*Last Tang Standing W. W.
Norton & Company*

It's 1895, and after the death of her mother, 16-year-old Gemma Doyle is shipped off from the life she knows in India to Spence, a proper boarding school in England. Lonely, guilt-ridden, and prone to visions of the future that have an uncomfortable habit of coming true, Gemma's reception there is a chilly one. To make things worse, she's being followed by a mysterious young Indian man, a man sent to watch her. But why? What is her destiny? And what will her entanglement with Spence's most powerful girls - and their foray into the spiritual world -

lead to?

A Great and Terrible Beauty First Second

“ A beautifully observed and thrillingly honest novel about the dark corners of family life and the long, complicated search for understanding and grace. ” —Jenny Offill, author of *Dept. of Speculation* and *Weather*

“ The Fourth Child is keen and beautiful and heartbreaking—an exploration of private guilt and unexpected obligation, of the intimate losses of power embedded in female

adolescence, and of the fraught moments of glancing divinity that come with shouldering the burden of love. ” —Jia Tolentino, *New York Times* bestselling author of *Trick Mirror* “ A remarkable family saga . . . The Fourth Child is a balm—a reminder that it is possible for art to provide a nuanced exploration of life itself. ” —Rumaan Alam, author of *Leave the World Behind* and *Rich and Pretty* The author of *Break in Case of Emergency* follows up her “ extraordinary debut ”

(The Guardian) with a moving novel about motherhood and marriage, adolescence and bodily autonomy, family and love, religion and sexuality, and the delicate balance between the purity of faith and the messy reality of life. Book-smart, devoutly Catholic, and painfully unsure of herself, Jane becomes pregnant in high school; by her early twenties, she is raising three children in the suburbs of western New York State. In the fall of 1991, as her children are growing older

and more independent, Jane is overcome by a spiritual and intellectual restlessness that leads her to become involved with a local pro-life group. Following the tenets of her beliefs, she also adopts a little girl from Eastern Europe. But Mirela is a difficult child. Deprived of a loving caregiver in infancy, she remains unattached to her new parents, no matter how much love Jane shows her. As Jane becomes consumed with chasing therapies that might help Mirela, her relationships with

her family, especially her older daughter, Lauren, begin to fray. Feeling estranged from her mother and unsettled in her new high school, Lauren begins to discover the power of her own burgeoning creativity and sexuality—a journey that both echoes and departs from her mother’s own adolescent experiences. But when Lauren is confronted with the limits of her youth and independence, Jane is thrown into an emotional crisis, forced to reconcile her principles and faith with her

determination to keep her daughters safe. *The Fourth Child* is a piercing love story and a haunting portrayal of how love can shatter—or strengthen—our beliefs.

With an exuberant mix of passion, insight, instruction, and humor, best-selling author--and lifelong runner--Martin Dugard takes a journey through the world of running to illustrate how the sport helps us fulfill that universal desire to be the best possible version of ourselves each and every time we lace up our shoes. *To Be a Runner* represents a new way to write about

running by bridging the chasm between the two categories of running books: how-to and personal narrative. Spinning colorful yarns of his running and racing adventures on six continents--from competing in the infamous Raid Gauloises to coaching his son's high school cross-country team--Dugard considers what it means to truly integrate the activity into one's life. For example, how the simple act of buying a new pair of running shoes can be a source of meaning and hope. As entertaining as it is provocative, *To Be a Runner* is about far more than running: It is about life, and how we should live it.

The Light of the World Grand Central Publishing

The year is 1989 and Mark Doty's life has reached a state of enviable equilibrium. His reputation as a poet of formidable talent is growing, he enjoys his work as a college professor and, perhaps most importantly, he is deeply in love with his partner of many years, Wally Roberts. The harmonious existence these two men share is shattered, however, when they learn that Wally has tested positive for the HIV virus. From diagnosis to the initial signs of deterioration to the heartbreaking hour when Wally is released from his body's ruined vessel, *Heaven's Coast* is an intimate chronicle of

love, its hardships, and its innumerable gifts. We witness Doty's passage through the deepest phase of grief -- letting his lover go while keeping him firmly alive in memory and heart -- and, eventually beyond, to the slow reawakening of the possibilities of pleasure. Part memoir, part journal, part elegy for a life of rare communication and beauty, *Heaven's Coast* evinces the same stunning honesty, resplendent descriptive power and rapt attention to the physical landscape that has won Doty's poetry such attention and acclaim.

How to Be a Star Nobrow Press

The Skyscraper Curse is Dr. Mark Thornton's definitive work on booms and busts, and it explains why only Austrian economists really understand them. It makes business cycle theory accessible to a whole new 21st-century audience. And they need it, especially those under 40. Many of the brilliant quants working on Wall Street and at the Fed

barely remember the Crash of 2008, much less understand it. But Mark Thornton does, and his book is a warning about overheated equity markets, over-inflated housing prices, and clueless central bankers. Given the shaky stock markets lately, 2018 may be the year the Fed's latest bubble bursts. And when it does, it will be even more painful than 10 years ago. In fact, US household and business debt is now one trillion dollars higher than 2008. Mark is well known as an expert on bubbles and Fed malfeasance. His work appears in outlets like Wall Street Journal, Bloomberg, Forbes, The

Economist, Barron's, and Investor's Business Daily. His now-infamous Skyscraper Index theory draws the connection between loose monetary policy, artificially low interest rates, and vanity construction projects. Put the three together and it doesn't turn out well. And let's not forget that Dr. Thornton was among only a handful of economists to warn about the dangerous housing bubble in 2004, and again in 2006. Cabbies and waiters bought up condos with no money down in places like Las Vegas. Prices rose 25 percent or more every year in some coastal markets. Even people with terrible credit

financed houses at five or seven times their annual income. All of it was made possible by the Fed and its mania for low interest rates. So when the experts said “Nobody could have seen this coming,” the Mises Institute had Mark’s articles and papers ready to go. The housing crash, and the meltdown in equity markets less than a year later, were thoroughly explained by Austrian business cycle theory. And Mark was the capable face of the Mises Institute during it all. Without a lay-friendly book like *The Skyscraper Curse*, millions more Americans will be duped by the next crash. Dr.

Thornton’s book tells the story that needs to be told. It will be among the only alternative explanations available when the next crisis comes. [How I Became Latina](#) Surviving High School You wouldn’t expect Nate and Charlie to be friends. Charlie’s the laid-back captain of the basketball team. Nate is the neurotic, scheming president of the robotics club. But they are friends, however unlikely—until Nate declares war on the cheerleaders and the cheerleaders retaliate by making Charlie their figurehead in the

ugliest class election campaign the school has ever seen. At stake? Student group funding that will either cover a robotics competition or new cheerleading uniforms, but not both. Bad sportsmanship? Sure. Chainsaws? Why not. Running away from home on Thanksgiving to illicitly enter a televised robot deathmatch? The mind-blowing conclusion to the Monster trilogy and the final installment in the Gone series from science fiction and fantasy master Michael Grant is perfect for superhero and Stephen King fans alike. After the fall of Perdido Beach dome, a new set of humans developed mutant powers from the

rock infected with alien virus. They are the Rockborn Gang: Dekka, Shade, Cruz, Malik, Armo, and Francis. With their superpowers, they have defended the earth from other rockborn who used their powers for evil, like Dillon Poe. When another rock carrying the virus strikes New York, a new foe, Bob Markovic, rises with a horrifying and nearly unstoppable ability. Markovic’s unending ambition and lack of a moral compass made him

unbearable before the virus. And that was before he was a swarm of plague-ridden insects, with the power and means to take over the city—and maybe the world. As the Rockborn Gang try to defeat their latest villain, they will find themselves on morally gray grounds and have to make tough decisions if they want to save the world. In this pulse-pounding finale to the saga more than ten years in the making, Michael Grant delivers an

unforgettable conclusion while asking: What does it take to be a hero?

More Than a Memoir Harper Collins

All three parts of the delightful Fleurville Trilogy in one book. In *Sophie's Misfortunes*, Sophie is a naughty little girl who delights in disobeying her mother and engaging in mischievous pranks. Why can't she be as well behaved as her cousin Paul and her two sensible friends, Camille and Madeleine? In *Camille and Madeleine*, Camille and Madeleine are perfect little girls, beautifully behaved and wise beyond their years living

with their mother at Chateau Fleurville. Another little girl, Margeurite, and her widowed mother come to stay and Sophie, now orphaned, is 'adopted' into the family. Soon all four girls become firm friends. Through their adventures all four learn steadfast loyalty and how to take responsibility for their actions. In *The Holidays*, Camille, Madeleine, Marguerite and Sophie are waiting excitedly for their cousins to arrive for the summer holidays. The children fill their days building cabins, having picnics and playing games. Sophie is involved in another misadventure when she hides

in a hollowed out tree trunk and cannot climb out! The highlight of the holidays is the unexpected return of Sophie's mother and cousin Paul. They had escaped the shipwreck in which they were thought to have drowned and had made their way to a foreign land. The children are enthralled by the Crusoe-like tales of survival and adventure.

Staying Fat for Sarah

Byrnes Good from the First Byte Press

On Being Blue is a book about everything blue—sex and sleaze and sadness, among other things—and about everything else. It brings us the world in a word as only

William H. Gass, among contemporary American writers, can do. Gass writes: Of the colors, blue and green have the greatest emotional range. Sad reds and melancholy yellows are difficult to turn up. Among the ancient elements, blue occurs everywhere: in ice and water, in the flame as purely as in the flower, overhead and inside caves, covering fruit and oozing out of clay. Although green enlivens the earth and mixes in the ocean, and we find it, copperish, in fire; green air, green skies, are rare. Gray and brown are widely distributed, but there are no joyful swatches of either, or

any of exuberant black, sullen pink, or acquiescent orange. Blue is therefore most suitable as the color of interior life. Whether slick light sharp high bright thin quick sour new and cool or low deep sweet dark soft slow smooth heavy old and warm: blue moves easily among them all, and all profoundly qualify our states of feeling.

A Novel Poppy Books

The first ever memoir from the most decorated female skier of all time, revealing never-before-told stories of her life in the fast lane, her struggle with depression, and the bold decisions that helped her break down barriers on and off

the slopes. 82 World Cup wins. 20 World Cup titles. 3 Olympic medals. 7 World Championship Medals. A fixture in the American sports landscape for almost twenty years, Lindsey Vonn is a legend. With a career that spanned a transformation in how America recognizes and celebrates female athletes, Vonn—who retired in 2019 as the most decorated American skier of all time—was in the vanguard of that change, helping blaze a trail for other world-class female athletes and reimagining what it meant to pursue speed at all costs. In *Rise*, Vonn shares her incredible journey for the first

time, going behind the scenes of a badass life built around resilience and risk-taking. One of the most aggressive skiers ever, Vonn offers a fascinating glimpse into the relentless pursuit of her limits, a pursuit so focused on one-upping herself that she pushed her body past its breaking point as she achieved greatness. While this iconic grit and perseverance helped her battle a catalog of injuries, these injuries came with a cost—physical, of course, but also mental. Vonn opens up about her decades-long depression and struggles with self-confidence, discussing candidly how her mental health

challenges influenced her career without defining her. Through it all, she dissects the moments that sidelined her and how, each time, she clawed her way back using an iconoclastic approach rooted in hard work—pushing boundaries, challenging expectations, and speaking her mind, even when it got her into trouble. At once empowering and raw, *Rise* is an inspirational look at her hard-fought success as well as an honest appraisal of the sacrifices she made along the way—an emotional journey of winning that understands all too well that every victory comes with a price. *The Investigation of a Deadly*

After a humiliating tumble down the social ladder, Kacey Simon is back on top, where she belongs. She's lost her lisp, traded in her Coke-bottle glasses for contacts, and learned that brutal honesty isn't always the best policy. Best of all, she's made up with Zander and her BFFs and reclaimed her spot as Gravity's lead singer. Her life is pitch-perfect--until Zander's ex-girlfriend, Stevie, arrives in town. Marquette Middle hasn't seen a girl with such killer style and impressive vocals since... well, Kacey herself. Boys want to date Stevie, girls want to be her, and Kacey

wants to boot her butt out of Chicago ASAP. But when Kacey reverts to her mean-girl ways to take Stevie down, will she lose the band--and Zander--for good? It's not easy for a star to share the spotlight, but the show must go on in Meg Haston's stylish and clever sequel to *How to Rock Braces and Glasses*.
