Haynes Manuals N. America,
Incorporated

A faithful reproduction of the
1970 Floyd Clymer publication
of the official factory Suzuki
Workshop Manual for the T20 and
T200 series of motorcycles
including the 250cc Super Six
and X6 Hustler and the 200cc X5
Invader and Sting Ray

Scrambler. There are
comprehensive tables of
technical data, tolerances and
fits and all of the expected
data from a factory publication
for the repair and overhaul of
all major and minor mechanical
and electrical components,

making it an invaluable
resource for collectors and
restorers of these classic
Suzuki motorcycles. There are
177 illustrations and each
procedure is explained in a
step-by-step method using an
appropriate illustration. The

translation from Japanese to
English is, at times, a little
quirky but the illustrations
make up for any difficulty in
understanding what needs to be
done! Out-of-print and
unavailable for many years,

this book is highly sought
after on the secondary market
and we are pleased to be able
to offer this reproduction as a
service to all Suzuki
enthusiasts worldwide.
