 Part memoir and part philosophical look at why we travel, filled with stories of Matt Kepnes' adventures abroad, an exploration of wanderlust and what it truly means to be a nomad. "Matt is possibly the most well-traveled person I know...His knowledge and passion for understanding the world is unrivaled, and never fails to amaze me." —Mark Manson, New York Times bestselling author of *The Subtle Art of Not Giving a F*ck*
 Ten Years a Nomad is New York Times bestselling author Matt Kepnes' poignant exploration of wanderlust and what it truly means to be a nomad. Part travel memoir and part philosophical look at why we travel, it is filled with aspirational stories of Kepnes' many adventures. New York Times bestselling author of *How to Travel the World on \$50 a Day*, Matthew Kepnes knows what it feels like to get the travel bug. After meeting some travelers on a trip to Thailand in 2005, he realized that living life meant more than simply meeting society's traditional milestones, such as buying a car, paying a mortgage, and moving up the career ladder. Inspired by them, he set off for a year-long trip around the world before he started his career. He finally came home after ten years. Over 500,000 miles, 1,000 hostels, and 90 different countries later, Matt has compiled his favorite stories, experiences, and insights into this travel manifesto. Filled with the color and perspective that only hindsight and self-reflection can offer, these stories get to the real questions at the heart of wanderlust. Travel questions that transcend the basic "how-to," and plumb the depths of what drives us to travel — and what extended travel around the world can teach us about life, ourselves, and our place in the world. *Ten Years a Nomad* is for travel junkies, the travel-curious, and anyone interested in what you can learn about the world when you don't have a cable bill for a decade or spend a month not wearing shoes living on the beach in Thailand.

August is Ghost Month in Taiwan—a time to commemorate the dead: burn incense, visit shrines, commemorate ancestors, and avoid unlucky situations, large purchases, and bodies of water. Jing-nan, a young man who runs a food stand in a bustling Taipei night market, doesn't consider himself superstitious, but this August is going to haunt him no matter what he does. He is shocked to the core when he learns his ex-girlfriend from high school has been murdered. She was found scantily clad and shot in the chest on the side of a highway where she was selling betel nuts to passing truck drivers. Beyond his harrowing grief for this lost love of his life, Jing-nan is also confused by the news: "betel nut beauties" are usually women in the most desperate of circumstances; the job is almost as taboo as prostitution. But Julia Huang had been the valedictorian of their high school, and the last time Jing-nan spoke to her she was enrolled in NYU's honor program, far away in New York. The facts don't add up. Julia's parents don't think so, either,

and the police seem to have closed the case without asking any questions. The Huangs beg Jing-nan if he can do some investigating on his own—reconnect with old classmates, see if he can learn anything about Julia's life that she might have kept from them. Reluctantly, he agrees, for Julia's sake; but nothing can prepare him for what he learns, or how it will change his life.

How Taiwan can overcome internal stresses and the threat from China Taiwan was a poster child for the "third wave" of global democratization in the 1980s. It was the first Chinese society to make the transition to democracy, and it did so gradually and peacefully. But Taiwan today faces a host of internal issues, starting with the aging of society and the resulting intergenerational conflicts over spending priorities. China's long-term threat to incorporate the island on terms similar to those used for Hong Kong exacerbates the island's home-grown problems. Taiwan remains heavily dependent on the United States for its security, but it must use its own resources to cope with Beijing's constant intimidation and pressure. How Taiwan responds to the internal and external challenges it faces—and what the United States and other outside powers do to help—will determine whether it is able to stand its ground against China's ambitions. The book explores the broad range of issues and policy choices Taiwan confronts and offers suggestions both for what Taiwan can do to help itself and what the United States should do to improve Taiwan's chances of success.
