It was the first day of school at Lakeview High, and everyone was afraid of something. Michaela Choi was afraid that Ethan Beck was never going to ask her out on a date. Andrea Beck was afraid that someone would find her weak spot, the chink in her armor. She was afraid of knowing what it was herself. Principal Downing was afraid she was going to die. Julie Reid was afraid that no one would notice her. She was also afraid that someone would. And there was a deeper, unnamed fear inside her that she couldn't escape—a fear that she was nothing and no one?? Yearbook is a captivating story about relationships and heartaches and fears and ideas and doubts and testimonies and everything that a teenage mind and backpack can contain. But most important, Yearbook is a novel about how everyone has something to offer and something to learn.

Fulfilling the Letter and Spirit of the Law Wheatmark, Inc.

Supermarkets, in all their everyday mundanity, embody something of the enormous complexity of living and consuming in late twentieth century western societies. Shelf Life, first published in 1998, explores the supermarket as a retail space and as an arena of everyday consumption in Australia. It historically situates and critically discusses the everyday food products we buy, the retail environments in which we do so, the attitudes of the retailers who construct such environments, and the diverse ways in which all of us undertake and think about supermarket shopping. Yet this book is more than narrative history. It engages with broader issues of the nature of Australian modernity, the globalisation of

retail forms, the connection between consumption and self-autonomy, and the highly gendered nature of retailing and shopping. It interrogates also the work of cultural critics, and questions recent attempts to grasp what it means to consume and to be a 'consumer'.

In Psychotherapy Reflections a psychoanalytically-informed patient describes his feelings about his therapeutic relationship and critically examines selected therapy sessions from a nine-month course of treatment. Many texts about psychotherapy are based either on patient narratives or on a clinical model. Psychotherapy Reflections, however, combines

patient narrative with probing insight and dream analysis based on the work of noted dream researcher Stanley R. Palombo, M.D., who has shown that dreams serve an information-processing function by matching present and past experience in determining what information will be filtered through for storage in permanent memory.

What happens when a TV show ends? More specifically, what happens when a prime-time, reality-TV, singing show ends? Of course, the obvious things happen, like the stage being cleared and audience members who watched the talented people on stage go home. But what happens with the contestants? What happens after the cameras stop rolling and viewers shut off their TV's? Mackenzie Heart wondered those questions fleetingly in her life, but she never thought she would find out the answers. Tears,
