The soft crash of waves that blissfully block out all other noise, the smell of two-stroke and lawn clippings, the first sip of cold beer, the laboured whir of the ceiling fan,

the sound of a bag of ice hitting the pavement, that feeling of salt on skin and even the smell of prawns on bin night.

Comedian Tim Ross uses the Australian Summer as a back drop for a new collection of nostalgic short stories.

26 Shocking Things They Don't Want You To Know The ATVs (all terrain vehicles) we know today had very humble beginnings in the mountainous farming regions of Japan. The muddy mountain roads became difficult for the farmers to travel during spring thaws and were almost impossible to drive over with conventional vehicles or big machinery. The Japanese, always a culture to modify and tinker with something until they could improve it, created the three wheeled ATV. This vehicle did wonders for helping the local farmers. The ATVs were less expensive than the larger farm vehicles and it proved to be an excellent little workhorse. This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land

warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.
