A New York Times Notable Book of the Year "Full of insights, marvelously entertaining . . . haunting and beautifully written." --The New York Review of Books "I lived in Athens, at the intersection of a prostitute and a saint." So begins Patricia Storace's astonishing memoir of her year in Greece. Mixing affection with detachment, rapture with clarity, this American poet perfectly evokes a country delicately balanced between East and West. Whether she is interpreting Hellenic dream books, pop songs, and soap operas, describing breathtakingly beautiful beaches and archaic villages, or braving the crush at a saint's tomb, Storace, winner of the Whiting Award, rewards the reader with informed and sensual insights into Greece's soul. She sees how the country's pride in its past coexists with profound doubts about its place in the modern world. She discovers a world in which past and present engage in a passionate dialogue. Stylish, funny, and erudite, Dinner with Persephone is travel writing elevated to a fine art--and the best book of its kind since Henry Miller's The Colossus of Maroussi. "Splendid. Storace's account of a year in Greece combines past and present, legend and fact, in an unusual and delightful whole. " --Atlantic Monthly

Walter Benjamin's magnum opus was a book he did not live to write. In The Dialectics of Seeing, Susan Buck-Morss offers an inventive reconstruction of the Passagen Werk, or Arcades Project, as it might have taken form. Working with Benjamin's vast files of citations and commentary which contain a myriad of historical details from the dawn of consumer culture, Buck-Morss makes visible the conceptual structure that gives these fragments philosophical coherence. She uses images throughout the book to demonstrate that Benjamin took the debris of mass culture seriously as the source of philosophical truth. The Paris Arcades that so fascinated Benjamin (as they did the Surrealists whose "materialist metaphysics" he admired) were the prototype, the 19th century "ur-form" of the modern shopping mall. Benjamin's dialectics of seeing demonstrate how to read these consumer dream houses and so many other material objects of the time—from air balloons to women's fashions, from Baudelaire's poetry to Grandville's cartoons—as anticipations of social utopia and, simultaneously, as clues for a radical political critique. Buck-Morss plots Benjamin's intellectual orientation on axes running east and west, north and south—Moscow Paris, Berlin-Naples—and shows how such thinking in coordinates can explain his understanding of "dialectics at a standstill." She argues for the continuing relevance of Benjamin's insights but then allows a set of "afterimages" to have the last word.

Impoverished college student Allison Kerry only thought her life was complicated. On a broiling August afternoon in Dallas, it's about to get much worse. Political blackmail leads to a political payoff gone terribly wrong and the money ends up in Allison's hands, but she has no idea where it came from or who lost it. When those who lost the money try to take it back, Allison starts to realize she's stumbled into something far worse than she imagined. To make it through, she'll have to run a gauntlet of corrupt politicians, hired thugs, a sociopathic dog-catcher, a foul-mouthed mob hit man and a pearly-toothed televangelist. Armed with only a single ambiguous clue and the help of someone she isn't sure she can trust, Allison has many questions, few answers and far less time than she thinks to piece everything together.

Charles Bernstein has described conceptual "poetry pregnant with thought." Against Expression, the premier anthology of conceptual writing, presents work that is by turns thoughtful, funny, provocative, and disturbing. Editors Craig Dworkin and Kenneth Goldsmith chart the trajectory of the conceptual aesthetic from early precursors such as Samuel Beckett and Marcel Duchamp through major avant-garde groups of the past century, including Dada, Oulipo, Fluxus, and language poetry, to name just a few. The works of more than a hundred writers from Aasprong to Zykov demonstrate a remarkable variety of new ways of thinking about the nature of texts, information, and art, using found, appropriated, and randomly generated texts to explore the possibilities of non-expressive language. --Book Jacket.

Albert Churchward's famous study of Ancient Egyptian myths and symbology reveals how their mythological culture evolved over thousands of years, influencing other civilizations. The author was among the first Western scholars to investigate the connection between the religious symbols, deities and traditions of Egypt, and those which emerged in later societies. By studying the hieroglyphic texts preserved in the monuments and papyrus of the Egyptian society, Churchward uncovered the origins of legendary stories, the roles of Gods like Horus and Ptah, and the emergence of important symbols such as the triangle, cross and swastika. The religious and cultural influence of this ancient society, whose dynasties stretched across millennia, is revealed to be of staggering magnitude. This book pieces together the connections between Egyptian lore and that of the Hebrews, the Freemasons, the Mayans and various tribal societies. The depth of Churchward's enquiry is enormous; hundreds of drawings, symbols, and photographs accompany the narrative, that the reader may discover the myriad connections and wide-ranging influence of the Egyptians from antiquity onward. Frequent quotations and cites of accomplished workers in the field of Egyptology, such as Dr. Wallis Budge and Gerald Massey, further support the points established.

Water is commonly taken for granted and treated with contempt, yet it is the very foundation of human existence. Assuming countless forms, it is deeply associated both with life and death, body and soul, purity and pollution, creation and destruction. "The Concept of Water" seeks to bring together the various aspects of our deeply ambiguous relationship with water, providing a systematic account of its symbolic and philosophical significance. This involves looking at how water has been conceived and the role it has played in everyday thought, mythology, literature, religion, philosophy, politics and science, both across cultures and through history. Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but

vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Since prehistory, bunkers have been built as protection from cataclysmic social and environmental forces, and as places of power and transformation. Today, the bunker has become the extreme expression of our greatest fears- from pandemics to climate change and nuclear war. And once you look, it doesn't take long to start seeing bunkers everywhere. In Bunker, acclaimed urban explorer and cultural geographer Bradley Garrett explores the global and rapidly growing movement of 'prepping' for social and environmental collapse, or 'Doomsday'. From the 'dread merchants' hustling safe spaces in the American mid-West to eco-fortresses in Thailand, from geoscrapers to armoured mobile bunkers, Bunker is a brilliant, original and never less than deeply disturbing story from the frontlines of the way we live now, an illuminating reflection on our age of disquiet and dread that brings it into new, sharp focus. The bunker, Garrett shows, is all around us, in malls, airports, gated communities, the vehicles we drive. Most of all, he shows, it's in our minds.
