it through examples from practice and theoretical developments alike. *Geological Survey Professional Paper* Ediciones Trilce Una reconstrucción histórica minuciosa del Plan Cóndor y, con ello, devela la trama intergubernamental de persecución

política en el Cono Sur de América Latina. En *Los juicios del Cóndor*, Francesca Lessa –académica referente en el estudio de los derechos humanos en América Latina– presenta una investigación exhaustiva sobre la represión transnacional coordinada por las dictaduras sudamericanas en la década del setenta y principios de los ochenta, así como los procesos posteriores de búsqueda de verdad y justicia, principalmente en el Cono Sur. Mediante el

análisis de más de tres mil documentos, la realización de ciento cinco entrevistas y el seguimiento de procesos judiciales—sobre todo en Argentina e Italia—, la autora revela la naturaleza compleja de los delitos extraterritoriales, los entresijos del funcionamiento de la justicia en los distintos países involucrados y los esfuerzos internacionales para sortear la impunidad.

That much feared and eluded journey had finally come true. Beyond what was agreed before boarding the plane, what had ultimately happened was what Aquiles and Alejandro knew would inevitably end up happening. Almost cornered by the impulse, by the impetus, and by the impudence of Alejandro, Aquiles had lived a new experience that pushed him to cross a new limit. Strangely enough, and despite how mobilizing this journey had been for him, Aquiles did

---

not fall prey to the disturbing internal conflicts that had come to haunt him. Indeed, what had happened had freed him from a heavy backpack; only Aquiles had not yet been able to think about it too much. Nor did he know that this journey would trigger an abrupt and definitive turn in his professional life, which would affect the entire armed structure. Already with the lighter burden, waiting for the birth of his first child, and feeling more open to letting things simply flow, Aquiles would continue to develop and strengthen his emotional bonds without having the slightest suspicion about what was about to happen to him.
