Swoon: Great Seducers and Why Women Love Them Omair Nazir
Water is commonly taken for granted and treated with contempt, yet it is the very foundation of human existence. Assuming countless forms, it is deeply associated both with life and death, body and soul, purity and pollution, creation and destruction. "The Concept of Water" seeks to bring together the various aspects of our deeply ambiguous relationship with water, providing a systematic account of its symbolic and philosophical significance. This involves looking at how water has been conceived and the role it has played in everyday thought, mythology, literature, religion, philosophy, politics and science, both across cultures and through history. R. D. V. Glasgow was born in Sheffield and currently lives in Zaragoza. His previous books are "Madness, Masks and Laughter" (1995), "Split Down the Sides" (1997), and "The Comedy of Mind" (1999).

Charles Bernstein has described conceptual "poetry pregnant with thought." Against Expression, the premier anthology of conceptual writing, presents work that is by turns thoughtful, funny, provocative, and disturbing. Editors Craig Dworkin and Kenneth Goldsmith chart the trajectory of the conceptual aesthetic from early precursors such as Samuel Beckett and Marcel Duchamp through major avant-garde groups of the past century, including Dada, Oulipo, Fluxus, and language poetry, to name just a few. The works of more than a hundred writers from Aasprong to Zykov demonstrate a remarkable variety of new ways of thinking about the nature of texts, information, and art, using found, appropriated, and randomly generated texts to explore the possibilities of non-expressive language. --Book Jacket.

This is a very readable book, which will be of interest to both practitioners and academics. . . From an academic point of view, the testing of theories on compliance is particularly fruitful. Here the author defines several elements that challenge and supplement the existing literature. . . The fundamental research question [of the book] is of great importance to the management of marine resources throughout the world. There is no longer any lack of international agreements. The challenge is how to implement the agreements through practical regulatory measures, and how to ensure compliance with the agreements. Here the book contributes important insights. Alf HOEkon Hoel, Nordisk stforum This book provides very detailed insights to how fisheries agreements can shape norms and set standards leading to a high degree of compliance and well-managed fisheries. It gives a very comprehensive description of the development of the management of the Barents Sea fishery since the 1990s, including an impressive account of the NorwegianRussian fisheries negotiations. Geir Hnneland provides an important contribution to and further advances our understanding on the factors influencing rule-compliance in fisheries and in fact beyond. Jesper Raakjr, Aalborg University, Denmark In Making Fishery Agreements Work, Geir Hnneland extends his reputation as a leading scholar on Norwegian/Russian fisheries relationships. His new contribution focuses on the complicated and hard to track post-bargaining processes that can be used to improve compliance over time in situations with large power differentials. Well grounded in compliance theory and common property resource management, Hnnelands interviews and personal observations capture the empirical motivations that underlie compliance in the joint Barents Sea fisheries. David Fluharty, University of Washington, US Fishing vessels plying the cold waters of the Barents Sea provide the empirical basis for this extraordinary effort to answer the question of what it takes for people and their governments to make and stick to agreements and follow the rules. Based on years of study of arrangements between Norway and the Soviet Union/Russia and interviews with the captains of the fishing ships that seek cod and other species in the far north, Hnneland brings findings and theory from many disciplines to the question. In so doing he offers a powerful argument about how post-agreement bargaining at both state and individual levels contributes to compliance and hence sustainable fisheries. Bonnie McCay, Rutgers University, US Environmental governance is not just a matter of laying down clear rules and regulations and then finding ways to enforce them. Developing the idea of post-agreement bargaining and drawing on his exceptional knowledge of the world-class fisheries of the Barents Sea, Geir Hnneland illuminates the ongoing processes of interpretation, mutual accommodation, and adjustment to changing circumstances that play an essential role in making environmental regimes work. Oran Young, University of California, Santa Barbara, US Why do people obey the law? And why do states abide by their international commitments? These are among the questions raised in this important book. The setting is the Barents Sea, home to some of the most productive fishing grounds on the planet, including the worlds largest cod stock. Norway and Russia manage these fish resources together, in what appears to be a successful exception to the rule of failed

fisheries management: stocks are in good shape, institutional cooperation is expanding and takes place in a constructive atmosphere. The author argues that post-agreement bargaining helps activate norms and establish standard operating procedure that furthers precautionary fisheries management. The Barents Sea fishery is seen as one of the best-managed international fisheries in the world, and the book specifically enquires into the lessons to be learnt from the NorwegianRussian partnership. It will therefore prove to be of invaluable interest to practitioners, scholars and policy-makers working in the field of fisheries management and environmental agreements.

A New York Times Notable Book of the Year "Full of insights, marvelously entertaining . . . haunting and beautifully written." --The New York Review of Books "I lived in Athens, at the intersection of a prostitute and a saint." So begins Patricia Storace's astonishing memoir of her year in Greece. Mixing affection with detachment, rapture with clarity, this American poet perfectly evokes a country delicately balanced between East and West. Whether she is interpreting Hellenic dream books, pop songs, and soap operas, describing breathtakingly beautiful beaches and archaic villages, or braving the crush at a saint's tomb, Storace, winner of the Whiting Award, rewards the reader with informed and sensual insights into Greece's soul. She sees how the country's pride in its past coexists with profound doubts about its place in the modern world. She discovers a world in which past and present engage in a passionate dialogue. Stylish, funny, and erudite, Dinner with Persephone is travel writing elevated to a fine art--and the best book of its kind since Henry Miller's The Colossus of Maroussi. "Splendid. Storace's account of a year in Greece combines past and present, legend and fact, in an unusual and delightful whole." --Atlantic Monthly

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup’s powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Since prehistory, bunkers have been built as protection from cataclysmic social and environmental forces, and as places of power and transformation. Today, the bunker has become the extreme expression of our greatest fears- from pandemics to climate change and nuclear war. And once you look, it doesn't take long to start seeing bunkers everywhere. In Bunker, acclaimed urban explorer and cultural geographer Bradley Garrett explores the global and rapidly growing movement of 'prepping' for social and environmental collapse, or 'Doomsday'. From the 'dread merchants' hustling safe spaces in the American mid-West to eco-fortresses in Thailand, from geoscrapers to armoured mobile bunkers, Bunker is a brilliant, original and never less than deeply disturbing story from the frontlines of the way we live now, an illuminating reflection on our age of disquiet and dread that brings it into new, sharp focus. The bunker, Garrett shows, is all around us, in malls, airports, gated communities, the vehicles we drive. Most of all, he shows, it's in our minds.

Albert Churchward's famous study of Ancient Egyptian myths and symbology reveals how their mythological culture evolved over thousands of years, influencing other civilizations. The author was among the first Western scholars to investigate the connection between the religious symbols, deities and traditions of Egypt, and those which emerged in later societies. By studying the hieroglyphic texts preserved in the monuments and papyrus of the Egyptian society, Churchward uncovered the origins of legendary stories, the roles of Gods like Horus and Ptah, and the emergence of important symbols such as the triangle, cross and swastika. The religious and cultural influence of this ancient society, whose dynasties stretched across millennia, is revealed to be of staggering magnitude. This book pieces together the connections between Egyptian lore and that of the Hebrews, the Freemasons, the Mayans and various tribal societies. The depth of Churchward's enquiry is enormous; hundreds of drawings, symbols, and photographs accompany the narrative, that the reader may discover the myriad connections and wide-ranging influence of the Egyptians from antiquity onward. Frequent quotations and cites of accomplished workers in the field of Egyptology, such as Dr. Wallis Budge and Gerald Massey, further support the points established.

Impoverished college student Allison Kerry only thought her life was complicated. On a broiling August afternoon in Dallas, it's about to get much worse. Political blackmail leads to a political payoff gone terribly wrong and the money ends up in Allison's hands, but she has no idea where it came from or who lost it. When those who lost the money try to take it back, Allison starts to realize she's stumbled into something far worse than she imagined. To make it through, she'll have to run a gauntlet of corrupt politicians, hired thugs, a sociopathic dog-catcher, a foul-mouthed mob hit man and a pearly-toothed televangelist. Armed with only a single ambiguous clue and the help of someone she isn't sure she can trust, Allison has many questions, few answers and far less time than she thinks to piece everything together.
