I have a original tmaxx that i
have been upgrading over
the last year. I upgraded to a
3.3 not that long ago so i
wont be swapping out the
motor any time soon but i
am looking around right now
anyways. The two motors i
am looking at are the Picco
.26 MAX JLR RED-DOT
and the O.S. FS-26S-C
Version II. The Picco should
just bolt in from what i have
read and the O.S. needs to
have a bigger chassis.
