But what are the wider effects of whistleblowing as an act of dissent on politics, society, and the arts? How does it contribute to new courses of action, digital tools, and contents? This urgent intervention based on the work of Berlin's Disruption Network Lab examines this growing phenomenon, offering interdisciplinary pathways to empower the public by investigating whistleblowing as a developing political practice that has the ability to provoke change from within.

Whitaker's Books in Print Haynes Manuals N. America, Incorporated Everything you need to know to restore or customize your classic Japanese motorcycle. Whether you want to correctly restore a classic Japanese motorcycle or create a modified, custom build, you need the right information about how to perform the mechanical and cosmetic tasks required to get an old, frequently neglected, and often long-unridden machine back in working order. From finding a bike to planning your project to dealing with each mechanical system, How

Japanese motorcycles have been the best-selling bikes in the world since the mid-1960s, driven by the "big four": Honda, Yamaha, Suzuki, and Kawasaki. Of course certain bikes have always had a following - Honda CB750, 305 Hawk, CB400-4, Benly; Suzuki GT750, Katana, GS1000S; Yamaha XS650, RD400 Daytona, TZ; Kawaski H1, H2, Z1R - and these have now become the blue-chip Japanese bikes leading collectors to seek out more common (and now more affordable) alternatives. This is the perfect book for anyone interested in classic Japanese motorcycles, as well as prepping a bike to build a cafe racer, street tracker, or other custom build.

From the publishers of Motorcycle Consumer News, *Shifting Gears at 50* is a one-of-a-kind motorcycling manual for returning and late-entry riders, essentially anyone 40 years old and up who's looking to hit the road on two wheels. Author Philip Buonpastore, a motorcycle journalist and retired US Air Force photographer, helps readers gear up to get back on a motorcycle (or get on one for the first time). In Part 1, "Becoming a Motorcyclist," Buonpastore discusses the basics of buying the right bike, gear, and equipment and getting the bike up to speed. The book continues with a good overview of learning to ride, the importance of taking a road course, venturing out on the first ride, and extending rides to long-distance jaunts. Throughout Part 1 are sidebars by riding-safety instructor and expert Walt Fulton, offering sound advice on safety precautions and execution for every leg of the new and returning

rider's journey. The author emphasizes what older riders should be aware of and which factors can affect their rides. Adding lots of great firsthand advice are humorous and helpful stories collected by the author and related by returning riders at various ages, from their late 30s to 60s. In Part 2, Buonpastore shares five of his favorite travelogues covering his long-distance tours around the US, from the American South to the west coasts. This section is illustrated by over 100 of the author's breathtaking photographs of the various locations he toured on his bike. The foreword to the book is provided by best-selling motorcycle author David Hough (author of I-5 Press's *Proficient Motorcycling and Mastering the Ride*). Hough writes, "If you're getting into today's motorcycling at an age your doctor would describe as 'middle aged' or 'senior,' do you yourself a clever favor and read Phil's book."
