Once the espresso machine is switched on and
heated, so the machine is in ready mode (see
above), the coffee maker is able to use I@@
Important: Once the espresso coffee operation
is activated, before the espresso pour starts the
progressive pre-infusion feature will release
three short bursts of gradual water pressure
onto the coffee cake.

Automatic Vs Manual Coffee Machines.
With a manual coffee machine, you have
more control over how much water and
coffee you want to use. You also have full
control over the grind size and dosing.
Manual machines are certainly the best
option if you are looking to replicate the
coffees you get in your local cafe.
