Most people know
that there are 70
million Baby Boomers
in America
today....but what is
less known is that
there are
approximately 100
million people in
America between the
ages of 16 and 30.
This generation has
just entered, or
will soon be
entering the work
force. And they have
no idea how to
invest, save, or
handle their money.
Young people today
come out of school
having had little or
no formal education
on the basics of
money management.
Many have large
debts from student
loans looming over

their heads. And many
feel confused and
powerless when their
pricey educations
don't translate into
high paying jobs.
They feel that their
\$30,000-\$40,000
salary is too meager
to bother with
investing, and they
constantly fear that
there will be "too
much month left at
the end of their
money." Douglas R.
Andrew has shown the
parents of this
generation a
different pathway to
financial freedom.
Now Doug and his
sons, Emron and Aaron
- both of whom are in
their mid-20s - show
the under-30 crowd
how they can break
from traditional 401k
investment plans and
instead can find a

better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

By 250 AD,

Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new

doctrine reached the island nation of Japan where it was well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.
