Grendleroot focuses on the sense of mystery and wonder that comes from exploring ancient ruins. The central hub of these adventures, Deepdelver's Enclave, is a frontier outpost overlooking the ruined city of Shadowreach, set deep within the mountain. In Deepdelver's Enclave, adventurers and explorers recount tales of their explorations, trade treasure and artifacts, and enjoy their shared love of uncovering the mysteries of the mountain. These ten adventures can be run independently as single-session games of roughly two to four hours each, or they can be tied together as part of a larger campaign. Five of the adventures can be combined together into a five-session mini campaign that focuses on the strange consciousness lying at the center of the mysterious mountain. Illuminating Love Pearson ELT

Marvels and Miracles is one of the last works

written by Maria Woodworth-Etter in her long ministry as an evangelist in the Pentecostal movement. This story recounts many events during her lifetime, from holding tent revival meetings at her own expense, to persecution and violent attacks from local townspeople in attempts to silence her ministry. Contributors such as Stanley Frodsham, F.F. Bosworth, and many others recount the miracles and healings they received through Jesus Christ. With testimonies of healing from doctors, sinners, and saints; there is an overwhelming cloud of witnesses that these miraculous events did in fact take place. This proving what she taught so adamantly, that God is the same yesterday, today, and forever, and His power to heal has not diminished. It is the same as on the day of Pentecost, in 1924, and today.

Slim by Design Stress Free Kids

In this paradigm-shattering book, leading behavioural economist and food psychologist Brian Wansink - dubbed the 'Sherlock Holmes of food' and the 'wizard of why' - offers a radical new philosophy for weight loss. The answer isn't to tell people what to do: it's to set up their living environments so that they will naturally lose weight. Using cutting-edge, never-before-seen research from his acclaimed Food and Brand Lab at Cornell University, Wansink reveals how innovative and inexpensive design changes - from home kitchens to restaurants, from grocery

stores to schools and workplaces - can make it mindlessly easy for people to eat healthier and make it more profitable for the companies who sell the food. In *Slim by Design*, Wansink argues that the easiest, quickest and most natural way to reverse weight gain is to work with human nature, not against it. He demonstrates how schools can nudge kids to take an apple instead of a cookie, how restaurants can increase profits by selling half-size portions, how supermarkets can double the amount of fruits and vegetables they sell, and how anyone can cut plate refills at home by more than a third. Interweaving drawings, charts, floor plans and scorecards with new scientific studies and compelling insights that will make you view your surroundings in an entirely fresh way, this entertaining, eye-opening book offers practical solutions for changing your everyday environment to make you, your family and even your community slim by design.
