Ten essays discuss federal democracy, the form of government of the United States. The first essay discusses the origins of American federalism. The second examines why we have a federal system, the functions federalism serves, and the consequences of federalism for the American political system. Federalism in the Constitution and constitutional law are treated in the third essay. The importance of cultural pluralism in American life and the role of American federalism in supporting pluralism are the foci of the fourth essay. The roles that the local community, the states, and political parties play in the federal system are examined in essays 5, 6, and 7, respectively. State, local, and professional roles in citizenship education are discussed in the eighth essay. The ninth essay explores how high school U.S. history and government textbooks approach federalism. The concluding essay describes resources on federalism that can be used in curriculum development at the secondary and college levels. Many of the essays are followed by topics for further study and suggested readings for teachers. (RM)

The Golden Egg will lead you to the Golden Goose - the Source of all PROSPERITY Many of today's "Law of Attraction" books seem to suggest a fairytale doctrine that merely sitting back and thinking about riches, health and love will create a surplus of these experiences and an abundance of wealth. Most of them, however, tend to leave out a vital requirement in manifesting your dreams and that's - a significant degree of willpower This book is a MUST-READ for a prosperous year This adventure, however, is about more than just material gains... It will help you better understand how your knowledge, thoughts and actions all coincide to produce your experience based on the 24 cosmic principles of Samkhya Yoga. Learn the difference between being an "attractor" and a natural-born "CREATOR" and how to fully realize this as three-part beings in body, mind & spirit. This is the Law of Creation This book is a one-of-a-kind reading you'll want to share, discuss and partner with friends to incorporate Understand how all actions create karma: "The meaning of Karma is in the intention. The intention behind action is what matters. Those who are motivated only by desire for the fruits of

action are miserable, for they are constantly anxious about the results of what they do." Krishna Many of us have been erroneously taught that prosperity is all about an abundance of receiving money, when in fact all successful entrepreneurs will attest that their success was mostly in part to "giving" something of value. The true Law of Attraction speaks of Spirit's eternal magnetic pull upon the soul towards realizing our greatest Self. The following acronym helps remind us - true P.R.O.S.P.E.R.I.T.Y. is the: "Principle Reasons Optimistic Service Produces Exponential Richness Inevitably THROUGH You " These teachings show how to use these universal principles to: Turn an unselfish desire into an idea... Form that idea into a specific intention... Transform that intention into a clear vision... How to then energize that vision... And finally, how to manifest that "energy in motion" so it becomes your real life experience It is all a degree of bringing the infinite potential inherent in Stillness into creation. We literally manifest from the Unmanifested. We "breathe life" from the Breathless. We vibrate the Vibrationless The Golden Egg represents the causal self (karana sharir) found in deepest meditation. And the golden egg is made in the image and likeness of the "Golden Goose" - our True Self Within you is the Source of all prosperity, success, abundance and fulfillment You don't have to wait until tomorrow to change your life; start reading today You'll be glad you did... "Many rivers... One Ocean; many branches... One Tree; many paths... One Destination; many stories... One Truth " 1 S.O.U.L. Publishing [www.selfawakened.com](http://www.selfawakened.com)

A driver of great courage, a young man full of life generous: Eugenio Castellotti lived just 26 years and five months - not much more than James Dean - and was a symbol of a love of motor racing, of challenge and risk. A victory of heart over reason was what they called his greatest success, the 1956 Mille Miglia win and it is to the beat of his heart that most of his brief existence is inexorably linked. A life which, for the first time, has been reconstructed after vast detailed research and is now a new book, published simultaneously by Giorgio Nada Editore in two versions, Italian and English. The author is Cesare De Agosini, one of the best-known motor sport writers, who has also given us the biographies of Tazio Nuvolari, Gilles Villeneuve and Clay Regazzoni, three authentic best sellers. His elegant writing style, rich with poetic inflection, goes well the mere chronological reconstruction of Castellotti's life. He digs deep into the soul of the man, to enable the reader to participate not only in the facts

---

but also the feelings, the passions, the emotions of this young man. This new book is complemented by an extraordinary collection of photographs, brought together by Gianni Cancellieri: beautiful pictures, many of them unpublished, that come from private collections and some of the most prestigious archives in Europe and America.
