About This Journal. FIELD METHODS focuses on empirical tests of new methods for collecting, analyzing, and presenting data on human thought and human behavior and on new uses for existing methods. The data can be qualitative or quantitative, as can the methods for analysis and presentation, but articles for FM should advance a method rather than simply report on the application of a method.

[International Journal of Social Research Methodology: Vol ...](#)

Surveys are a research method by which information is typically gathered by asking a subset of people questions on a specific topic and generalising the results to a larger population,. They are an essential component of many types of research including public opinion, politics, health, and others.
