Welcome aboard the sex-drive void ship . . . Captain Genro commands the giant spaceship *Dragon Zephyr* - on board are ten thousand passengers in electrocoma, a smaller number of conscious passengers eagerly utilising the ship's dream chambers - and a Pilot. In the context of space travel, the Pilot is merely a biological component in the machine. Always a woman, her function is to

launch the ship into the Jump by means of a cosmic orgasm. She is a pariah, shunned by all. Void Captain Genro should never even have spoken to his Pilot, let alone tried to embark on a relationship with her. When he did so, the result was every space traveller's nightmare. The Girl Who Could Dance in Outer Space is the second book in The Girls Who Could Series. It tells the tale of young Mae Jemison, the creative girl who became a doctor, an engineer, a dancer, and an astronaut. Mae Jemison teaches us that art and science are natural expressions of creativity and imagination. Nurture

them both, and go where your dreams take you! The Girls Who Could is a fun, colorful series of stories about real women who have made a difference in the world through inspired action. By giving young girls examples of people who have done big, amazing things, children grow up with a template of achievement upon which to grow and expand their own dreams and goals. Praise for The Girl Who Could Talk to Computers: "Love love love this book! It is perfect for my small niece, who is always building and doing puzzles -- I can't wait

for more books from this authors for kids." "This book is a huge hit at home with at my toy store. Kids love the simple, bright pictures. Grown-ups love the intelligently written rhymes that get across the main message and accomplishments of Grace Hopper's innovative life, without boring or confusing the children. There are sixteen, 4-line stanzas, each accompanied by an illustration. The book is perfect for young kids that are just starting to read, and I really like how it is geared towards inspiring girls, yet the drawings and

story is not pink and frilly, so it can just as easily be read to boys, too. The main message of the book is that when you use your head "nothing's impossible, you can do it, you bet!"

The Feminist Architecture of Postmodern Anti-Tales Michael Grant For seventeen-year-old Ashley St. Helens, senior year is an endless stressfest with no hope in sight. Since her parents' death, she's had to deal with her micro-managing step-monster and her two narcissist step-sisters, whose fashion fetishes just make Ashley feel worse about her oversized

feet. With dirty dishes and stinky laundry piling up at home, it seems that the Universe has deemed her the real-life Cinderella, especially since popular Jeff Prince has forgotten she exists. With help from her drag queen fairygodwhatever—and just the right shoes—Ashley finds her voice and fights back against the "perfect" materialistic life that traps her. But will her

soulful transformation translate into the life she wants to have? Will she be able to escape to college, or will she have to give up on that dream? Post-modern, colorful, and quirky, Kristen Caven paints a relatable picture of teenage insecurities that will inspire readers to spark new conversations with their families about responsibility and empathy, morality and wastefulness, life

Erdelac, and David James Keaton as they unleash the carnage while breathing new life, and death, into the zombie genre. FANGORIA MAGAZINE REVIEW "As the book 's title indicates, DEADCORE achieves all extremes. Violent, perverse, depraved—and, as such, quite recommended." THE STORIES DEAD JUJU BY RANDY CHANDLER He's the mystery man on the news. Where he shows up, the shit goes down. The dead are rising, the

immigration issue has reached the boiling point, the living are screwed, and unspeakable acts are being performed upon all involved. In this tale of *Zombies Gone Wild*, yes the dead walk but just where the hell are they going and why? *Dead Juju* gives you the hardcore truth, if you're ghoulish enough to handle it. *NIGHT OF THE JIKININKI* BY EDWARD M. ERDELAC After a comet is observed in the western sky of feudal Japan, a murdered inmate

rises from the dead and attacks his fellow prisoners. Three disparate men: a casteless bandit, a mad, child-eating monk, and a renowned but sadistic samurai band together to escape the walled and moat-surrounded prison as it fills with the walking and ravenous dead. *ZEE BEE & BEE (A.K.A. PROPELLER HATS FOR THE DEAD)* BY DAVID JAMES KEATON At a "Zombie Bed & Breakfast" tourist trap, guests pay for the thrill of a staged

zombie assault during an apocalyptic scenario, acted out by sluggish hotel workers who are well-versed in the zombie genre. But soon the script doesn't go as planned, the guests become uncooperative, and the actors are taking their roles very seriously these days. *ZOMBIE SAFARI* BY BEN CHEETHAM Survivors of a zombie apocalypse have carved out new existences on islands, only visiting the mainland to hunt zombies. But

things start to go wrong. Zombies don't die as they should. Hunters go missing. A trip that's supposed to be fun turns into a struggle for survival as four men make a discovery that causes them to question not only what it means to be a zombie, but what it means to be human.

This monograph aims to counter the assumption that the anti-tale is a 'subversive twin' or dark side of the fairy tale coin, instead it argues that the anti-tale is a genre rich in complexity and radical potential that fundamentally challenges the damaging ideologies and socializing influence of fairy tales. *The Feminist Architecture of*

Postmodern Anti-Tales: Space, Time and Bodies highlights how anti-tales take up timely debates about revising old structures, opening our minds up to a broader spectrum of experience or ways of viewing the world and its inhabitants. They show us alternative architectures for the future by deconstructing established spatio-temporal laws and structures, as well as limited ideas surrounding the body, and ultimately liberate us from the

shackles of a single-minded and simplistic masculine reality currently upheld by dominant social forces and patriarchal fairy tales themselves. It is only when these masculine fairy tales and social architectures are deconstructed that new, more inclusive feminine realities and futures can be brought into being. Tales of Space And Time Illustrated Uplift Press Features both new interpretations of and

original stories inspired by traditional fairy tales.

Imagine what it would be like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero, Michelangelo. And imagine what it would be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark

Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation-and a very wealthy man. Soon, images of his toilet bowls are on more t-shirts, mugs, and calendars than Edvard Munch's The Scream. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and reacquaint himself with the "old masters." In Venice, Mark falls in love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he climbs up on a roof to find out who painted her favorite fresco. He falls off the roof and wakes up in 15th century Venice where he meets an innkeeper named

Francesca, who looks exactly like Alexandra. And it gets curiouser and curiouser from there. During his stay- which is sometimes zany and sometimes frightening-he meet his hero, Michelangelo, who teaches him the true meaning of art.
