Using Lady Morgan's *The Wild Irish Girl* as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.

Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

NIST SP 800-154 March 2016 Threat modeling is a form of risk assessment that models aspects of the

attack and defense sides of a particular logical entity, such as a piece of data, an application, a host, a system, or an environment. This publication examines data-centric system threat modeling, which is threat modeling that is focused on protecting particular types of data within systems. The publication provides information on the basics of data-centric system threat modeling so that organizations can successfully use it as part of their risk management processes. The general methodology provided by the publication is not intended to replace existing methodologies, but rather to define fundamental principles that should be part of any sound data-centric system threat modeling methodology. Why buy a book you can download for free? First you gotta find it and make sure it's the latest version (not always easy). Then you gotta print it using a network printer you share with 100 other people - and its outta paper - and the toner is low (take out the toner cartridge, shake it, then put it back). If it's just 10 pages, no problem,

but if it's a 250-page book, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. An engineer that's paid \$75 an hour has to do this himself (who has assistant's anymore?). If you are paid more than \$10 an hour and use an ink jet printer, buying this book will save you money. It's much more cost-effective to just order the latest version from Amazon.com This book is published by 4th Watch Books and includes copyright material. This book challenges this conventional
wisdom that land claims and co-
management -- two of the most visible and
celebrated elements of this restructuring the
relationship between Aboriginal peoples
and the Canadian state -- will help reverse

centuries of inequity. Based on three years of ethnographic research in the Yukon, the author examines the complex relationship between the people of Kluane First Nation, the land and animals, and the state. This book moves beyond conventional models of colonialism, in which the state is treated as a monolithic entity, and instead explores how "state power" is reproduced through everyday bureaucratic practices -- including struggles over the production and use of knowledge.

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided,

planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

The Golden Age of snowmobile
manufacturing was from 1968-1976 with a
gradual slow down leading to 1982. During
this time literally hundreds of snowmobile
manufacturers sprung up and then
disappeared. This book is a look at all the
most interesting, rare, or collectible
snowmobiles from that time period. The big
names like Arctic Cat, Polaris, Ski-Doo,
Yamaha, John Deere, Scorpion, Snow-Jet,
Mercury, Rupp, Moto-Ski, to the many
small-company brands like Allied, Boa Ski,
Chaparral, Evinrude, Harley Davidson,
Johnson, Polaron, Sears, Skiroule, Sno
Prince, Viking, and even includes a chapter
of collectible racing snowmobiles in the
hobby, like the 1977 Arctic Cat Z that

turned Arctic Cats racing program around,
and treasures like a 1973 Chaparral grass
drag sled or a 1974 Roll-O-Flex called The
Wild One. This book would be a benefit to
anyone interested in sleds from this time
period or looking to buy a more collectible
sled from this era.

In national bestseller *The Mountain*, world-
renowned climber and bestselling author Ed
Viesturs and cowriter David Roberts paint a
vivid portrait of obsession, dedication, and
human achievement in a true love letter to the
world ' s highest peak. In *The Mountain*,
veteran world-class climber and bestselling
author Ed Viesturs—the only American to
have climbed all fourteen of the world ' s
8,000-meter peaks—trains his sights on Mount
Everest in richly detailed accounts of

expeditions that are by turns personal, harrowing, deadly, and inspiring. The highest mountain on earth, Everest remains the ultimate goal for serious high-altitude climbers. Viesturs has gone on eleven expeditions to Everest, spending more than two years of his life on the mountain and reaching the summit seven times. No climber today is better poised to survey Everest's various ascents—both personal and historic. Viesturs sheds light on the fate of Mallory and Irvine, whose 1924 disappearance just 800 feet from the summit remains one of mountaineering's greatest mysteries, as well as the multiply tragic last days of Rob Hall and Scott Fischer in 1996, the stuff of which *Into Thin Air* was made. Informed by the experience of one who has truly been there, *The Mountain* affords a rare glimpse into that place on earth where Heraclitus's

maxim— “ Character is destiny ” —is proved time and again.

"In recent years religious leaders of mainline Christian and Jewish groups have been calling on their adherents to play a larger role in the creation of a just social order. One of the most publicized of these was the declaration of the American Catholic bishops, Economic Justice For All. It remains to be seen whether believers raised in an era of affluence are deeply committed to the plight of the needy, and whether religion itself can mark out a path between social activism and conventional party politics." "John Courtney Murray (1904-1967) was a pioneer in the ongoing dialogue about the role of believers in public life. For all of his

contributions, however, Murray spoke in a patrician manner to a social order that was stable and structured. How useful are his ideas in an age of multiculturalism, when the strongest pressure for justice comes from grassroots organizations of the poor and marginalized?" "The Believer as Citizen proposes a fresh view of Murray's public philosophy in a way that makes it applicable to today's conditions." --BOOK JACKET.
