The Super Square 1 is a 4 layer variation of the Square 1. Like the original Square 1, when this puzzle is scrambled, it takes on a shape that is different from when it is solved. When the Super Square 1 is solved, there are 4 layers that consist of 3 pieces a layer. The middle piece in the layer is always narrower than the two edge pieces on the layer. On the top and bottom face of the cube ...

Square-1 Cube Puzzle - An overview and Beginner's Solution

Square-1. The Square-1 (previously called as Cube 21 and Back to Square One) is a shape-shifting three-layered twisty puzzle.Its solution is very unique because the kite-shaped corners and the triangular edges are indistinguishable to the puzzle's inner mechanism, meaning that corners can be swapped with edges and therefore it's possible to have 10 pieces in the upper layer while only 6 in the ...

Programs: To help solve this puzzle I have written computer programs that search for solutions for a particular position. The first Square-1 Solver is similar in style to Kociemba's algorithm for the Rubik's cube, as it solves it in two stages. In the first stage it makes a cube with an even permutation of pieces, and the second stage solves it.
