Automotive News Penguin

#1 New York Times Bestseller The groundbreaking work that poses one of the  
most provocative questions of a generation: what is happening to the selves  
of adolescent girls? As a therapist, Mary Pipher was becoming frustrated  
with the growing problems among adolescent girls. Why were so many of them  
turning to therapy in the first place? Why had these lovely and promising  
human beings fallen prey to depression, eating disorders, suicide attempts,  
and crushingly low self-esteem? The answer hit a nerve with Pipher, with  
parents, and with the girls themselves. Crashing and burning in a  
"developmental Bermuda Triangle," they were coming of age in a media-  
saturated culture preoccupied with unrealistic ideals of beauty and images  
of dehumanized sex, a culture rife with addictions and sexually transmitted  
diseases. They were losing their resiliency and optimism in a "girl-  
poisoning" culture that propagated values at odds with those necessary to

survive. Told in the brave, fearless, and honest voices of the girls  
themselves who are emerging from the chaos of adolescence, *Reviving Ophelia*  
is a call to arms, offering important tactics, empathy, and strength, and  
urging a change where young hearts can flourish again, and rediscover and  
reengage their sense of self.

Complete Small Truck Cost Guide 1999 Intellichoice Incorporated  
Volume One traces the history of Opel and Vauxhall separately  
from inception through to the 1970s and thereafter collectively  
to 2015. Special attention is devoted to examining innovative  
engineering features and the role Opel has taken of providing  
global platforms for GM. Each model is examined individually and  
supplemented by exhaustive supporting specification tables. The  
fascinating history of Saab and Lotus begins with their humble  
beginnings and examines each model in detail and looks at why  
these unusual marques came under the GM Banner. Included is a  
penetrating review of Saab through to its unfortunate demise.  
Volume Two examines unique models and variations of Chevrolet and  
Buick manufactured in the Southern Hemisphere and Asia but never  
offered in North America. Daewoo, Wuling and Baojun are other  
Asian brands covered in detail. This volume concludes with  
recording the remarkable early success of Holden and its  
continued independence through to today. Volume Three covers the  
smaller assembly operations around the world and the evolution of  
GM's export operations. A brief history of Isuzu, Subaru and  
Suzuki looks at the three minority interests GM held in Asia. The  
GM North American model specifications are the most comprehensive  
to be found in a single book. Global and regional sales  
statistics are included. GM executives and management from around  
the globe are listed with the roles they held. An index ensures  
that these volumes serve as the ideal reference source on GM.
