Magazine From dirt bikes
and jet skis to weed
wackers and
snowblowers, machines
powered by small gas
engines have become a
permanent—and
loud—fixture in American
culture. But fifty years of
high-speed fun and
pristine lawns have not
come without cost. In the
first comprehensive
history of the small-bore
engine and the technology

it powers, Paul R.
Josephson explores the
political, environmental,
and public health issues
surrounding one of
America's most dangerous
pastimes. Each chapter
tells the story of an
ecosystem within the
United States and the
devices that wreak havoc
on it—personal watercraft
(PWCs) on inland lakes
and rivers; all-terrain
vehicles (ATVs) in deserts
and forests; lawn mowers
and leaf blowers in
suburbia. In addition to
environmental impacts,
Josephson discusses the
development and
promotion of these
technologies, the legal and
regulatory efforts made to
improve their safety and
environmental soundness,
and the role of owners'
clubs in encouraging
responsible operation.

Synthesizing information
from medical journals,
recent environmental
research,
nongovernmental
organizations, and
manufacturers,
Josephson's compelling
history leads to one
irrefutable conclusion:
these machines cannot be
operated without loss of
life and loss of habitat.

The Four Stroke Dirt Bike Engine Building Handbook

Asian American women have long dealt with charges of betrayal within and beyond their communities. Images of their "disloyalty" pervade American culture, from the daughter who is branded a traitor to family for adopting American ways, to the war bride who immigrates in defiance of her countrymen, to a figure such as Yoko Ono, accused of breaking up the Beatles with her "seduction" of John Lennon. Leslie Bow here explores how representations of females transgressing the social order play out in literature by Asian American women. Questions of ethnic belonging, sexuality, identification, and political allegiance are among the issues raised by such writers as Jeanne Wakatsuki Houston, Bharati Mukherjee, Jade Snow

Wong, Amy Tan, Sky Lee, Le Ly Hayslip, Wendy Law-Yone, Fiona Cheong, and Nellie Wong. Beginning with the notion that feminist and Asian American identity are mutually exclusive, Bow analyzes how women serve as boundary markers between ethnic or national collectives in order to reveal the male-based nature of social cohesion. In exploring the relationship between femininity and citizenship, liberal feminism and American racial discourse, and women's domestic abuse and human rights, the author suggests that Asian American women not only mediate sexuality's construction as a determiner of loyalty but also manipulate that construction as a tool of political persuasion in their writing. The language of betrayal, she argues, offers a potent rhetorical means of signaling how belonging is policed by individuals and by the state. Bow's bold analysis exposes the stakes behind maintaining ethnic, feminist, and national alliances, particularly for women who claim multiple loyalties.

Ten essays discuss federal democracy, the form of government of the United States. The first essay discusses the origins of American federalism. The second examines why we have a federal system, the functions federalism serves, and the consequences of federalism for the American political system. Federalism in the Constitution and constitutional law are treated in the third essay. The importance of cultural pluralism in American life and the role of American federalism in supporting pluralism are the foci of the fourth essay. The roles that the local community, the states, and political parties play in the federal system are examined in essays 5, 6, and 7, respectively. State, local, and professional roles in citizenship education are discussed in the eighth essay. The ninth essay explores how high school U.S. history and government textbooks approach federalism. The concluding essay describes resources on federalism that can be used in curriculum development at the secondary and college levels. Many of the essays are followed by topics for further study and suggested readings for teachers. (RM)
