#1 NEW YORK TIMES BESTSELLER • In the propulsive debut novel from the host of the #1 true crime podcast Crime Junkie, a journalist uncovers her hometown's dark secrets when she becomes obsessed with the unsolved murder of her childhood neighbor—and the disappearance of another girl twenty years later. ONE OF THE BEST BOOKS OF THE YEAR: PopSugar You can't ever know for sure what happens behind closed doors. Everyone from Wakarusa, Indiana, remembers the infamous case of January Jacobs, who was discovered in a ditch hours after her family awoke to find her gone. Margot Davies was six at the time, the same age as January—and they were next-door neighbors. In the twenty years since, Margot has grown up, moved away, and become a big-city journalist. But she's always been haunted by the feeling that it could've been her. And the worst part is, January's killer has never been brought to justice. When Margot returns home to help care for her uncle after he is diagnosed with early-onset dementia, she feels like she's walked into a time capsule. Wakarusa is exactly how she remembers—genial, stifled, secretive. Then news breaks about five-year-old Natalie Clark from

the next town over, who's gone missing under circumstances eerily similar to January's. With all the old feelings rushing back, Margot vows to find Natalie and to solve January's murder once and for all. But the police, Natalie's family, the townspeople—they all seem to be hiding something. And the deeper Margot digs into Natalie's disappearance, the more resistance she encounters, and the colder January's case feels. Could January's killer still be out there? Is it the same person who took Natalie? And what will it cost to finally discover what truly happened that night twenty years ago? Twisty, chilling, and intense, *All Good People Here* is a searing tale that asks: What are your neighbors capable of when they think no one is watching?

But when a friend from the Marines commits suicide, Ash returns to civilization to help the man's widow with some home repairs. Under her dilapidated porch, he finds

more than he bargained for: the largest, ugliest, meanest dog he's ever encountered...and a Samsonite suitcase stuffed with cash and explosives. As Ash begins to investigate this unexpected discovery, he finds himself at the center of a plot that is far larger than he could have imagined...and it may lead straight back to the world he thought he'd left for good.

Ashley Fox has known three things since age twelve: she was an excellent seamstress, what her wedding would look like, and that she'd never leave the island of Getaway Bay. Now, at age 35, she's been right about two of them, at least. With an ill parent to take care of and her trusty sewing machine, Ash loves living in Getaway Bay and owning her own custom wedding dress shop. But the husband and wedding she's always dreamed of? Those seem like they're never going to happen for her. When her best friend and beach running partner, Burke Lawson, asks her for a favor she says yes. If she'd have known he was going to ask her to be his girlfriend-for-a-night because his father insists he "settle down" before turning over the multi-billion dollar flower company to him, Ash might have said no. Might have. She's had a crush on Burke for a while, but he's never been serious about anyone. Ever. She knows it's part self-preservation and part *fa ç ade*, but she has no idea how much she's willing to jeopardize in their friendship for a shot at something more. Burke has never told anyone about his past heart-crushing relationship, but he suspects Ash knows. She goes along with his player persona, but when he can't stop thinking about having her as his girlfriend for more than one day, he wonders if he can take this fake relationship into something real. And when he accidentally blurts that they're engaged? They become an island scandal. Can Burke and Ash find a way to navigate a romance when they've only ever been friends?

This series is intended for the rapidly increasing number of health care professionals who have rudimentary knowledge and experience in health care computing and are seeking opportunities to expand

their horizons. It does not attempt to compete with the primers already on the market. Eminent international experts will edit, author, or contribute to each volume in order to provide comprehensive and current accounts of innovations and future trends in this quickly evolving field. Each book will be practical, easy to use, and well referenced. Our aim is for the series to encompass all of the health professions by focusing on specific professions, such as nursing, in individual volumes. However, integrated computing systems are only one tool for improving communication among members of the health care team. Therefore, it is our hope that the series will stimulate professionals to explore additional means of fostering interdisciplinary exchange. This series springs from a professional collaboration that has grown over the years into a highly valued personal friendship. Our joint values put people first. If the Computers in Health Care series lets us share those values by helping health care professionals to communicate their ideas for the benefit of patients, then our efforts will have succeeded.

A yet heartbreakingly honest, endearing memoir of incredible weight loss by a young food blogger who battles body image issues and overcomes food addiction to find self-acceptance. All her life, Andie Mitchell had eaten lustily and mindlessly. Food was her babysitter, her best friend, her confidant, and it provided a refuge from her fractured family. But when she stepped on the scale on her twentieth birthday and it registered a shocking 268 pounds, she knew she had to change the way she thought about food and herself; that her life was at stake. It Was Me All Along takes Andie from working class Boston to the romantic streets of Rome, from morbidly obese to half her size, from seeking comfort in anything that came cream-filled and two-to-a-pack to finding balance in exquisite (but modest) bowls of handmade pasta. This story is about much more than a woman who loves food and abhors her body. It is about someone who made changes when her situation seemed too far gone and how she discovered balance in an off-kilter world. More than anything, though, it is the story of her finding beauty in acceptance and learning to love all parts of herself.

Caring for your pastor and the difference it makes. Caring for your pastor and the difference it makes. What do you think about your pastor? Do you chew over his sermons and wonder if they are clear and helpful? Do you feel he spends enough time with you? In fact, do you ever catch yourself wondering what he does all day? The truth is, often we think, "What can my pastor do for me?" Far less often do we think, "What can I do for my pastor?" Seasoned former pastor, Christopher Ash, urges church members to think about pastors not just in terms of what they do € “ how they lead and pray and preach and teach and so on € “ but about who they are. He encourages us to remember that pastors are people and to pray for them as they serve us. Paradoxically, caring for our pastor will be a blessing to us as well as to them, and create a culture of true fellowship in our church family.
