This introductory text provides readers with a robust understanding of tourism and its industries, including how destinations are developed, marketed and managed, and how tourism impacts communities, environments and economies. The authors discuss the critical issues affecting 21st century tourism, such as sustainability, the climate crisis, globalisation, community, technology, the environment and the sharing economy. The text has been fully updated in light of the Covid-19 pandemic and its notable, and in some cases lasting, impacts on the tourism industry. The text features new mini-case studies (snapshots) and international case studies from countries around the globe including USA, Saudi Arabia, India, China, New Zealand, Australia, Namibia and the UK. It discusses the latest trends in transport, hospitality, attractions and the travel trade and includes examples from major tourism companies including Trip.com, TUI and Airbnb. The book is suitable for students who are starting their tourism studies as part of their college or university education. Clare Inkson is a Senior Lecturer in Tourism and Course Leader of BA Tourism with Business at the University of Westminster, London. Lynn Minnaert is the Academic Director and Clinical Associate Professor at New York University ' s Jonathan M. Tisch Center for Hospitality and Tourism.

The role of the Foreign Service Officer of the United States altered radically during and after World War II. John Harr, who served as a staff member of the Commission on Foreign Affairs Personnel in 1962 and as Director of the Office of Management Planning in the State Department for four years, describes the changes and the response of the Foreign Service Corps to them. He provides a direct approach to the understanding of the professional diplomat and of the pervasive force of professionalism in modern American society. He also outlines managerial strategy to meet the growth challenge of the future. Originally published in 1969. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and

Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.

Must-Win Battles Power Farming in Australia and New Zealand Technical ManualPower FarmingWomen's Political Participation and Representation in Asia Must-Win Battles shows in a step-by-step way, how to identify the key goals that need achieving and how to win emotional and intellectual buy-in from the employees who make it all happen. By focusing on the right key short-term efforts you attain the twin benefits of delivering in the here-and-now, and making progress toward larger strategic goals. Businesses around the world are struggling for growth and profitability in today's fast-changing world. Those that achieve standout success are characterized by clear vision, focused execution, and commitment by people to doing what counts. But for the 99% of businesses that lack many of these attributes, how do they go about getting them? Should they turn to another management fad? Probably not. Senior managers are now sceptical in the face of "initiative overload". Instead they are looking for inspiration among real-world companies and real leaders. Based on a successful executive programme at IMD, one of the world's foremost executive education institutions and has been tested at some of the world's best-known companies, with intimate and compelling case studies running throughout, Must Win-Battles offers the inspiration and advice that many are looking for. "Enlightening and thought provoking in an era of cluttered agendas. Must Win Battles sets a clear path for leaders to focus their team's head, heart, and hands. Michael D. White, Chairman and Chief Executive Officer, PepsiCo International New York " Moving a company to the next level requires confronting the right challenges, and Peter Killing, Thomas Malnight, and Tracey Keys show how to pick your battles and then how to win them. Their Must-Win Battles provides a practical playbook for unleashing and aligning the intellectual and emotional energies essential for any business triumph. " Michael Useem, Director-Center for Leadership and Change Management, The Wharton School and author of The Leadership Moment "In "Must Win Battles" Peter Killing and Thomas Malnight have distilled their richly varied experiences drawn from many organizations over many years. Together they have created a practical handbook for all managers who are interested in re-energizing and improving their business performance. Must Win Battles is easy to read and brimful with practical advise; well worth a few hours of your time". Iain Ferguson CBE , Chief Executive , Tate & Lyle PLC. Named

European Businessman of the Year by Forbes Magazine, 2005 “ Working with must-win battles has fundamentally changed our approach to where we seek growth in the market and the way we engage our people in realizing these goals. Must-win battles are the glue that ties the business together globally, that everyone understands and can contribute to. The process clarifies for everyone the long-term vision and business direction, where to allocate resources and why it is important to get aligned. ” Diego Bevilacqua, President, Global Business: Foodsolutions, Unilever “ Every executive knows that there are certain battles that must be won for the business to be successful. This great new book provides a real-world, step-by-step approach to choosing the right battles in a way that helps unleash the organizational will to achieve them. Must Win Battles is a wonderful contribution to the art and science of management! So much so that it ’ s inspired me to launch my own MWB journey. ” Bob Rieder, President & CEO Cardiome Pharma Corp.

NorFor is a semi-mechanistic feed evaluation system for cattle, which is used by advisors in Denmark, Iceland, Norway and Sweden. This book describes in detail the system and it covers five main sections. The first is concerned with information on feed characteristics, feed analysis and feed digestion methods. The second section describes the digestion and metabolism in the gastrointestinal tract and the supply and requirement of energy and metabolizable amino acids. The third section considers the prediction of feed intake and physical structure of the diet. The fourth section focuses on model evaluation and the final section provides information on the IT solutions and feed ration formulation by a non-linear economical optimization procedure. This book will be of significant interest to researchers, students and advisors of cattle nutrition and feed evaluation.

The problems related to the process of industrialisation such as biodiversity depletion, climate change and a worsening of health and living conditions, especially but not only in developing countries, intensify. Therefore, there is an increasing need to search for integrated solutions to make development more sustainable. The United Nations has acknowledged the problem and approved the “2030 Agenda for Sustainable Development”. On 1st January 2016, the 17 Sustainable Development Goals (SDGs) of the Agenda officially came into force. These goals cover the three dimensions of sustainable development: economic growth, social inclusion and environmental protection. The Encyclopedia of the UN Sustainable Development Goals comprehensively addresses the SDGs in an integrated way. The Encyclopedia encompasses 17 volumes, each one devoted to one of the 17 SDGs. This volume addresses SDG 8, namely "Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all" and contains the description of a range of terms, to allow a better understanding and foster knowledge. The predominant economic model is promoting a lopsided economic growth that is further increasing the gap between the have and the have-nots. This SDG is not just proposing the attainment of more just and empowering economic models, but it also puts at the forefront the well-being of workers by striving to provide employment and better working conditions that respect the dignity of workers. Concretely, the defined targets are: Sustain per capita economic growth in accordance with national circumstances and, in particular, at least 7 per cent gross domestic product growth per annum in the least developed countries Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead Achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value Substantially reduce the proportion of youth not in employment, education or training Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers,

and end child labour in all its forms Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment Devise and implement policies to promote sustainable tourism that creates jobs and promotes local culture and products Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all Increase Aid for Trade support for developing countries, in particular least developed countries, including through the Enhanced Integrated Framework for Trade-related Technical Assistance to Least Developed Countries Develop and operationalize a global strategy for youth employment and implement the Global Jobs Pact of the International Labour Organization Editorial Board Rimjhim M Aggarwal, Rosa Maria Fernandez, Edurne A.
