Tales of Space and Time
Scholastic Inc.

A thrilling story by the legendary Diana Wynne Jones—with an introduction by Ursula K. Le Guin. London, 1939. Vivian Smith thinks she is being evacuated to the countryside, because of the war. But she is being kidnapped - out of her own time. Her kidnapers are Jonathan and Sam, two boys her own age, from a place called Time City, designed especially to oversee history. But now history is going critical, and Jonathan and Sam are convinced that Time City's impending doom can only be averted by a twentieth-century girl named Vivian Smith. Too bad they have the wrong girl. . . .

Space, Time and Magic

If I Were an Astronaut Del Rey

Back to the Future meets The Curious Incident of the Dog in the Night-Time in this original,

poignant, race-against-time

story about a boy who travels

back to 1984 to save his

father's life. My dad died

twice. Once when he was thirty-

nine and again four years later,

when he was twelve. On his

twelfth birthday, Al Chaudhury

receives a letter from his dead

father. It directs him to the

bunker of their old house,

where Al finds a time machine

(an ancient computer and a tin

bucket). The letter also outlines

a mission: travel back to 1984

and prevent the go-kart

accident that will eventually

take his father's life. But as Al

soon discovers, whizzing back

thirty years requires not only

imagination and courage, but

also lying to your mom, stealing

a moped, and setting your schoolspace."Deutscher reminds us that on fire—oh, and keeping your pet hamster safe. With a literary edge and tons of commerical appeal, this incredible debut has it all: heart, humor, vividly imagined characters, and a pitch-perfect voice.

A Tale of Time City Penguin

The concept of time travel -

moving through time the way

we move through three-

dimensional space - may in fact

be hardwired into our

perception of time. Linguists

have recognized that we are

essentially incapable of talking

about temporal matters without

referencing spatial ones. "In

language - any language - no

two domains are more

intimately linked than space

and time," wrote Israeli linguist

Guy Deutscher in his 2005

book "The Unfolding of

Language." "Even if we are not

always aware of it, we invariably

speak of time in terms of space,

and this reflects the fact that we

think of time in terms of

when we plan to meet a friend

"around" lunchtime, we are

using a metaphor, since

lunchtime doesn't have any

physical sides. He similarly

points out that time can not

literally be "long" or "short" like

a stick, nor "pass" like a train, or

even go "forward" or

"backward" any more than it

goes sideways, diagonal or

down.

TALES OF SPACE AND TIME
Knopf

Where am I in the solar system? A beloved bestseller, now refreshed with new art from Christine Gore, that will help children discover their place in the Milky Way.

Where is the earth? Where is the sun? Where are the stars? Now with new art by Christine Gore, here is an out-of-this world introduction to the universe for children. With Earth as a starting point, a young astronaut leads readers on a tour past each planet and on to the stars, answering simple questions about our solar system. In clear language, drawings, and diagrams, space unfolds before a child's eyes. Colorful illustrations, filled with fun detail, give children a lot to look for on every page, and a glossary helps reinforce new words and concepts. A terrific teaching tool, *Me and My Place in Space* is an easy and enjoyable way to introduce the concept of space to budding astronomers.

Somewhere In Time Capstone

The Cat in the Hat takes readers on an out of this world reading adventure through outer space! The Cat in the Hat's Learning Library is a nonfiction picture book series that introduces beginning readers ages 5-8 to important basic concepts. Learn about the solar system, planets, the constellations, and astronauts, and explore the wonders of space with the help of everyone's favorite Cat in the Hat! Perfect for aspiring astronauts, or any kid who loves learning and science. The universe is a mysterious place. We are only just learning what happens in space. Featuring beloved characters from Dr.

Seuss's The Cat in the Hat, the Learning Library are unjacketed hardcover picture books that explore a range of nonfiction topics about the world we live in and include an index, glossary, and suggestions for further reading.

Me and My Place in Space Borealis

From H.G. Wells to Isaac Asimov to Ursula K. Le Guin, time travel has long been a favorite topic and plot device in tales of science fiction and fantasy. But as any true SF fan knows, astounding stories about traversing alternate universes and swimming the tides of time demand plausible science. That's just what Paul J. Nahin's guide provides. An engineer, physicist, and published science fiction writer, Nahin is uniquely qualified to

explain the ins and outs of how to spin such complex theories as worm holes, singularity, and relativity into scientifically sound fiction. First published in 1997, this fast-paced book discusses the common and not-so-common time-travel devices science fiction writers have used over the years, assesses which would theoretically work and which would not, and provides scientific insight inventive authors can use to find their own way forward or backward in time. From hyperspace and faster-than-light travel to causal loops and the uncertainty principle and beyond, Nahin ' s equation-free romp across time will help writers send their characters to the past or future in an entertaining, logical, and scientific way. If you ever wanted to set up the latest and greatest grandfather

paradox—or just wanted to know if the time-bending events in the latest pulp you read could ever happen—then this book is for you.

A Tale for the Time Being

Vintage

A brilliant, unforgettable novel from bestselling author Ruth Ozeki, author of *The Book of Form and Emptiness* Finalist for the Booker Prize and the

National Book Critics Circle

Award “ A time being is someone who lives in time, and that means you, and me, and every one of us who is, or was, or ever will be. ” In Tokyo, sixteen-year-old Nao has decided there ’ s only one escape from her aching loneliness and her classmates ’ bullying. But before she ends it all, Nao first plans to document the life of her great grandmother, a Buddhist nun who ’ s lived more than a century. A diary is Nao ’ s only solace—and will touch lives in ways she can scarcely imagine. Across the Pacific, we meet Ruth, a novelist living on a remote island who discovers a collection of artifacts washed ashore in a Hello Kitty lunchbox—possibly debris from the devastating 2011 tsunami. As the mystery of its contents unfolds, Ruth is pulled into the past, into Nao ’ s drama and her unknown fate, and forward into her own future. Full of

Ozeki ' s signature humor and deeply engaged with the relationship between writer and reader, past and present, fact and fiction, quantum physics, history, and myth, *A Tale for the Time Being* is a brilliantly inventive, beguiling story of our shared humanity and the search for home.
