REVIEW: NEW

SUUNTO EON CORE -
DIVE Magazine

The Suunto EON Core

Dive Computer is a bright, intuitive colour screen wrist computer made for the travelling diver who wants an easy to understand computer that they can read in all conditions.

The colour screen can be fully customised to your needs and the Core's software can be updated at a later date by connecting to DM5.

Suunto EON Steel

The redesigned Suunto DM5 allows you to download your dive logs for advanced

analysis and upload detailed dive plans to your dive computer. For Suunto EON Steel and Suunto EON Core owners, DM5 offers display customization and firmware updates. Dive planning has become easier with DM5.

The program is free to download.

The shortlist of computers playing in this space is, for want of a better word, short because many other manufacturers just can't compete with the standards the likes of Suunto are setting. No doubt the others will catch up one day but for now, the Eon represents the next generation of dive computer and does so brilliantly.

I have owned and used many other dive computers. All of them did the job adequately (some better than others), but I didn't realize how much better life could be until I found the Suunto Eon Core. Now that I have used the Eon Core, I wouldn't even think of going back to the

others. I love this dive computer.
