Electrical Contracting Elsevier
Electrical Contracting, Second Edition
is a nine-chapter text guide for the

greater efficiency in planning and completing installations for the design, installation and control of electrical contracts. This book starts with a general overview of the efficient cabling and techniques that must be employed for safe wiring design, as well as the cost estimation of the complete electrical contract. The subsequent chapters are devoted to other electrical contracting requirements, including electronic motor control, lighting, and electricity tariffs. A chapter focuses on the IEE Wiring Regulations and Statutory Regulations to ensure compliance to

the fundamental requirements for safety. The discussion then shifts to visual inspection and testing in accordance with the IEE Wiring Regulations. The last chapter describes the special role of the Joint Industrial Council for Electrical Installation Contracting in introducing a rational and equitable incomes policy into the industry. This text includes many worked examples and illustrations to demonstrate how the technical and commercial aspects are put into practice.

Lesikar's Business Communication

Irwin/McGraw-Hill

The API Individual Certification Programs (ICP) are well established in the oil/gas/petroleum industries. API runs multiple examination sites around the world at 6-monthly intervals. The three main ICPs are: API 570: Certified pipework inspector; API 510: Certified pressure vessel inspector; API 653: Certified storage tank inspector. - Reviews one of API's three main ICPs: API 653: Certified storage tank inspector - Discusses key definitions and scope, inspection regimes and testing techniques relating to

tank design, linings, welds, protection systems, repair and alteration - API Individual Certification Programs (ICP) are well established in the oil/gas/petroleum industries
