NATIONAL BESTSELLER • Provocative and illuminating essays from women at the forefront of the climate movement who are harnessing truth, courage, and solutions to lead humanity forward. “ A powerful

read that fills one with, dare I say . . . hope? ” —The New York Times **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SMITHSONIAN MAGAZINE** There is a renaissance blooming in the climate movement: leadership that is more characteristically feminine and more faithfully feminist, rooted in compassion, connection, creativity, and collaboration. While it ’ s clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it ’ s a dynamic that sets us up for failure. To change everything, we need everyone. All We Can Save illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. Curated by two climate leaders, the book is a collection and celebration of visionaries who are leading us on a path toward all we can save. Now, at age 35, she's been right about two of them, at least. With an ill parent to take care of and her trusty sewing machine, Ash loves living in Getaway Bay and owning her own custom wedding dress shop. But the husband and wedding she's always dreamed of? Those seem like they're never going to happen for her. When her best friend and beach running partner, Burke Lawson, asks her for a favor she says yes. If she'd have known he was going to ask her to be his girlfriend-for-a-night because his father insists he "settle down" before turning over the multi-billion dollar flower company to him, Ash might have said no. Might have. She's had a crush on Burke for a while, but he's never been serious about anyone. Ever. She knows it's part self-preservation and part fa ç ade, but she has no idea how much she's willing to jeopardize in their friendship for a shot at something more. Burke has never told anyone about his past heart-crushing relationship, but he suspects Ash knows. She goes along with his player persona, but when he can't stop thinking about having her as his girlfriend for more than one day, he wonders if he can take this fake relationship into something real. And when he accidentally blurts that they're engaged? They become an island scandal. Can Burke and Ash find a way to navigate a romance when they've only ever been friends? All Good People Here Mitchell Beazley

"Ten years after a car accident paralyzed my legs, a pressure sore infection escalated into a life-or-death scenario requiring emergency surgery, followed by an extended recovery in a nursing home. For weeks, I was confined to a special medical bed, where I was not allowed to sit up, but required to remain on my back 24/7. This is the story of my search for peace and sanity during that claustrophobic confinement, which subsequently led to a deeper understanding and alignment of my internal, eternal wellbeing." Author Ashley Lyn Olson "There has never been a more important time for healthcare to fully understand the patient experience and this book gave me greater insight into the journey. Along with some entertaining moments, the author's expressive reflections illuminate deeper themes that connect us all. Specifically, healthcare professionals and patients would all benefit from looking through the lens of her unique perspective." Allan "AJ" Johnson, MPT, Physical Therapist, Children's Hospital Director "As a person with a disability, I am in awe of Ashley's ability to choose light over darkness and embrace beauty in all aspects of life, no matter how difficult the circumstances. Her creativity and positive mind are articulated throughout the book, teaching us that our perception can lead us from adversity to a magnificent, spiritual path of appreciation." Wendy Crawford, Co-founder of RawBeautyProject.com "Ms. Olson's journey, as lovingly and humorously recounted in Confined to Align, artfully juxtaposes her rising and falling suffering with the beauty she finds in poetry, a joy list ("the smell of dirt"), a fleeting but necessary friendship (with Lola), and blissful slivers of nature. In these things she finds redemption, and her humanity becomes our own. Any physician or health care practitioner reading Ms. Olson's work will discover boundless empathy and compassion for themselves and the patients whom they serve." Jerome Bothe Deck MD, General Medicine "Ashley's blend of poetry, diary entries and reflection immerses the reader in her world. Her positivity and thoughtful approach provide a helpful template for any struggling with adversity." Ian Ruder, Editor, New Mobility; United Spinal Association "When one is paralyzed from a spinal cord injury it is so much more than just about not being able to walk. In Ashley's raw and intimate account of some of the other debilitating consequences of being paralyzed, we are taken on a journey that is simultaneously painful and up-lifting. What is thrown her way could have easily sent her into dark despair and been a depressing read, but instead we see a fierce, tenacious woman that is both samurai and mermaid (in her words), dive deep into her spirituality and choose to take control of her life. Her poetry is easily accessible and serves as a chiffon curtain to soften the harsh reality of her days in the hospital. The reader is left feeling confident that Ashley's life will be rich with possibilities. She's my rockstar!" Bonnie Lewkowicz, Founder, Access Northern California; Co-Founder, Dancer, AXIS Dance Company "In a time when we have all experienced isolation Ashley Olson recounts a slice of her life's journey when illness and isolation could have broken her. Instead through journal entries and poetry Ashley finds moments of hope and joy in unlikely places. This book can help others with spinal cord injury and/or disability embrace a different outlook when faced with long hospital stays and recovery. Additionally, we can all learn to look introspectively and take the time to get to know ourselves. Reveca Torres, www.BACKBONESONLINE.com

This book examines issues across the lifespan of transgender and nonbinary individuals whilst synthesizing conceptual work, empirical evidence, pedagogical content, educational experiences, and the voices of transgender and nonbinary individuals. It highlights the resilience and resistance of transgender and nonbinary individuals and communities to challenge narratives relying on one-dimensional perspectives of risk and tragic lives. While there is currently unprecedented visibility and increasing support, members of these communities still face shockingly high rates of violence, victimization, unemployment, discrimination, and family rejection. Significant need for services and support coupled with social, clinical, and medical service systems ill-equipped to provide culturally responsive care illustrates the critical need for quality education and training of educators, practitioners, and service providers in best practices of working with members of the transgender and nonbinary community. Organized into six sections: Health Areas of Practice Coming Out and Family Relationships and Sexuality Communities Multiply Marginalized Identities and Populations, this book offers a current, comprehensive, and intersectional guide for students, practitioners, and researchers across a variety of professions, including social work, psychology, public policy, and health care.
