Tales of Mystery and Imagination Wentworth Press

A sweet little cat drives a man to insanity and murder.... The grim

death known as the plague roams a masquerade ball dressed in red.... A dwarf seeks his final revenge on his captors.... A sister calls to her beloved twin from beyond the grave.... Prepare yourself. You are about to enter a world where you will be shocked, terrified, and, though you'll be too scared to admit it at first, secretly thrilled. Here are four tales -- The Black Cat, The Masque of the Red Death, Hop-Frog, and The Fall of the House of Usher -- by the master of the macabre, Edgar Allan Poe. The original tales have been ever so slightly dismembered -- but, of course, Poe understood dismemberment very well. And he would shriek in ghoulish delight at Gris Grimly's gruesomely delectable illustrations that adorn every page. So prepare yourself. And keep the lights on.

Poe Simon and Schuster

In this complete and uniquely authoritative Library of America collection, Edgar Allan Poe's well-known tales of "mystery and imagination" and his best-known verse are collected with early poems, rarely published stories and humorous sketches, and the ecstatic prose poem Eureka. Poe's poetry is famous both for the musicality of "To Helen" and "The City in the Sea" and for the hypnotic, incantatory rhythms of "The Raven" and "Ulalume." "The Fall of the House of Usher" and "The Cask of Amontillado" show his mastery of Gothic horror; "The Pit and the Pendulum" is a classic of terror and suspense. Poe invented the modern detective story in "The Murders in the Rue Morgue," and developed the form of science fiction that was to influence, among others, Jules Verne and Thomas Pynchon. Poe was also adept at the humorous sketch of playful jeu d'esprit, such as "X-ing a Paragraph" or "Never Bet the Devil Your Head." All his stories reveal his high regard for technical proficiency and for what he called "rationation." Poe's fugitive early poems, stories rarely collected (such as "Bon-Bon," "King Pest," "Mystification," and "The Duc De L'Omelette), his only attempt at drama, "Politian"—these and much more are included in this comprehensive collection, presented chronologically to show Poe's development toward Eureka: A Prose Poem, his culminating vision of an indeterminate universe, printed here for the first time as Poe revised it and intended it should stand. A special feature of this volume is the care taken to select an authoritative text of each work.

The printing and publishing history of every item has been investigated in order to choose a version that incorporates all of Poe's own revisions without reproducing the errors or changes introduced by later editors. Here, then, is one of America's and the world's most disturbing, powerful, and inventive writers published in "the first truly dependable collection of Poe's poetry and tales." LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

Chilling Tales by Edgar Allan Poe Modern Library

Edgar Allan Poe was one of the most original writers in the history of American letters, a genius who was tragically misunderstood in his lifetime. He was a seminal figure in the development of science fiction and the detective story, and exerted a great influence on Dostoyevsky, Arthur Conan Doyle, Jules Verne, and Charles Baudelaire, who championed him long before Poe was appreciated in his own country. Baudelaire's enthusiasm brought Poe a wide audience in Europe, and his writing came to have enormous

importance for modern French literature. This edition includes his most well-known works--"The Raven," "The Pit and the Pendulum," "Annabel Lee," "The Fall of the House of Usher," "The Murders in the Rue Morgue"--as well as less-familiar stories, poems, and essays.

WORKS OF EDGAR ALLAN POE Solaris

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine

Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.
