“ONE OF THE BEST BOOKS I’VE READ IN RECENT YEARS. THOUGHT PROVOKING, IMAGINATIVE AND PACKS A HELL OF AN EMOTIONAL PUNCH.” —Adrian Tchaikovsky, author of Children of Time From one of the most imaginative writers of her generation comes an extraordinary vision of the future... Ven was once a holy man, a keeper of ancient archives. It was his duty to interpret archaic texts, sorting useful knowledge from the heretical ideas of the Burning Age—a time of excess and climate disaster. For in Ven’s world, such material must be closely guarded so that the ills that led to that cataclysmic era can never be repeated. But when the revolutionary Brotherhood approaches Ven, pressuring him to translate stolen writings that threaten everything he once held dear, his life will be turned upside down. Torn between friendship and faith, Ven must decide how far he’s willing to go to save this new world—and how much he is willing to lose. “A riveting tale of subterfuge and deadly self-indulgence” (Publishers Weekly, starred review) from award-winning author Claire North, Notes from the Burning Age puts dystopian fiction in a whole new light. “ Mr. King looks at all our upcoming problems, and imagines a local reaction to each one. The result is often funny, usually sardonic, and always imaginative, what with all the mole rats, flesh drones, dimeheads, and especially ‘ The Grifter ’ s Guide to the Territories FKA USA, ’ a notable addition to the line of imaginary authorities. ” —The Wall Street Journal Indie Next Pick for July Best of June: io9, AV Club, Amazing Stories, The Verge Reed King ’ s amazingly audacious novel is something of a cross between L. Frank Baum ’ s The Wizard of Oz, Douglas Adams ’ s A Hitchhiker ’ s Guide to the Galaxy, Cormac McCarthy ’ s The Road, and Ernest Cline ’ s Ready Player One. In Reed King ’ s wildly imaginative and possibly prescient debut, the United States has dissolved in the wake of environmental disasters and the catastrophic policies of its final president. It is 2085, and Truckee Wallace, a factory worker in Crunchtown 407 (formerly Little Rock, Arkansas, before the secessions), has no grand ambitions besides maybe, possibly, losing his virginity someday. But when Truckee is thrust unexpectedly into the spotlight he is tapped by the President for a sensitive political mission: to deliver a talking goat across the continent. The fate of the world depends upon it. The problem is—Truckee ’ s not sure it ’ s worth it. Joined on the road by an android who wants to be human and a former convict lobotomized in Texas, Truckee will navigate an environmentally depleted and lawless continent with devastating—and hilarious—parallels to our own, dodging body pickers and Elvis-worshippers and logo girls, body subbers, and VR addicts. Elvis-willing, he may even lose his virginity. FKA USA is the epic novel we ’ ve all been waiting for about the American end of times, with its unavoidable sense of being on the wrong end of the roller coaster ride. It is a masterwork of ambition, humor, and satire with the power to make us cry, despair, and laugh out loud all at once. It is a tour de force unlike anything else you will read this year. Tales of the Earth St. Martin’s Press

Microdoses of the straight dope, stories so true they had to be wrapped in fiction for our own protection, from the best-selling author of *But What if We're Wrong?* A man flying first class discovers a puma in the lavatory. A new coach of a small-town Oklahoma high school football team installs an offense comprised of only one, very special, play. A man explains to the police why he told the employee of his local bodega that his colleague looked like the lead singer of Depeche Mode, a statement that may or may not have led in some way to a violent crime. A college professor discusses with his friend his difficulties with the new generation of students. An obscure power pop band wrestles with its new-found fame when its song "Blizzard of Summer" becomes an anthem for white supremacists. A couple considers getting a medical procedure that will transfer the pain of childbirth from the woman to her husband. A woman interviews a hit man about killing her husband but is shocked by the method he proposes. A man is recruited to join a secret government research team investigating why coin flips are no longer exactly 50/50. A man sees a whale struck by lightning, and knows that everything about his life has to change. A lawyer grapples with the unintended side effects of a veterinarian’s rabies vaccination. Fair warning: *Raised in Captivity* does not slot into a smooth preexisting groove. If Saul Steinberg and Italo Calvino had adopted a child from a Romanian orphanage and raised him on Gary Larsen and Thomas Bernhard, he would still be nothing like Chuck Klosterman. They might be good company, though. Funny, wise and weird in equal measure, *Raised in Captivity* bids fair to be one of the most original and exciting story collections in recent memory, a fever graph of our deepest unvoiced hopes, fears and preoccupations. Ceaselessly inventive, hostile to corniness in all its forms, and mean only to the things that really deserve it, it marks a cosmic leap forward for one of our most consistently interesting writers.

A wildly imaginative novel about a man who is reincarnated over ten thousand lifetimes to be with his one true love: Death herself. “Tales of gods and men akin to Neil Gaiman’s Sandman as penned by a kindred spirit of Douglas Adams.” —Kirkus Reviews (starred review) First we live. Then we die. And then . . . we get another try? Ten thousand tries, to be exact. Ten thousand lives to “get it right.” Answer all the Big Questions. Achieve Wisdom. And Become One with Everything. Milo has had 9,995 chances so far and has just five more lives to earn a place in the cosmic soul. If he doesn’t make the cut, oblivion awaits. But all Milo really wants is to fall forever into the arms of Death. Or Suzie, as he calls her. More than just Milo’s lover throughout his countless layovers in the Afterlife, Suzie is literally his reason for living—as he dives into one new existence after another, praying for the day he’ll never have to leave her side again. But Reincarnation Blues is more than a great love story: Every journey from cradle to grave offers Milo more pieces of the great cosmic puzzle—if only he can piece them together in time to finally understand what it means to be part of something bigger than infinity. As darkly enchanting as the works of Neil Gaiman and as wisely hilarious as Kurt Vonnegut’s, Michael Poore’s Reincarnation Blues is the story of everything that makes life profound, beautiful, absurd, and heartbreaking. Because it’s more than Milo and Suzie’s story. It’s your story, too. Praise for Reincarnation Blues “The most fun you’ll have reading about a man who has been killed by both catapult and car accident.” —NPR “This book made me laugh out loud. And then a page later, it made me sob. Reminiscent of Tom Robbins and Christopher Moore, Poore finds humor in the dark absurdities of life.” —Chicago Review of Books “Charming . . . surprisingly light and uplifting . . . It reads like a writer having fun.” —New York Journal of Books

LONGLISTED FOR THE 2020 MAN BOOKER INTERNATIONAL PRIZE A NEW YORK TIMES NOTABLE BOOK OF THE YEAR "Her most unsettling work yet — and her most realistic." --New York Times Named a Best Book of the Year by The New York Times, O, The Oprah Magazine, NPR, Vulture, Bustle, Refinery29, and Thrillist A visionary novel about our interconnected present, about the collision of horror and humanity, from a master of the spine-tingling tale. They've infiltrated homes in Hong Kong, shops in Vancouver, the streets of in Sierra Leone, town squares in Oaxaca, schools in Tel Aviv, bedrooms in Indiana. They're everywhere. They're here. They're us. They're not pets, or ghosts, or robots. They're real people, but how can a person living in Berlin walk freely through the living room of someone in Sydney? How can someone in Bangkok have breakfast with your children in Buenos Aires, without your knowing? Especially when these people are completely anonymous, unknown, unfindable. The characters in Samanta Schweblin's brilliant new novel, Little Eyes, reveal the beauty of connection between far-flung souls—but yet they also expose the ugly side of our increasingly linked world. Trusting strangers can lead to unexpected love, playful encounters, and marvelous adventure, but what happens when it can also pave the way for unimaginable terror? This is a story that is already happening; it's familiar and unsettling because it's our present and we're living it, we just don't know it yet. In this prophecy of a story, Schweblin creates a dark and complex world that's somehow so sensible, so recognizable, that once it's entered, no one can ever leave.

With the same unique vision that brought his now classic Mars trilogy to vivid life, bestselling author Kim Stanley Robinson boldly imagines an alternate history of the last seven hundred years. In his grandest work yet, the acclaimed storyteller constructs a world vastly different from the one we know. . . . “A thoughtful, magisterial alternate history from one of science fiction’s most important writers.” —The New York Times Book Review It is the fourteenth century and one of the most apocalyptic events in human history is set to occur—the coming of the Black Death. History teaches us that a third of Europe’s population was destroyed. But what if the plague had killed 99 percent of the population instead? How would the world have changed? This is a look at the history that could have been—one that stretches across centuries, sees dynasties and nations rise and crumble, and spans horrible famine and magnificent innovation. Through the eyes of soldiers and kings, explorers and philosophers, slaves and scholars, Robinson navigates a world where Buddhism and Islam are the most influential and practiced religions, while Christianity is merely a historical footnote. Probing the most profound questions as only he can, Robinson shines his extraordinary light on the place of religion, culture, power—and even love—in this bold New World. “Exceptional and engrossing.” —New York Post “Ambitious . . . ingenious.” —Newsday

Bram Stoker Award nominee for Best First Novel! "This claustrophobic, horror-leaning tour de force is highly recommended for fans of Jeff VanderMeer’s Annihilation and Andy Weir’s The Martian." -- Publishers Weekly (starred review) A thrilling, atmospheric debut with the intensive drive of The Martian and Gravity and the creeping dread of Annihilation, in which a caver on a foreign planet finds herself on a terrifying psychological and emotional journey for survival. When Gyre Price lied her way into this expedition, she thought she’d be mapping mineral deposits, and that her biggest problems would be cave collapses and gear malfunctions. She also thought that the fat paycheck—enough to get her off-planet and on the trail of her mother—meant she’d get a skilled surface team, monitoring her suit and environment, keeping her safe. Keeping her sane. Instead, she got Em. Em sees nothing wrong with controlling Gyre’s body with drugs or withholding critical information to “ensure the smooth operation” of her expedition. Em knows all about Gyre’s falsified credentials, and has no qualms using them as a leash—and a lash. And Em has secrets, too . . . As Gyre descends, little inconsistencies—missing supplies, unexpected changes in the route, and, worst of all, shifts in Em’s motivations—drive her out of her depths. Lost and disoriented, Gyre finds her sense of control giving way to paranoia and anger. On her own in this mysterious, deadly place, surrounded by darkness and the unknown, Gyre must overcome more than just the dangerous terrain and the Tunneler which calls underground its home if she wants to make it out alive—she must confront the ghosts in her own head. But how come she can’t shake the feeling she’s being followed?
