Sex is the rhythm of life. " In this essential book written by Soham Hamsa (pseudonym), we hear a friendly voice from the Himalayas directed to all those who are genuine truth seekers and lovers of life anywhere on this planet, containing a deep concern for their naturality and attitude toward sex and sexuality. It is obvious that the author has access to a unique knowledge and oral tradition from India and the Himalayas, which for a major part never before have been made known to the public. The book, which all the way through is logical in its composition, is straight to the point with a variety of practical exercises, and with its size, compactness, easily understood illustrations and richly furnished glossary, it really acts as a handy manual on the subject. And as such, it is probably the only really authoritative work in its field.

This second edition is both simply written and clearly illustrated by a person who is both an experienced technical engineer as well as a 'concertina tinker'. The topics covered range from fault-finding charts, basic examination and purchase advice through the common service and repair jobs and techniques to some of the more sensitive reed work. The manual has been considerably expanded from the first edition in both the breadth of topics covered as well as the depth of the coverage in each case. While always intended to meet the needs of players of all of the concertina systems, this edition goes out of its way to be as versatile as possible without sacrificing detail and usefulness. Whether intending to carry out running repairs, to service, to restore or just to know more about the innards of that strange and fascinating instrument, this Mally Publication will be an essential addition to the concertina player's toolkit.
