The Scars That Have Shaped Me Crossway

In Teaching to Justice, Citizenship, and Civic Virtue, a group of teachers considers how students learn and what students need in order to figure out what God is requiring of them. The teachers hear from experts in the fields of civic education, the arts, politics, business, technology, and athletics. In addition, they talk about their own learning and what they want students to know about life after high school. This book, along with its discussion questions, will help parents, teachers, school board members, and administrators talk about what it means to help students work toward God's shalom in a broken but redeemed world.

The End of Sexual Identity Wm. B. Eerdmans Publishing

Restoring the Vocation of a Christian College examines the vocation of a Christian institution of higher learning--to faithfully educate students--and how individual Christian teachers and scholars can participate in this process no matter their discipline. It surveys and engages developments over the last few decades in Christian worldview studies, Christian pedagogy, character formation, and vocational reflection. Through individual essays by college administrators, cocurricular staff, and faculty from a wide range of disciplines, it provides both thoughtful reflection and concrete application of these often abstract concepts to specific institutional settings and the actual classroom experience.

The Fabric of Theology Multnomah

New York Times bestseller What is Jesus worth to you? It's easy for American Christians to forget how Jesus said his

followers would actually live, what their new lifestyle would actually look like. They would, he said, leave behind security, money, convenience, even family for him. They would abandon everything for the gospel. They would take up their crosses daily... But who do you know who lives like that? Do you? In Radical, David Platt challenges you to consider with an open heart how we have manipulated the gospel to fit our cultural preferences. He shows what Jesus actually said about being his disciple--then invites you to believe and obey what you have heard. And he tells the dramatic story of what is happening as a "successful" suburban church decides to get serious about the gospel according to Jesus. Finally, he urges you to join in The Radical Experiment -- a one-year journey in authentic discipleship that will transform how you live in a world that desperately needs the Good News Jesus came to bring. The election of President Donald Trump, through his campaign of race-baiting, sexual harassment, and blatant disregard for human decency, lowered the moral bar of American public discourse. Julius Bailey ' s latest book discusses the current state of hypocrisy and mistrust in the American political system, especially as these affect ethnic minorities and low-income groups. In powerful and inspiring prose, Bailey writes with a voice well informed by current events, empirical data, and philosophical observation. Bailey looks at the causes and consequences of this new era and applies his passionate yet astute analysis to issues such as hate speech, gerrymandering, the use of the Confederate flag, and America ' s relationship with the gun.

Understanding the Culture Springer

In our Western, post-Christendom society, much of Christianity's cultural power, privilege, and influence has eroded. But all is not lost, says bestselling author Gerald Sittser. Although the church is concerned and sobered by this cultural shift, it is also curious and teachable. Sittser shows how the early church offers wisdom for responding creatively to the West's increasing secularization. The early Christian movement was surprisingly influential and successful in the Roman world, and so different from its two main rivals--traditional religion and Judaism--that Rome identified it as a "third way." Early Christians immersed themselves in the empire without significant accommodation to or isolation from the culture. They confessed Jesus as Lord and formed disciples accordingly, which helped the church grow in numbers and influence. Sittser explores how Christians today can learn from this third way and respond faithfully, creatively, and winsomely to a world that sees Christianity as largely obsolete. Each chapter introduces historical figures, ancient texts, practices, and institutions to explain and explore the third way of the Jesus movement, which, surprising everyone, changed the world.

Living together in the midst of diversity is an issue of pivotal importance all over the world, in particular for people involved in the education of the younger generation. The search intended in this publication is to find the means to go beyond mere tolerance of differences. Education as envisioned in this book engages learners in active citizenship and enables pupils and students — young people — to transform their social environment. Learning about the other, and — to a certain extent — appreciating the other's perspective, together with acquiring dialogical skills are key elements for learning to live together with people from different cultural backgrounds and with diverse religious and secular worldviews. Hence, faith development, dialogicality and citizenship are central themes in this publication. This book brings together the latest insights and ‘best practices’ available in the fields of religious education from around the world, which are reflected upon by distinguished scholars in the field. The input provided by the three parts of this book will give every educator further food for thought, be it in the classroom, at home or in leisure activities. The diversity approach of this book is mirrored in the composition of the team of editors. Duncan Wielzen is a theologian with research interest in religious education in plural societies; Ina Ter Avest is a psychologist with a focus on the intersectionality of psychology, culture and religion. The focus of both editors is on (inter)faith education, its implication and further development.

Visions of Vocation Harvest House Publishers

Most people see trouble as something negative and seek to avoid it whenever possible. But what if it's those troubles that actually lead to greater blessing and purpose? In *The Blessing of Adversity*, a retired U.S. Navy admiral and the 62nd chaplain of the U.S. Senate distills the wisdom gained from thirty years as a counselor, theologian, and psychologist. Barry Black offers a blueprint for removing the sting of life's trials, showing us how to let God use our pain for his glory by blessing others—and how that can actually help heal our own pain. Drawing on Scripture and his own experiences as a counselor and chaplain to some of the most powerful people in the world, Black teaches us how to deal with seasons of God's apparent silence, offers techniques for staying encouraged in the middle of life's storms, and shows how to find advantages in adversity.

Using the form of the classical symphony as an analytical and critical tool, Sidney Green examines the concepts of orthodoxy and heresy and their historical development in the Christian church and applies those to the confessional approach of the Global Anglican Future Conference (GAFCON). Using examples from history of the early church, the Reformation, and the contemporary emerging church, Green examines how the concept of boundaries and the exercise of ecclesiastical authority have been applied. Contemporary attempts to respond to the postmodern paradigm producing a neo-dynamic view of orthodoxy, including radical ideas in the area of sexuality, are examined. Recognizing a dynamism in Anglican orthodoxy that is still very much alive alongside present attempts of conservative minorities to impose their view on the Communion--sometimes by very devious means--the distinctives of Anglican ecclesiology are discussed in the belief that ecclesiology is the outward expression of what theologically undergirds Anglican orthodoxy. Current attempts to bring harmony and stability in place of fracture and dissonance culminating in the suggestion of an Anglican Covenant are examined. Possible alternate ways forward are suggested centered on the primacy of love.

"Matthew Barrett leads us to marvel at both how much and how little we know of God."--Tim

Challies, blogger at challies.com; author of *Visual Theology* For too long, Christians have domesticated God, bringing him down to our level as if he is a God who can be tamed. But he is a God who is high and lifted up, the Creator rather than the creature, someone than whom none greater can be conceived. If God is the most perfect, supreme being, infinite and incomprehensible, then certain perfect-making attributes must be true of him. Perfections like aseity, simplicity, immutability, impassibility, and eternity shield God from being crippled by creaturely limitations. At the same time, this all-powerful, all-knowing, and all-wise God accommodates himself, exhibiting perfect holiness, mercy, and love as he makes known who he is and how he will save us. The attributes of God show us exactly why God is worthy of worship: there is none like him. Join Matthew Barrett as he rediscovers these divine perfections and finds himself surprised by the God he thought he knew. "Matthew Barrett's excellent book lays out in clear, accessible terms what the biblical, historic, ecumenical doctrine of God is, why it matters, and why its abandonment by great swathes of the Protestant world is something that needs correction."--Carl R. Trueman, professor, Grove City College; author of *Grace Alone* "Perhaps not since R. C. Sproul has there been a treatment of such deep theology with such careful devotion and accessibility. Read this book. And stagger."--Jared Wilson, director of content strategy, Midwestern Baptist Theological Seminary; managing editor, *For the Church*; author of *The Gospel-Driven Church* "The knowledge of God is the soil in which Christian piety flourishes. I am grateful for the publication of *None Greater* and pray it will be a source of growth in godliness among those captivated by its vision of God's supremacy."--Scott Swain, president and James Woodrow Hassell Professor of Systematic Theology, Reformed Theological Seminary-Orlando; author of *Reformed Catholicity*

Mere Christianity Baker Academic

This book is an important step in clarifying the issues that come up when addressing the public square. It is an early effort towards a coherent theological frame for engagement in socio-political issues, this time rooted in the richness of a multi-faith context like that of India. While the church is the primary social context in which the saving power of God is made visible, this book equally insists that it is in the larger arena of what God is doing in the world that the kingdom's historic presence is felt. It is a fitting tribute to a man who has spent much of his life opening up the spaces where the Word is in vital conversation with the larger world. Teaching to Justice, Citizenship, and Civic Virtue Lexington Books

Restoring Justice: An Introduction to Restorative Justice, Sixth Edition, offers a clear and convincing explanation of restorative justice, a movement within criminal justice with ongoing worldwide influence. The book explores the broad appeal of this vision and offers a brief history of its roots and development as an alternative to an impersonal justice system focused narrowly on the conviction and punishment of those who break the law. Instead, restorative justice emphasizes repairing the harm caused or revealed by criminal behavior, using cooperative processes that include all the stakeholders. The book presents the theory and principles of restorative justice, and discusses its four cornerpost ideas: Inclusion, Encounter, Repair, and Cohesion. Multiple models for how restorative justice may be incorporated into criminal justice are explored, and the book proposes an approach to assessing the extent to which programs or systems are actually restorative in practice. The authors also suggest six strategic objectives to significantly expand the use and reach of restorative justice and recommended tactics to make progress towards the acceptance and adoption of restorative programs and systems.
