Among the Impostors HarperCollins Nory Ryan's family has lived on Maidin Bay on the west coast of Ireland for generations, raising a pig and a few chickens, planting potatoes, getting by. Every year Nory's father goes away on a fishing boat and returns with the rent money for the English lord who owns their cottage and fields, the English lord bent upon forcing the Irish from their land so he can tumble the cottages and clear the fields for grazing. Times are never easy on Maidin Bay, but this year, a terrible blight attacks the potatoes. No crop means starvation. Twelve-year-old Nory must summon the courage and ingenuity to find food, to find hope, to find a way to help her family survive.

Shadow Island: Desperate Measures
Yearling

Thirteen-year-old Jonah has always known that he was adopted, and he's never thought it was any big deal. Then he and a new friend, Chip, who's also adopted, begin receiving mysterious letters. The first one says, "You are one of the missing." The second one says, "Beware! They're coming back to get you." Jonah, Chip, and Jonah's sister, Katherine, are plunged into a mystery that involves the FBI, a vast smuggling operation, an airplane that appeared out of nowhere -- and people who seem to appear and disappear at will. The kids discover they are caught in a battle between two opposing forces that want very different things for Jonah and Chip's lives. Do Jonah and Chip have any choice in the matter? And what should they choose when both alternatives are horrifying? With Found, Margaret Peterson Haddix begins a new series that promises to be every bit as suspenseful as her Shadow Children series -- which has sold more than 41/2 million copies -- and proves her, once again, to be a master of the page-turner.

Could someone have actually spoiled an entire season of Survivor? That was the question everyone was asking back in January, 2003, an entire month before the season premier of Survivor: The Amazon. On January 9th, I started an Internet message board thread under the assumed alias of "ChillOne," and debriefed my intelligence, "would-be" confidential information that I uncovered while vacationing

in the Brazilian Amazon, including contestant names, game dynamics, location details, and Tribal Council "boot order." In that report, I named Matt Von Ertfelda and Jenna Morasca as the two finalists and pointed to Jenna as the player who was better liked of the two, providing a tantalizing hint of a possible final outcome! Over the next four months, my information would be under the microscope; picked apart and analyzed piece-by-piece by thousands, while at the same time gaining national attention. In the end, *ChillOne* became one of the most talked about, if not the most talked about, informants in *Survivor* spoiling history.

39 Clues: Unstoppable 1: Nowhere to Run
Viking Books for Young Readers

She was an innocent Mormon girl. He was America's most notorious serial killer.

When their paths crossed on a quiet autumn afternoon, he planned to kill her. But this victim had an incredible will to survive and would live to tell her story nearly three decades after he met death in a Florida electric chair. Ted Bundy brutally attacked Rhonda Stapley in a secluded Utah canyon in 1974. She miraculously escaped and hid her dark secret until now. This compelling real story of triumph over tragedy is both shocking and inspiring and told with the true courage of a victim turned survivor.

(Foreword by Ann Rule) When she appeared on his show, Dr. Phil McGraw told Rhonda, "This book will save lives."

From a leading Yale expert and serial entrepreneur, a radical, principled, and field-tested approach that identifies what's really at stake in any negotiation and ensures you get your half—so you can focus on growing the pie. Negotiations are incredibly stressful and can bring out the worst in people. Wouldn't it be better if there were a principled way to negotiate? Wouldn't it be even better if there

were a way to treat people fairly and get treated fairly in a negotiation? *Split the Pie* offers a new approach that does both—a field-tested method that reframes how negotiations play out. Barry Nalebuff, a professor at Yale School of Management, helps identify what's really at stake in a negotiation: the "pie." The negotiation pie is the additional value created through an agreement to work together. Seeing the relevant pie will change how you think about fairness and power in negotiation. You'll learn how to get half the value you create, no matter your size. Filled with examples and in-depth case studies, *Split the Pie* is a practical and theory-based approach to negotiation. You'll see how it helped reframe a high-stakes negotiation when Coca-Cola purchased Honest Tea, a company Barry cofounded with his former student Seth Goldman. The pie framework also works for everyday negotiations. You'll learn how to deploy logic to determine truly equitable solutions and employ empathy to expand the pie and sell your solution. *Split the Pie* allows both sides to focus their energy on making the biggest possible pie—to have your pie and eat it too.

What are your chances of dying on your next flight, being called for jury duty, or winning the lottery? We all encounter probability problems in our everyday lives. In this collection of twenty-one puzzles, Paul Nahin challenges us to think creatively about the laws of probability as they apply in playful, sometimes deceptive, ways to a fascinating array of speculative situations. Games of Russian roulette, problems

involving the accumulation of insects on flypaper, and strategies for determining the odds of the underdog winning the World Series all reveal intriguing dimensions to the workings of probability. Over the years, Nahin, a veteran writer and teacher of the subject, has collected these and other favorite puzzles designed to instruct and entertain math enthusiasts of all backgrounds. If idiots A and B alternately take aim at each other with a six-shot revolver containing one bullet, what is the probability idiot A will win? What are the chances it will snow on your birthday in any given year? How can researchers use coin flipping and the laws of probability to obtain honest answers to embarrassing survey questions? The solutions are presented here in detail, and many contain a profound element of surprise. And some puzzles are beautiful illustrations of basic mathematical concepts: "The Blind Spider and the Fly," for example, is a clever variation of a "random walk" problem, and "Duelling Idiots" and "The Underdog and the World Series" are straightforward introductions to binomial distributions. Written in an informal way and containing a plethora of interesting historical material, Duelling Idiots is ideal for those who are fascinated by mathematics and the role it plays in everyday life and in our imaginations.

Sequel to the New York Times bestseller STRANDED, seen The Today Show, Rachael Ray, and Kelly and Michael. From the multi-Emmy Award winning host of Survivor and the New York Times bestselling co-author of Middle School: The Worst Years of My Life comes a fantastic new middle grade adventure series! They thought it couldn't get any worse. They

were wrong. Being shipwrecked on a jungle island in the middle of the South Pacific was bad enough. But now that Carter, Vanessa, Buzz and Jane have lost their boat--and almost everything on board--to another violent storm, it's like starting over. That means finding food and shelter, making fire for the first time, dealing with the wild boars that roam the island--and of course, figuring out how to get along (and not kill each other in the process). Survival is no individual sport in a place like this, but there's only one way to learn that. The hard way. 1961 and 1987, this pioneering study of "small group" conflict and cooperation has long been out-of-print. It is now available, in cloth and paper, with a new introduction by Donald Campbell, and a new postscript by O.J. Harvey. In this famous experiment, one of the earliest in inter-group relationships, two dozen twelve-year-old boys in summer camp were formed into two groups, the Rattlers and the Eagles, and induced first to become militantly ethnocentric, then intensely cooperative. Friction and stereotyping were stimulated by a tug-of-war, by frustrations perceived to be caused by the "out" group, and by separation from the others. Harmony was stimulated by close contact between previously hostile groups and by the introduction of goals that neither group could meet alone. The experiment demonstrated that conflict and enmity between groups can be transformed into cooperation and vice versa and that circumstances, goals, and external manipulation can alter behavior. Some have seen the findings of the experiment as having implications for reduction of hostility among racial and ethnic groups and among nations, while recognizing the difficulty of control of larger groups.

This groundbreaking book presents a unique and practical approach to the evolving field of exercise oncology - the study of physical activity in the context of cancer prevention and control.

Presenting the current state of the art, the book is sensibly divided into four thematic sections. Following an opening chapter presenting an overview and timeline of exercise oncology, the chapters comprising part I discuss primary cancer prevention, physical activity and survivorship, and the mechanisms by which these operate. Diagnosis and treatment considerations are discussed in part II, including prehabilitation, exercise during surgical recovery, infusion and radiation therapies,

and treatment efficacy. Post-treatment and end-of-life care are covered in part III, including cardio-oncology, energetics and palliative care. Part IV presents behavioral, logistical and policy-making considerations, highlighting a multidisciplinary approach to exercise oncology as well as practical matters such as reimbursement and economics. Written and edited by experts in the field, *Exercise Oncology* will be a go-to practical resource for sports medicine clinicians, family and primary care physicians, oncologists, physical therapy and rehabilitation specialists, and all medical professionals who treat cancer patients.
