There are important life lessons here, shared with wit and wisdom, by one of the country's most respected and loved pioneering gay authors, speakers, and mentors. Brian and Ray have been in love for 43 years. That love has endured some of the most challenging issues in life. Each time, with open communication, good humor, and loving kindness, their relationship grew deeper. Brian McNaught, is an

award-winning author of several books, including "On Being Gay," "Gay Issues in the Workplace," and "Sex Camp." In response to his book, "Are You Guys Brothers?" Congressman Barney Frank said, "No one has done a better job chronicling what it is like to be gay in America." Says McNaught, "We're a very happy gay make couple, privileged to have created family with great friends, and a series of amazing dogs. Jeremy, the Irish Setter, Brit, the yellow Lab, and now, Lincoln, the smart and affectionate Labradoodle service dog. Our famiky is not unlike your's, perhaps, but only if your family has been held together and molded with kindness, love, and laughter." Find here a series of short columns, first appearing in "South Florida Gay News," that tell some of the lessons Brian and Ray learned in 43 years of doing their best to be extraordinary husbands and dads. They were young men when they came together in Boston in 1976.

Brian was a fairly well-known gay activist at the time, and came from Detroit with Great Aunt Helen's chest of drawers, a twin bed, and Jeremy, upon whom he depended for a sense of belonging. He was Brian's family, and they both welcomed Ray, a money market banker, into it. He got into their car and the journey never ended. That began the love story known and celebrated by hundreds of thousands of people. The guys are in their senior years now and Brian has funny, moving, thought-provoking stories to tell. Lincoln has his own books, "The Lincoln Chronicles, Puppy Wisdom for Happy Living," and "A Young Dog's Take on Life." This book is Brian's 11th, Said McNaught, "I like the assembled writings in this collection. It speaks from my heart without pretense of how grateful I am to be gay and spiritual, and to have spent the majority of my life with a kind, thoughtful, generous man, and separately with three dogs. A grateful heart wants for nothing. I have no bucket list. I've done everything I want to do. Now, I write to give back all of the loving support I've received for my work across the globe on LGBTQ+ issues.

This book was written to help walkers take your dog out to an area that they just might like to go for a change. It contains ten easy to follow walks all of which are circular and varying in distance from 1.5 miles up to 5.5 miles, so this is anything from a quick stroll or onto something just a bit more testing for you not the dog? The dogs are

usually easily pleased with a good run, maybe a few sticks and an area with plenty of sniffs the job is very often done. But we walkers are more demanding we like good views, possibly refreshments along the way with an easy to follow trail with few obstacles nearby. The walks are all varied from forest, open fields, green lanes, bridleways and quiet country lanes. Most of these walks dogs are able to come off leads and get that extra bit of exercise that they all require. But unfortunately there are some walks where freedom is not so readily available, this could be due to a road or may be livestock in the fields but for whatever reason please be wise to the Country Code. Remember a dog will ways get excited when you reach and pick-up the lead and they never mind if it is a walk around the block or a route march over the hills. So make the ten circular walks provide a special day out for you and Man's Best Friend out and about together. Treat the dog walks as a stress relieving exercise because 5 minutes out and about you are totally relaxed, which is then transmitted to the dog. This takes you out into different parts of the countryside and maybe you would like to take a picnic just to make the day last a bit longer. Oh do not forget the ball, or the dog towel sure to be water and that means yes it is time to swim (unless you are a Standard Poodle of course). We are very lucky in Devon the whole area is very beautiful with many places for dogs to walk and run free, I have tried to keep the stile count down but they are mostly dog friendly. Please always remember the water bottles and dog bowls for a well-earned drink after a great day out in the country. The walks are different distances so if you have an older dog then take them out on the shorter routes, this makes them feel part of the excitement and fun of a special day for any dog. Happy Walking.

In the year 2020, racial tensions are on the rise throughout the United States. Protests and violence escalate throughout the country, and terrorists take advantage of the situation to launch a biological attack. Millions die—but even worse, the deadly disease known as canine flu afflicts the world's dogs, turning people's pets into

horrifying zombie dogs. In a small North Georgia town, those who survive the initial attack set out on a dangerous trip to Savannah, hoping to make contact with friends and family who have started a survivors' community. The US military and government struggle to regain control of the country from the USS Ronald Reagan, an aircraft carrier, stationed off the coast of South Carolina; from the Looking Glass Plane, a specially equipped Boeing 707 carrying vital military personnel; and US Strategic Command, or STRATCOM, in Omaha. Meanwhile, American society is in collapse; the power grid no longer functions, and nightly attacks from the zombie dogs mean all survivors are in constant danger. Even worse, the Looking Glass Plane goes down in Pennsylvania, leaving only a few people alive trying to rescue the nation from chaos. Only time will tell if they will succeed. In this novel, a terrorist attack brings about an apocalyptic landscape in which zombie dogs roam the night, changing survivors' lives forever.

WHO WOULD READ THIS BOOK ANYWAY? (a special note from the Author) A lot of people have told me (including my wife and kids), that no one is ever going to want to read this dumb dog book. And, even if they were willing to read it, they told me for sure- no one would pay to read it. I'M NOT LISTENING TO THEM. I know most people like dogs more than they like people and spend a ton of money on doggie stuff because it makes them feel good. So for those of you who doubt there is a market for this book- here is the proof: At this very minute, as I am writing this, I am sitting on an American Airlines jet. I have just reached into the seat compartment in front of me and pulled out this SkyMall product catalog. Some of the products in this catalog I just found available for dog owners to buy- that will sell in the millions this year include: dog

beds that keeps your dog stay cool and comfortable when resting, dog ramps that will help your dog get on your bed or sofa, portable dog feeders so your dog will never go hungry when you are not home on time from work, lotion that prevents dog tear stains under the eyes, fresh bowl savers- lids for doggie food bowls- to keep it fresh, poop boxes- the economical way to handle doggie waste, walk thru pet gates, doggie boosters for senior dogs- helps them get in and out of the cars easily, bark free- the safe way to prevent dogs from excessive barking, pet wheel away- take your dog wherever you go, back seat barriers- that keep your dogs safe in the car, the ultimate pet feeding and watering kit that prevents your dogs from overeating and here is my favorite- the personalized doggie garden bench - to honor your loved deceased dog. (I guess you bury your best friend in front or underneath the bench.) I rest my case. Buy this book and make yourself feel good - you will enjoy it! BRUNO is a friendly & funny dog. He knows that some children are afraid of dogs... That's why he decided to teach you how to understand dog behavior. This book is dedicated to my 31?2-year-old daughter Nika, who courageously overcame her fear of dogs. From the very day she was born, Nika grew up with a family dog at home. So, you're probably wondering, how her fear of dogs developed? It all started when we were walking in our neighborhood with our dog: a big dog that wasn't on a leash attacked our dog. Nika witnessed this scene and from that day, she refused to go back outside. Her fear grew deeper and deeper. We decided to take her to a special therapist, someone who could teach her how to deal with her fear. After a few sessions, Nika's confidence started to come back, as she learnt about a variety of tools and techniques to help her deal with her fear. One of those tools was knowledge. It was that knowledge that inspired me to write this book. This book was created so that you too can teach the 'Dogs Behavior Knowledge Tool' to your children in a fun and enjoyable way. I hope you enjoy it. "Good book on teaching your children how not to fear dogs." (~Elizabeth) "Valuable Lessons About Dogs Behavior" (~M.
