Rewire Your Brain Farrar, Straus and Giroux
From one of America's most popular short
story writers and an Academy Award
nominee: the O. Henry Award – winning tale
that inspired the movie The Hunt. A subject
of mysterious rumors and superstition, the
deserted Caribbean Island was shrouded in
an air of peril. To Sanger Rainsford, who fell
off a yacht and washed up on its shores, the
abandoned isle was a welcome paradise. But
unknown to the big-game hunter, a predator
lurked in its lush jungles—one more
dangerous than any he had ever encountered:
a human. First published in 1924, this
suspenseful tale “ has inspired serial killers,
films and stirred controversy in schools. A
century on, the story continues to thrill ”
(The Telegraph). “ [A] tense, relentless story
of man-against-man adventure, in which the
hunter Sanger Rainsford learns, at the hands
of General Zaroff, what it means to be
hunted. ” —Criterion

Lord of the Flies Lulu.com

One day Sophie comes home from school to find
two questions in her mail: "Who are you?" and
"Where does the world come from?" Before she
knows it she is enrolled in a correspondence course
with a mysterious philosopher. Thus begins Jostein
Gaarder's unique novel, which is not only a mystery,
but also a complete and entertaining history of
philosophy.

Golding ' s iconic 1954 novel, now with a new

foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.
