An eye for an eye. It's very simple. You choose your homeland like a hyena picking and choosing where he steals his next meal from. Scavenger. Yes you grovel to the feet of Mengistu and when his people spit at you and kick you from the bowl you scuttle across the border. Scavenger. As a violent civil war rages back home in Ethiopia, teenager Alem and his father are in a bed and breakfast in Berkshire. It's his best holiday ever. The next morning his father is gone and has left a note explaining that he and his mother want to protect Alem from the war. This strange grey country of England is now his home. On his own, and in the hands of the social services and the Refugee Council, Alem lives from letter to letter, waiting to hear something from his father. Then he meets car-obsessed Mustapha, the lovely 'out-of-your-league' Ruth and dangerous Sweeney – three unexpected allies who spur him on in his fight to be seen as more than just the Refugee Boy. Lemn Sissay's remarkable stage adaptation of Benjamin Zephaniah's bestselling novel is published here in the Methuen Drama Student Edition series, featuring commentary & notes

by Professor Lynette Goddard (Royal Holloway, University of London, UK) that help the student unpack the play's themes, language, structure and production history to date.

Did the Thatcher years and their aftermath constitute a revolution or a restoration in education. Do they represent a departure from, or a reinforcement of tradition? Contemporary Debates in Education is a thought-provoking volume which reviews the reforms of the eighties and early nineties, then follow this with an examination of the long-standing issues in education over the last century in order to relate current reforms and changes to their broader historical background, so that those with a general or professional interest in education can better understand the process in which they are involved.

Packed with spectacular superlatives, shocking stats, fantastic facts and fun figures, Science and Stuff celebrates the simple joy in finding things out. What can cats teach us about the laws

of physics? Why was cabbage banned on the International Space Station? (Can you fart in space?) And would a penny dropped from the Empire State Building really kill someone? (Short answer: No!) But it's not all facts and stats. The feature chapter just for Makers, introduced by our very own mad professor Burnaby Q. Orbax, challenges you to attempt record-breaking science experiments at home, from the fastest Mentos & Soda rocket car to the most slime thrown and caught in a minute! Join us as we rise from the deepest depths of the ocean, where weird glowing fish hunt in the darkness, to the mountaintop observatories where scientists unravel the secrets of the universe.

Contemporary Debates in Education Hodder Education

As a five-year-old, George Alagiah emigrated with his family to Ghana - the first African country to attain independence from the British Empire. A PASSAGE TO AFRICA is Alagiah's shattering catalogue of atrocities crafted into a portrait of Africa that is infused with hope, insight and outrage. In vivid and evocative prose and with a fine eye for detail Alagiah's viewpoint is spiked with the freshness of the young George on his arrival in Ghana, the wonder with which he recounts his first impressions of Africa and the affection with which he dresses his stories of his early family life. A sense of possibility lingers, even though the book is full of uncomfortable truths. It is a book neatly balanced on his integrity and sense of obligation in his role as a writer and reporter. The shock of recognition is always there, but it is the personal element that gives A PASSAGE TO AFRICA its originality. Africa becomes not only a group of nations or a vast continent, but an epic of individual pride and suffering.
