"I'm someone who will push you beyond all reasonable limits. Someone who will ask you not to just fulfill your potential but to exceed it. Someone who will expect more from you than you may believe you are capable of. So if you aren't ready to go to work, shut this book." --Pat Summitt
Pat Summitt, head coach of the University of Tennessee Lady Vols, was a phenomenon in women's basketball. Her

ferociously competitive teams won the NCAA championship in 1996 and 1997 and made her the winningest coach in NCAA Division 1 women's history. Summitt wrote the first motivational book by a high-achieving female coach. In *Reach for the Summit*, she presented her formula for success, which she called the "Definite Dozen System." In each of the book's twelve chapters, Summitt talked about one of the system's principles--such as responsibility, discipline, and loyalty--and showed how to apply it to your own situation. Pat Summitt used her own remarkable story as a vehicle for explaining how anyone can transform herself through ambition. Through many amusing anecdotes and a few very painful memories, she revealed her mistakes and triumphs as a beginning basketball player, as an Olympic athlete, as a Division 1 coach, and as a mother. Although Summitt was not born to the easy life--she was born into a hard-working farm family in a remote corner of Tennessee--she became one of the most successful and highest-paid coaches in the country. She candidly talked about how she turned her losses into wins and then showed how you can do the same. Wonderfully entertaining and brilliantly instructive, *Reach for the Summit* discloses the winning secret to building a principled system and making it to the top at whatever you do. Pat Summitt's story will motivate you to achieve in sports, business, and the most important game of all--life.

The Works of Allen Ginsberg, 1941-1994

First published in 1990, *Songs of the Doomed* is back in print -- by popular demand! In this third and most extraordinary volume of the *Gonzo Papers*, Dr. Hunter S. Thompson recalls high and hideous moments in his thirty years in the *Passing Lane* -- and no one is safe from his hilarious, remarkably astute social commentary. With Thompson's trademark insight and passion about the state of American politics and culture, *Songs of the Doomed* charts the long, strange trip from Kennedy to Quayle in Thompson's freewheeling, inimitable style. Spanning four decades -- 1950 to 1990 -- Thompson is at the top of his form while fleeing New York for Puerto Rico, riding with the Hell's Angels, investigating Las Vegas sleaze, grappling with the "Dukakis problem," and finally, detailing his infamous lifestyle bust, trial documents, and Fourth Amendment battle with the Law. These tales -- often sleazy, brutal, and crude -- are only the tip of what Jack Nicholson called "the most baffling human iceberg of our time." *Songs of the Doomed* is vintage Thompson -- a brilliant, brazen, bawdy compilation of the greatest sound bites of Gonzo journalism from the past thirty years.

This book offers the most thorough, detailed inside story of the preparation, negotiation, performance, and achievements of G20 gatherings from their start at the finance level in 1999 through their rise to become leader-level summits in response to the great global financial crisis in 2008. Follow the moves of America's George Bush and Barack Obama, Britain's Gordon Brown and David Cameron, Canada's Stephen Harper, Germany's Angela Merkel, and other key leaders as they struggle to contain the worst global recession since the Great Depression of the 1930s. This book provides a full chapter-long account of each of the first four G20 summits from Washington to Toronto with

summaries of the ensuing summits. It uses international relations theory to build and apply a model of systemic hub governance to back its central claim to show convincingly that G20 performance has grown to successfully govern an increasingly interconnected, complex, crisis-ridden, globalized twenty-first century world.

This book charts the course and causes of UN, G7 and G20 governance of climate change through the crucial period of 2015-2021. It provides a careful, comprehensive and reliable description of the individual and interactive contributions of the G7, G20 and UN summits and analyses their results. The authors explain these contributions and results by considering the impacts of causal candidates, such as a changing physical ecosystem and international political system and the actions of individual leaders of the world's most systemically significant countries. They apply and improve an established, compact causal model, grounded in international relations theory, to guide these tasks. By developing, prescribing and implementing immediate, realistic actionable policy solutions to cope with the urgent, existential challenge of controlling climate change, this volume will appeal to scholars of international relations, global governance and global

Crossing the Quality Chasm (2001) recommended that an interdisciplinary summit be held to further reform of health professions education in order to enhance quality and patient safety. Health Professions Education: A Bridge to Quality is the follow up to that summit, held in June 2002, where 150 participants across disciplines and occupations developed ideas about how to integrate a core set of competencies into health professions education. These core competencies include patient-centered care, interdisciplinary teams, evidence-based practice, quality improvement, and informatics. This book recommends a mix of approaches to health education improvement, including those related to oversight processes, the training environment, research, public reporting, and leadership. Educators, administrators, and health professionals can use this book to help achieve an approach to education that better prepares clinicians to meet both the needs of patients and the requirements of a changing health care system.
