"... this practical guide teaches us how to slip beyond the mental turbulence of our ordinary thought processes into an infinite reservoir of consciousness from which we can draw guidance, creative power, joy, and tranquility"--Cover back

The Hatchet DigiCat

"I've got a new law for you mate, it's called survival of the fittest, it's called fuck you we're the Riot Club." In an oak-panelled room in Oxford, ten young bloods with cut-glass vowels and deep pockets are meeting, intent on restoring their right to rule. Members of an elite student dining society, the boys are bunkering down for a wild night of debauchery, decadence and bloody good wine. But this isn't the last huzzah: they're planning a takeover. Welcome to the Riot Club.

The Romanian writer Mateiu I. Caragiale (great playwright Ion Luca Caragiale's son), lived between 1885-1936. His main literary works are the short story "Remember" (1921) and the novel

"Gallants of the Old Court" (1929, Romanian Writers Society's Award). He shines through the originality and distinction of his masterly controlled style. Written in the first person, "The Gallants of the Old Court (Craii de Curtea-Veche)" reveals the traits of, and satirizes, Romanian society in the early 20th century. Three self-indulgent, decadent characters while away their time, drinking, playing cards, chasing women. They also make allowance for the company of Gore Pirgu, an uncultured self-seeker of very low extraction, whose abominable character mirrors the new political class of the time. In this novel, the dying world of medieval boyars meets a rising fiercely capitalistic world, with new rules and ruthless behavior. Respected Romanian literary critic George Calinescu wrote: "Reality is transfigured, it becomes fantastical and a sort of Edgar Poe-like unease stirs these worthless figures of the old Romanian capital." "Gallants of the Old Court" opens a fascinating universe in front of us, as well as explains usually untapped regions of the human soul, helping us to better understand not only most of the Byzantine, Balkan, and Romanian spirit, but also a large size of our own unexplored self. The translator has done a painstakingly perfectionist work in rendering the text into English in the best possible way and also explaining every detail that might help us understand the spirit and the letter of the original, even without any hint of knowledge of Romanian. "Gallants of the Old Court" is a

great read and one of the masterpieces of world literature; and this translation is surely the best so far.

The International Commission on the Holocaust in Romania was established in October 2003 on the initiative of Ion Iliescu, the President of Romania; this final report was presented to him in November 2004. The aim of the Commission was to research the facts and determine the truth about the Holocaust in Romania during World War II. The report examines various aspects of the state-organized participation of Romania in the mass murder of Jews in Romania and in Romanian-controlled territories, as well as in northern Transylvania where the genocide was perpetrated by the Nazis and their Hungarian allies. Inter alia, it discusses antisemitism and the evolution of Romanian anti-Jewish policies from the late 1930s to 1944, the impact of the Soviet annexation of Bessarabia and Northern Bukovina on antisemitism in Romania, anti-Jewish incidents in 1940 and the pogroms in Bucharest and Iași, mass murders of Jews in the recaptured provinces and deportation to Transnistria in 1941, mass murder of Jews in Odessa and in Transnistrian camps, the "Romanianization" of the economy and the expropriation of Romanian Jews, the reaction of the Jewish community in Romania to anti-Jewish policies, and the personal responsibility of Ion Antonescu for the genocide. Relates, also, to war crimes trials held in Romania, and to the trivialization of the Holocaust and its "selective" and outright denial in postwar Romania.

'Absolutely, definitively alone', a young Jewish student in Romania tries to make sense of a world that has decided he doesn't belong. Spending his days walking the streets and his nights drinking and gambling, meeting revolutionaries, zealots, lovers and libertines, he adjusts his eyes to the darkness that falls over Europe, and threatens to destroy him. Mihail Sebastian's 1934 masterpiece, now translated into English for the first time, was written amid the anti-Semitism which would, by the end of the decade, force him out of his career and turn his friends and colleagues against him. For *Two Thousand Years* is a prescient, heart-wrenching chronicle of resilience and despair, broken layers of memory and the terrible forces of history.

Solar Resources takes stock of the resource - sunlight - on which any plan for solar heat conversion

technologies must be based. It describes the evolution of theoretical models, algorithms, and equipment for measuring, analyzing, and predicting the quantity and composition of solar radiation, and it reviews and directs readers to insolation databases and other references that have been compiled since 1975. Following an overview of solar energy research by the editor, Raymond J. Bahm presents a comprehensive guide to available insolation databases and other information resources in the United States. Charles M. Randall and Richard Bird discuss the theoretical models and algorithms used to characterize the transference of solar radiation through the earth's atmosphere. Their chapter also addresses the important question of the accuracy of the data sets produced by the various modeling methods and algorithms. The National Weather Service (NWS) monitoring network and other major monitoring networks in the United States are discussed by Kirby Hanson and Thomas Stoffel. And Eugene Zerlaut covers the instrumentation used to measure total solar irradiance and spectral solar irradiance; he describes types of equipment, their manufacturers, procedures for calibration, and the accuracy of the data produced. Richard Bird and Carol Riordan explain the nature of spectral solar irradiance at the earth's surface, and John Jensenius describes the NWS Operational Solar Insolation Forecast System, which predicts the daily total global-horizontal insolation for two days. In the concluding chapter, Claude Robbins summarizes daylighting models and resources, and details methods for converting insolation

date to illuminance data. Solar Resources is volume 2 in the series Solar Heat Technologies: Fundamentals and Applications, edited by Charles A. Bankston. The Open Door Faber & Faber. The combined effort of Israeli, American, and European scholars, this dictionary reflects the great variety of Jewish religious expression, from the traditional approaches to such recent variations as Reform, Conservative, and Reconstructionist Judaism.

The first true introduction to semiconductor optoelectronic devices, this book provides an accessible, well-organized overview of optoelectronic devices that emphasizes basic principles. Coverage begins with an optional review of key concepts—such as properties of compound semiconductor, quantum mechanics, semiconductor statistics, carrier transport properties, optical processes, and junction theory—then progress gradually through more advanced topics. The Second Edition has been both updated and expanded to include the recent developments in the field.

Hailed as one of the most important portrayals of the dark years of Nazism, this powerful chronicle by the Romanian Jewish writer Mihail Sebastian offers a lucid and finely shaded analysis of erotic and social life, a Jew's diary, a reader's

notebook, a music-lover's journal. Despite the pressure of hatred and horror in the "huge anti-Semitic factory" that was Romania in the years of World War II, his writing maintains the grace of its perceptive and luminous intelligence. The legacy of a journalist, novelist, and playwright, Sebastian's Journal stands as one of the most important human and literary documents of the climate that preceded the Holocaust in Eastern Europe.

Reveries over Childhood and Youth by W. B. Yeats is Yeats's autobiography. It includes poetic descriptions from and about one of the most influential poets of the twentieth century. Excerpt: "My first memories are fragmentary and isolated and contemporaneous, as though one remembered vaguely some early day of the Seven Days. It seems as if time had not yet been created, for all are connected with emotion and place and without sequence."

*The Bed of Procrustes* Penguin UK  
From King Lear to the Tragedy of Carmen, from Marat/Sade to the epic Mahabharata, Peter Brook has reinvented modern theatre, not once but again and again. In *The Open Door* the visionary director and theorist offers a lucid, comprehensive exposition of the philosophy that underlies his work. It is a philosophy of paradoxes: We come to the theatre to find life, but that life must be different from the life we find outside. Actors have to prepare painstakingly yet be willing to sacrifice the results of their preparation. The director's most reliable tool may be his capacity to be bored. Brook illustrates these principles with anecdotes that span his entire career and that demonstrate his familiarity with Shakespeare, Chekhov, and the indigenous theatres of

India and Iran. The result is an unparalleled look at what happens both onstage and behind the scenes, fresh in its insights and elegant in its prose.
